### HALLOWEEN SHADOW CUT-OUT ACTIVITIES

Use the shapes below to help teach through shadows. We love using the shapes to “interact” on the wall as shadows. The ghost can approach the cat and say, “Hi. How are you?” We also love singing halloween songs using the figures to help “act out” the song. For shape recognition, add shapes to your show, try numbers, how about hands and fingers? For lighting, we like using a Ladybug, an overhead projector, a smart board projector’s light, a flashlight, or even the sun on pavement, outdoors!
