

Little Pea's Daddy flung him on the spoon...and Little Pea flew all the way to the candy dish! Can you follow the line from Little Pea to the candy dish?

IDEAS: Try using a finger to trace the path...how about an elbow? Laminate and use a dry erase marker, or post on a wall and use a flashlight. Try different color crayons to form a rainbow of colors along the path. How 'bout Little Pea has to go backwards, from the candy dish to the spoon? (And don't forget that children can make their own path for a friend or teacher to try out!)
