TEN RED APPLES BINGO

Print enough small animal photos so that each child has one set. Children will place each of their animals on their Barn BINGO Board when the animal is called, shown, sounded, or described.

Use the red barn printable below for children to add their animal pictures. Try using one, very large barn on a wall, the students can each contribute their animals to the barn. Counting all the animals afterwards creates a new activity. Expand more? Have children work in reverse order, removing animals from their playing board.

REINFORCER PRINTABLES

Print one set of the cards below for "calling out" or giving clues to the animal you are describing. These larger cards can be used in other forms of play to reinforce the story.
