PRIMER MAGNUS

“TRUTH OF BEING”

This dialog is not designed to please nor to fit a space, but rather to define a truth and bring it forward.

Love and truth are the same thing. You must experience for your individual selves that which brings contentment. Never follow blindly.

To bring peace you must first realize and fully understand that no one outside yourself can rule you inwardly, unless you give yourself over to that control.

Do not strive to be perfect in an ever-changing environment, instead perfect your unconditional love.

Distilled thought, is understanding without reasoning, it is a complete knowing. It exists as vapors of reformed energy; refined at the hand of the Divine for the work of (the) realms as they move forward towards the light. It is the methodology of the Angelic Realms.

We have entered the "Twilight of the Gods," when the final destruction of the old age of understanding will acquiesce to the transcendence into peace, harmony and understanding, fueled by compassion and unconditional love.

Given in simplicity, EPAS

Overture: The Journals of EPAS

As I attempt to edit this Journal, I do so with great humility and responsibility. It was gifted to me over 30 years of my earth life.

The editing is done at their bequest to offer a sense of Covance with the individual reader. An amount of personal dialog directed at myself and other individuals was left intact in the writings as it was deemed a learning curve for all reading the journals. Any parts omitted are directives that apply to my path specifically.

It is their wish and therefore mine as well that the reader be allowed to recover memories of their personal innate individual - truths and in that recovery find access to the Path Ways opening for them at this time.

I am grateful to EPAS and the host of Spiritual Beings who gifted their voice to this journal that I was allowed to have been a vessel of peace, offering this over bridge of freedom, to you the reader, to find your own truth.....

.....It is an epoch of great import in the timing of the recovery of the "Truth About Forever" and "Shattering the Hour Glass of Time", the prelude to unbound thought...and therefore true freedom.....

PRIMER MAGNUS Journal of EPAS

The portions of this journal are confined to (3) three areas of discussion. In an effort to assist the reader the journals are presented exactly as they were recorded, with the exception of personal treatises intended for the individual transcribing the information.

The tutorials are in plain type. They are precise and clear. The directives and the dialogue content are in italic print. They provide clues to the hidden understanding within the tutorials. The directives orchestrate the necessary task to achieve the work and the dialogue brings the two worlds together in conversation form.

So all three portions are critical components to provide the keys necessary for the reader to understand, at an innate level the incredibly powerful cosmic awareness offered in the Journals and in the other written documents provided by the eternal cosmic Being known as EPAS.

In order of their function:

1. Tutorials
The Eternal Truths of Being given in a precise format
2. Directives
Assigned tasks
3. Dialogue
Personal commentary for greater understanding and encouragement

The Journals of E.P.A.S.

2001~ January 2120
The Epoch of Transition

From: The Library of Knowledge

From the journals of EPAS 2001

We walked amongst the humans; (the humankind) and we flourished in our knowing, in our secret ways.

The essence of our Star Mother was our link back to the Divinity of Life. We came to carry the seed of wisdom, truth and knowledge forth for the last time.

We, our 601 were born in the same breath as our mother. We came fully awake and then traveled to the sacred isle that waited for us in the land of Somerset.

We lived in this place eons before the humans came. We traveled between our world and theirs and we wove the web of illusions of reality for their human minds needed this.

And then the time came when we traveled home no longer and began to settle to begin our work in the land of the humankind, knowing full well we would return home to our Mother Star when called.

We were/are the Children of the Stars, our descendents are called the Children of the Star Lit Lantern. We carried our Star Mother's Light across the spans of time on the Earth. We sang our songs and hid our wisdom and in truth we loved the humankind.

Over time we begin to share our lives with them and walked deeper into human life, eventually experiencing both death and rebirth and we each held tight to the thread that

held us as one and now the time had come to begin to reweave the return and come again to stand only amongst ourselves.

No longer free to roam, but called to walk the way of return to bring back life to the lines of songs we had long since placed on this place Earth.

Lines of power that would lead us and those of our once born, home.

The Celestial Bridge.

Language

Written across the terrain of the planet in letters of earth and stone, the Cosmic Knowledge of the original essences preserved in the ancient world, is once again within reach of those whose enlightened destiny has led them on to the Path Way.

Everything that has been known remains alive and may be recalled by any traveler along the Path Way.

All knowledge lives in the Library of Knowledge and is always there ready for the inquiring Soul traveling the Path Way to find.

The information stored there is incommunicable knowledge; accessible only to those Soul's who have crossed the great divide on to the Path Way of Knowing.

Within this sacred history lie all the answers a questing Soul requires to complete its learning curve.

This understanding lies not in ego driven thoughts contained within the mind of the human still trapped in reason.

Rather it exists in the aspects of the hidden universe, hidden in the true relationship of Nature and the sleeping soul of the humankind.

This barrier of time can be dissolved through the inner understanding of the musical synthesis of the Mathematics of the Stars.

The Soul whose understanding has given them wings has traveled within this understanding across space and time before the birth of mankind.

In the turning of human time, language has been seen to be the instrument that set mankind to drift in the chaos of the reasoning mind.

Science uses language to describe what cannot be explained into a chorus of reason, placing beyond the grasp of the sleeping mind the ability to awaken and move on towards enlightenment.

The existence of a universal civilization, enriched by virtues of a force/a power, activated by an innate connection to the mathematical structure of the true Forces of Nature holds the key to unlocking the passages so long blocked by the rhetoric of exact science.

Hidden within these Universal Laws are the instructions for the recovery of all knowledge, both known and hidden, that seen and unseen, the geometric resonance of the Eternal Life Force, the inherent harmony of the Celestial Forces of Being.

Hidden deep in the flow of the terrestrial magnetic current and the celestial energy of the Divine exists, the place of sacred center.

In this place all things are whole and are innately holy.

The true language of the stars began in the Great Nebula where the balance of equilibrium is continually formed and held in place.

This was the language by which the planets and the stars were set in motion.

It is a sounding of tones, hermetically tuned vibrations, which call to order all the essences of life in the known and unknown universes: the Germatria.

The spoken word of “true language” is the most powerful tool available to the awakening Soul as it journeys to completion.

There can be no reunion with its sacred self, until and unless the Soul possesses the ability to call forth its Divinity, and this Divinity is held fail safe with in the structure of the ancient laws of the definitive language.

The Source of this original Sound was the seat of Divinity, sent forth to be the system of watchtowers, which awakened a traveling Soul to the potential of this wisdom at the given times.

Through out millennium there have been guideposts along the way; Natural Philosophers whose task it was to unravel the damage done by the insertion of false history.

This false history bore witness to the creation of the split between Nature, the Forces of Nature, and man's natural state; that of being at one within the conduit of Nature at the center of its Divinity.

This false history created the fracture, which further alienated humanity from Nature.

It removed the act of doing from the basic mindset of humanity and in its place ego began to take hold.

The way Nature was viewed, was deteriorating, based on the new system of language formed by reason based philosophy established within the confines of the Greek Ionic language and then driven home by the guilt ridden, fear based religions that flourished as the rampage of the reason driven, ego centered, soul capturing vampires of humanity established a foot hold across the Earth.

Trapped within the soiled language, humankind began to view Nature as separate and apart, the Organic Philosophy of Life now forgotten and in its place, the "arrogance of humanism".

The inner connection of the true human essence, to true Nature and therefore true Divinity, remained alive only in the hearts of those Souls whose hearts beat in unison with the Source of All Life.

All else faded and purely subjective ignorance took root in the minds of humanity.

Over time the arrogance of this way of organized thinking has “taught” humankind that “they” could organize Nature according to what, their rational neo-cortex believed it to be.

Abstract Nature was replaced by chaotic existence.....

As a result of this in due time the Souls of the Original Thought Essences gathered into the Baskets of Knowledge of The Turquoise Woman.

They gathered to be held in a sacred trust from where they would move out to reunite with the Land of Spirit after 1,000 years of learning.

There was only this, the energy of the flowing heart, the talk of the gathering and the coming together of Souls destined to be reunited with the Path of Renewal.

Within this basket the teaching of a true “universal cosmology”, flourished and became strong once again.

It gained strength and wisdom and stood at last ready to recover what has been lost so long ago to the humankind.

Slowly the hidden efforts of the original essences began to be seen in the traces of Natural Philosophy.

The synthesis of knowing began to resurface on the Earth.

It was to be a carefully measured process of natural growth designed to recover the numerological link to re-create understanding in the reasoning mind of the humankind.

It was a language based in balance with the true cosmic pattern of Divinity, not within the reasoning minds ego driven concept of religion.

This was congruent with the element of unity, not fear based separation.

Natural principals began to gain strength and to have effect on the human soul.

A return to an ancient form of knowing, Germatria, began to reconnect within the hearts of some of the humankind.

Within the ancient practice of Germatria literary language is extended by the inclusion of the hidden mathematical structure of the prime numbers vital to the alignment of the solar system.

This ancient cosmology concealed a geometry once known and passed by oral tradition alone.

The “keys” to this cosmology can be found in the monuments of antiquity, by referencing their measurements and their physical location to the Map of the Heavens.

Within these tenets is held the mathematical illustration of the course of humanity.

The ultimate goal of this renewed thought process is to transcend the material state past time and space to Infinity.

This is the language of cosmology, not the language of exact science.

Within this cosmology, exist with certainty, the unity linking the macrocosm with the microcosm and those then to the visible universe.

The fusion of celestial and terrestrial elements establishes mathematical laws governing all natural growth in celestial motion and the evolution of all life forms.

And in the Baskets of Knowledge held within the Turquoise Woman’s tiny hands, the dust gathered and a new planet came to life and was placed in the Beta System; the first step along the path to lead the humankind home to Omega.

For a millennium now it was tracked and had been seen to by the Angels of the Realm of Light, to bring to fulfillment, the Recovery of Hope to the awakened Souls of the humankind.

EPAS

Now begins the chronicles of The Journal of EPAS
1978 – 2010 AD

Panels

And now that the lines are clearer and the time is fading you may begin to see the defined panels of the usable space-time removal. For it is within the multitude of finite panels now in place that the space-time continuum is held.

The molecules of the past, present, future have enfolded into the one and true strand of the structured DNA. Now this is the coming of the movable patterns of thought. In this venue there are no confines of stasis.

And now these panels are of dyne time construction and are of ancient origin and have come again unto the land of the human kind to bring about a reconstruction of the rules and regulations that govern the universe divine.

There have been “time and time” again these panels set in place in worlds that are moving at an accelerated pace to provide for them the modality of function and immediate break away construction so that in the new pace there is not the room for error on the part of the human kind nor of lower realm lords whose desire it is to bring about the fall of the paths of evolution.

For there are lightening bolts of knowledge preparing to enter into your sphere of self constructed “reality” patterns that will change the force of who and what the human race is “perceived to be”.

There is more movement headed your way than you as a third world species, can begin to comprehend and the panels will bring forward the adaptation of this knowledge and allow it to be processed with as little destruction from your human ego driven need to control as possible, otherwise your planet would self destruction from your greed.

Therefore we ask that you walk in the process of knowing that you are guided and protected from afar and will always be. For in the concourse of the enlightened ones there is love and caring for your kind and the seeds of the children of the Mother Star are here at this time to reawaken the sleeping prophets of your world and allow them to remember for in remembering you will find your way home and home is after all the goal.

Bid time return so that you may make your way homeward Angels.

(There is a request to refer back to Tenet #10 in Shattering the Hour-Glass of Time, by EPAS)

So now the time indeed comes and is here in deed and fact. Everything you have known is now reversed and changed to bring forward the newer meaning of the word Crusade. In this crusade, much like the salvation of the human kind who made the crossover to the threshold of the second born, truth can be found. For it is only in this venue that the reversal of the times past can be obtained.

Watch ever vigilant as you move along the eve of the edge of time renewal. For there will be many- many thousands who are not seeing as you are. They journey, yet they are still seeing via the lens of octagon frames. These are transparent and fade over the course of travel, but only in due time.

Yours are the clear glasses of the watchtowers. You are watching and setting forth the knights in their quest to deliver the messages that are to be the post markers of the Path Way and the keys to the kingdom of the removal of the souls from the network of time and space and shatter the illusions of the now existent restraints.

Move along this line with joy and yet with care. You are to sing your song from the place of your heart-soul that is no longer human in nature. You are the watchtowers of the benevolent Spirits of the Gods of Light and the rulers of the Kingdom of the Realms of Light. You are but a flame and yet that flame is all that can light the watch fire and guide the seekers along the path to the destination of their callings.

No more no less. Yet it is divine in reckoning. Be vigilant and stand your places. Watch without looking. See without eyes and hear with out ears. Hear and see only via your heart for it is the seat of your spiritual Soul. No longer are you to revisit that which is past. Leave it and go forward.

Go forward in time and then homeward Angels. See to it because the hours of midnight call to you soon. Be ready. Be prepared and move within the power you have always held silent and now have brought to light. As always we are with you without end.

And the 25 attending Angels come for reasons you do not yet fully understand; in time you will look back and understand.

For now it is as if you sleep and they aid in guidance of this Path Way, for its purpose is ultimately precise and necessary to become fully realized.

You are yet at the portals of the ether worlds. You can freely stand within its realms and come and go at your call to destiny. However, you cannot without proper aid and guidance and the correctness of the guiding Light that crosses all boundaries and borders.

You are a for real luminary and the Light base attending Angels are your guideposts along the Path Way.

There is much to learn and see.

Fear not he comes, but he comes at his destined time. Allow it to harbor your Soul's request. Trust your heart. Follow it to the Path Way of Dreams.

There were three large arch A's (Angels) standing one behind the head of the bed and one at each foot. The one behind the bed had a drawn sword pointing up towards. Each was facing inward towards the bed; wings spread almost covering the bed in a canopy. They formed a triangle. The one with the sword drawn said to me:

For we are the emissaries of the higher forms of Light sent to guide these events as they hold tremendous portents for the work that is to come. In these venues you must hold steadfast to the virtues of those gone before and those yet destined to come.

For narrow is the pathway at this juncture and it sits not in the straight and easy, yet it is a given thing for you to travel and traverse this part of the journey and to carry with you the Star Lit Lantern that will leave behind the Light path necessary for those whose hearts will follow.

See to it in this time that you are ready and that you listen with the watchful eye and ear.

In standing before you this night we have come to guide and protect that the hand of the Divine (God) may rest in all things and that you may rest assured that you walk the way of the truth.

For now in this time there is much, which jockeys to come to pass. All things will set in these times; trust in this. For within these times are the beginnings of the rhythms of the Song of Forever.

Now this venue comes quickly, be ready, and be prepared. There will be much to see and hear as this portion of the riddle comes to the table. The precision of command is at an all time high.

Required in this coming together is the Venue of Knowing. Now at hand all is ready. All must be received at the proper time, but be aware that is only a perceived point of awareness.

In the annals of time past and time yet to come lies the reasons and the rhymes of the yet (unknown) verses of the coming forward. In due time, in sweet due time, the Angel of the Divine will show you all that you seek.

Until such time, trust in the faith of the one truth. The way home lives in this, little one of the stars. For now know all you require is within your grasp.

You are never, never alone, trust in this. Look to the stars and see their Light as it comes across the portals of the Divine.

The books are as they MUST be in this time. Fret not--worry not. You are walking this path for many. Hold to your cause. The steep path is sloping to become the garden path. You can relax.

Be at ease and rest for all is exactly as it MUST be in this moment.

As all things must be as they are. Dwell in this place yet a brief time more then go forth to the final resting place. The way will show it's self.

For the faith of this is the key to the rhythm.

We stand to hold you in purity of heart so that your heart may witness the events that must come to pass with clarity of purpose. We set you apart and sanctioned so that you may be the witness of the work here to fore known as the Resurrection.

Be watchful and continue to hold these things in your truest of heart as you have through out eternity. As always we wait just outside the veil.

Remain vigilant, even as we shall on your behalf at the request of the Divine. Continue to follow your truest of hearts.

Along the fine lines and roadways of the human heart exist the nexus points of Light, which map the journey of the human soul.

Within these stylized fissures are the vernal vibrations of destiny and discovery.

Traveling within these venues are the fractural patterns of the cause and effect of lives played out across time and space. It is therefore an “every-ending”, “new beginning” scenario of death and renewal.

Combined thought, matter and evolution via fusion of ethereal energy patterns to form a cohesive whole.

Within these venues and vignettes exists all conscious awareness traveling across the mind patterns of human thought. Within this “structure” lies all the power necessary to create/develop all that is needed to complete any and all work undertaken by the human in any given life scenario.

This then is the Truth behind, “follow your heart”.

Within these boundaries lies the Virtue of the Soul brought to bear on the time and sojourns of the cosmic awareness.

This then is the Greater Good.

Confined within these pattern exist all that is. There is no more.

Be at peace with your journeys and set forth to find your inner eternal truth among the fissures and lines of the Map of Forever.

Journey well.

And the **Eventide** approaches the ether Realms of Light and the Beings of Light gather. There is no time, no space, and no tether of humanness in this realm.

For in it resides only that which is beyond reproach. In this realm the woes of existence are no more. The valid links to Spirit are one and the same. It is the tie that binds. (The tie that binds the heart to the TRUE SOUL, the Soul of Existence.)

This journey is a journey of inner reflection only. It bears no pain.

In times of grief/physical grief- intense longing and recognition of separation, this realm can be glimpsed. Healing, intense healing occurs in this structured realm. It is a place to renew, to reconnect to the Divine.

It is the place to come again to Life. It is the oasis of eternal returns. It is the way station of the soul and the 1st stop on the long journey home.

Travel here is instantaneous and comes within the heartbeats. Not between the beats, but inside them. To seek this place is the 1st step to recovering, that which has been lost long ago to the human race.

The map of remembering reminds you that the journey is but a reflection of the birthright of the dual Soul's quest for eternal evolution.

Nothing more.

Be aware. This begins your travel and from this understanding there is no turning back.

There is only movement only via Celestial Harmony and Light.

And within the broken strands of the sequences of the venue of the dramas of what humankind calls life exist the possibilities of the learning soul's understanding of *eternity*.

This place, this Earth place, is just the hot house for the creation of the development and growth of the matrix of the Divine's classroom.

In this classroom the learning curve is the perennial enterprise for the creation of this teaching system.

Housed within the annals of super imposed reality are the tenets of the trappings of fear driven, guilt based "reality"!!!

As for this teaching it is necessary to over come in order for the human's (once born humans) soul to began its search for the Truth of Eternity, in all, The Truth of Forever.

As **forever** is an enteric-based nomenclature of the true gift of eternity, it is the journey that is the most important of all galactic travel. Because only within this travel can the urge to uncover this "Key to Knowledge" be forged.

As for the questing human's mind, it serves to note that there are within the construct of human development the ways to uncover the journey's beginnings.

For within the annals of recorded time a study brings to bear the fire of the human mind as it floats in and out of recorded time.

This "scroll of time", exists solely to call to "mind" the necessary traits the humankind has over the eons past established as their guidepost of evolution.

These "marks" along the way are but the learning curve in play bringing forth the nexus of the human being in the annals of time immortal.

For with in these vignettes are the structures of dyne time travel.

The key here lies within the numbers. It is always within the numbers.

The foundations of the emotional based fears, which feed the human mind, are not to be dismissed lightly. For the humans (once born humans) have over time, faced many such self-created dangers.

These perils are self created venues designed to cripple the vision of a true **soul** and delay its understanding and its journey home. So much depends on the soul finally having the “light” switched flipped on.

There is forever an inner desire for this to occur. Here in lies the quest for the Divine.

Let's be perfectly clear here; a Soul journeys alone. It may have many helpers, but the Soul leaves the stars alone and returns to the stars alone.

It is for the experience of the return that the Soul leaves. For in its flight the essence discovers the purpose to life..... **true freedom.**

Freedom is not a virtue; it is a state of being. It occurs when the Soul is released and gains for self, full understanding of all that is.

And that is the essence of truth.

The truth shall set you free!

Remember that.

Moving along the alleyway of the Journey of Life, a Soul must navigate many difficult turns and curves. Along the way there can be much growth and much discovery.

The enteric body is a Light based Being that cast no shadows. Remember that.

Shrouds of light fragments co-exist in many forms at once across space and time.

Your physical body is simply a movement of that light based energy.

Now there are times when the formation of the patterns of light becomes clouded, more or less overcast.

The Beings of history never meant for this to happen.

It was not destined that the Children of the Stars, a Light based race of Beings, should become Earth bound. For in doing so they have become dense, no longer ethic Beings.

In the annals of recorded history, races have fought and won battles of land-based humans for eons. These perpetuate the density of the Earth based once born as it farther ties the beings to location and therefore rules, habits, and creates culture of place.

Star born children are carrying the Light of the Star Lit Lantern. They cast no shadow. Remember that.

Time Ribbons

The holographic cords of reality are in fact streamers of Divine origin.

These streamers carry the essence of the beings of Earth. There is much to learn regarding the patterns of fractal based Light resin. This is a fluid based thought projection designed to adapt to the conditions necessary in an Earth based belief system.

Charles Darwin was partly correct in his theory, however it was flawed. Evolution was never intended to become such a process of trial and error. It was originally a well thought out, well-planned journey from A-Z so to say, but within the formation and development of free will all that changed.

Free will was the fail safe effort ignited from the spiraling failure of a race for the continuation of a species. Nothing more.

To comprehend or understand this one must become aware of the Tables of Wisdom set aside by the architects of the planet Earth. The 601 were the basic founding fathers of the construction of a dyne time based society of eternal Beings.

The original Beings were the blueprint of the predetermined civilization of social mathematics. These finite equations were set in motion to determine the outcome of the race of beings later to be called humans.

The axis had titled the last and final time in its rotations of evolutionary patterns. The time

to recover the way of “true Light”, the Light that originates as a reflection of internal Light patterns is long over due.

These filters placed on the Earth must be over come in order for the inner Light to pulse through and bounce back to energize the return to the star system of your birth light.

A well-designed rescue in is in the making and care must be taken to insure that the Souls original to this system are allowed safe passage home. It is time and it is destined. It is called forth by the hand of the Divine to recover that, which was lost.

It is a study of time, a study of a place out of time. The hand of the Divine paints a picture across time and in this painting you are scenery, nothing more.

Stand where you stand. You move across the vast tundra. You are going to the Well of Souls. The journey has been long and difficult, yet not undoable. Think on that.

In this time you are separate and apart, yet together. There is a task, which is yours alone. The night can hold but one. One goes unseen. Two are discovered.

The three remain in their place and hold you steadfast in the point of departure, but you for needs sake are traveling alone.

There are words you carry secreted away in the vault of knowing. Rest assured you are seen to and looked over. All is as it must be.

Be aware. Follow your true heart. You alone know what you must do.

The night teaches you well little sister of the stars. Be still and move on. Find your balance in your true heart. It never leaves you.

That was the reason for the 4 elements you being the 5th. It hides and protects you and holds you failsafe.

For this is indeed the time of the healing heart.

The true heart of a star born singer knows but one note. When that note's vibration varies by cause and effect, even the slightest, then all can be lost.

Having said that, the singer must remember that all is NEVER lost, there is always a thread back home. But understand, when the singer is bound to the harmony of others it is no small task to recover and hold true their one note.

Remember each of you know and hold your own note to ensure the safety and completeness of the other singers. This then is the current journey: separate and apart; yet together.

It is ever touching and changing, ever, remaining the same.

Stasis can never be star born. It (the star born) requires movement. *Always remember that.*

Know this then to be a truth. All things are seen to and looked over and found to be in their proper place and time.

Listen to your inner heart and go prepared to step on to yet another line and rhythm. Do not ever under estimate or under play this gift. The line comes fast for the song to be sung.

Stay focused and pull all your internal energies to bear (Bear) here and now. Fast comes the defining moment in time and this moment holds the Grace necessary to create the portal home.

The hopes of a race hinge on this. Put on the Mantle of Knowing and release the wave of energy (truth) that can call the true hearts home. For now is the time and the place to strike the tonal key.

All will be as it must be. Never forget that.

And now the time comes fast and now the time is here.

From this place where you stand there is no turning back. The wind blows and lifts you skyward. Do not look back. And NEVER look down.

You are on the destined path. Lift your feet and move on. Those destined to come on this journey are already there; those not destined can never be.

Your worry for them is unfounded. Seek the night sky and look to the stars to hold the patterns necessary for this time. We have always been and will forever be guiding you to the place of your origin.

The new line that comes in three days time will unlock the ties that bind and re connect the patterns of those whose hearts stand together (necessarily) in this time. As in all tribunal gatherings there are breaks and then reconnections that are more defined, more complete, better able to survive the tidal changes.

As those standing are scanned any and all things not necessary must by virtue be shed. In this shedding the new order can be brought to bear in the way of Spirit and in the time of Spirit. You are standing in the nexus of the times to come.

Walk on without hesitation and seek only those things that bode well in your truest of hearts. For it is only in this place you can determine the vectors and the map changes necessary to get all of you home.

The control panel only works when you relinquish control. Be advised that all is seen to and over looked at this time with great care.

Nothing is left to chance at this moment in your flight. Be aware also that you carry the heartbeat of all the original essences at this critical time in your task.

Be still and listen to the night sky and follow your heart home and in doing so assure the continuation of our "kindred spirits".

Fret not about closures for they are all destined at this moment and will re open in three days time to a new song... a song of coming together and a song of dreams and hopes. The true quiet of your heart, your true heart is the key at this time. Go inside it and breath the air of rebirth.

Stand your place and those destined to stand with you will follow their individual hearts to the place of the gathering. Navigation is a thing of inner reflection entirely and each must travel to the point of departure in their individual hearts.

Trust in this. Remember the song unsung is the song not finished and this one comes soon to be heard.

And in the farthest/deepest skies the stars have reset and are in their proper places for the beginning of the arc of time to evolve.

You stand now in the south, one in the north and one in the east. This placing concerns the bow, the archers of time and the arrow of renewal. Long since the wanting, long since the knowing, long since the proper call to action.

Know now that the venue is upon us. Know now that the arrow is poised. Know now that the portals have been long since ready to realign and put into proper order that which was out of sync.

Now the belt of Orion sits high overhead. The hunter is armed with the bow of redemption. See to the sequence of "coming into being". See to the elimination of all that bodes unwell. See to the renewal of knowledge.

Now the time has come and in its arrival the proper order restores the balance. Recalibrate the oscillations of beats in the universal harmony.

Your mission has been fulfilled, in that the hidden voice singing into being the return has been sounded and now it begins in a wave across the eternal heavens.

Push aside any remaining residue of betrayal that lingers in the mist of rebirth and move on. Call forth the secreted words held long in your memory and turn each of you to face the interior of the triangle recently formed.

The south holds the base, the north the compass point, and the east is the poised arrow; it returns into the vector and rest, then recoils.

All is as it must be to open this portal. All comes back to the House of Zion in haste. Make ready.

For the hand seeks the Light and the Light rests failsafe in the heart of the seeker. This then is the next place of coming together. From this place Pure Light begets only Pure Light. Light bodies of future kings are coming into being. You may come to see these things soon in your joining.

The watchtower has been lit and is in full operation for the necessary tasks at hand.

Allow it to aid and abet your mission, as it is the 1st checkpoint along the journey home.

And in the deepest night comes the light of the brightest day.

The watchtower is lit. The path unfolding in your current nexus is the slope of the most difficult learning curve, in that you must arrive to understand you have already crossed it..... and survived.

The last portal of turning back has been forever closed. There remains only the realization that the course has been run. The final times are of joy and release entirely.

You have crossed the threshold of forever and are found to be on your correct co-ordinate and crossing over is fitted to bring to a close those things of earthly conflict.

You are not leaving the physical plane, just yet for a time, but rather are just stepping over the physical plane chaos and stumbling blocks on to a path well lit.

For now rest assured the triangle is seen to, looked over and cared for without fail or end.

The journey is in a position to "claim" the powers of those whose work is in the areas just adjacent to the concourse. Those are the Souls whose purpose and task it is to bring to bear the bits and pieces of the glue for harmony and Light to transfer the task at hand.

The sacred hidden language is calling all those necessary to enable the song to be sung to take their proper places. All else will vanish quickly. It is a celestial choir. A hidden chorus of finely tuned cosmological order.

It is a tune of "pure light". It is a virtue of the highest order.

It sings into being the realms of the Kings of Light, in order that darkness is forever removed from the hearts of the star born. In this lie the Keys to the Knowledge held in the deepest places.

Since this journey began, this knowledge has been without form stored in a vessel in a place out of time. It will now be possible via the work your group has struggled so hard to bring to life for this knowledge to come forward, and be available for those whose eyes can see and whose ears can hear.

To your task remain true. To your comrades remain steadfast. To your journey remain devoted. And to your heart remain forever true. Follow your truest heart as you begin to see the ship set sail toward true north. Journey far. Journey long. Journey never more alone.

And now you stand in the brightest light of day. There is a purpose and a rhythm/rhyme. It is a new rhythm/rhyme. Out of place, out of time. It is the beginning, yet the finish.

When a thing occurs completed, it is this way. Few things, (actually only once before), in the universe are so designed.

Woven within the tapestry is the Divine Key. It is a star-based weave. It is the golden thread entirely woven into a timepiece of virtual awareness. (The Alpha and Omega.)

Everything focused on the design. The design is the original design of creation.

Needs be that you came to be separate and apart. You crossed the great divide. You stepped on to the Celestial Path Way. Your gaze is forever fixed. Your return home guaranteed. Fore go the things un-necessary and walk within the pre fixed patterns of eternity.

These patterns are the designs of the immortal Gods, brought to bear in the Realm of the Kings of Light. Nothing goes un-noticed here. Nothing is un-done. All is in its proper house as needs be.

The 2nd watchtower begins to light and as such begins the next oscillation in the sacred spiral that is the Divine Will. Be ever of the mind to know and understand this countenance. For it is forever the newly completed rhythm/rhyme of your being.

Four heartbeats to one. The song is singing. The song is sung.

*Now turn and place your eyes on the Elemental Scroll of Forever and Always.
And be at peace as the 2nd watchtower sets its beacon for your path.*

*Go boldly with your task hidden deep in the light steps of the maker. Move along, gather the flax and support the weave and the weaver. Never look back. The colors are new. Bolder. The “pool of knowing” shimmers and reflects the truest of hearts. Only those hearts survive. **Remember that.***

Natural Science; Restoring the Natural Order of Things

In time secular literacy spread across the planet removing the current memory of the ancient cosmology. In this ancient cosmology, the use of letters was reserved for sacred purposes; science then was an extended arm of the sacred. Not a dimension of secular reasoning.

The essential truth of the philosophical (system) distilled from the synthesis of every natural science, was in earlier times universally apparent.

The industrialization of this destroyed a system whose maintenance depended upon its understanding of certain natural forces across the entire Earth.

In times past, the ultimate purpose was the expression of the universal law within one comprehensive system. The intergalactic flow of living energy, the creative perfection of all nature, held within the cosmic native human habitants, was the essential truth of the philosophical system, which related to each other by means of numerological combinations.

It was thus a “true cosmology” because it encompassed every “created” element. Morals and principals cannot relate to numerical relationships, because numerical relationships are precise and unattainable, while morals are simply customs, etc. which by general consent, form a response to a particular event or place.

There exists an “**agent**”, which is natural and divine, material and spiritual, a universal mediator, a common receptacle of the vibrations of motion and the images of form. A fluid and a force, which maybe called in some way the imagination of Nature...

The truth of this is always simple.

The patterns of all life mirroring the principles of every truth are always, without fail, found in Nature. The foundation of tenets of the sacred pulse of Nature set in motion (re reestablish/ re-set) universal cosmological order. Perception of these tenets is a condition of alignment.

It is only man’s awareness that becomes tangled and confused because man is compelled to interpret what man cannot fully perceive.

(As if to make a statement this was quoted—only time ever words of another were referenced)

“When we want to understand something strange, some previously unknown, we have to begin with an entirely different set of questions.”
Margaret Mead, 1974

And now the time comes and now the time is here. It has enfolded and re-ordered to temper the vastness of the work before.

Vibrations are changing; they are changing fast, moving at a rapid speed. Look to your right see the sign. Look to your left see the symbol. It is your awaited treasure trove... the coming of yet another Soul to the circle. They gather. They gather in preparation for choices and venues set in place as you travel over tomorrow.

Be plain spoken with them. Stand your ground. Times are calling for you to be steadfast and through.

*Be prepared. Be vigilant. Movement comes rapidly towards you and sits at your table of Grace and it brings with it **peace**. It comes wondrous and fitting—racing to embrace the destiny ahead.*

Are you ready to undertake the greatest treasure calling of all time? Stand in Red. Be heard. Look west; move forward.

Here, from here where you make your stand, nothing can exist but Light, the Light of the foremost Gods and the Bringers of Hope. The calling has been issued. Stand forward and be ready. Be prepared. Be of good faith, for all is as it must be.

Changes, changes, changes.....

Language (repeating this dialog)

Written across the terrain of the planet in letters of earth and stone, the Cosmic Knowledge of the original essences preserved in the ancient world, is once again within reach of those whose enlightened destiny has led them on to the Path Way.

Everything that has been known remains alive and may be recalled by any traveler along the Path Way.

All knowledge lives in the Library of Knowledge and is always there ready for the inquiring Soul traveling the Path Way to find. The information stored there is incommunicable knowledge; accessible only to those Soul's who have crossed the great divide on to the Path Way of Knowing.

Within this sacred history lie all the answers a questing Soul requires to complete its learning curve.

This understanding lies not in ego driven thoughts contained within the mind of the human still trapped in reason. Rather it exists in the aspects of the hidden universe, hidden in the true relationship of Nature and the sleeping soul of the humankind.

This barrier of time can be dissolved through the inner understanding of the musical synthesis of the Mathematics of the Stars. The Soul whose understanding has given them wings has traveled within this understanding across space and time before the birth of mankind.

In the turning of human time, language has been seen to be the instrument that set mankind to drift in the chaos of the reasoning mind. Science uses language to describe what cannot be explained into a chorus of reason, placing beyond the grasp of the

sleeping mind the ability to awaken and move on towards enlightenment.

The existence of a universal civilization, enriched by virtues of a force/a power, activated by an innate connection to the mathematical structure of the true Forces of Nature holds the key to unlocking the passages so long blocked by the rhetoric of exact science.

Hidden within these Universal Laws are the instructions for the recovery of all knowledge, both known and hidden, that seen and unseen, the geometric resonance of the Eternal Life Force, the inherent harmony of the Celestial Forces of Being.

Hidden deep in the flow of the terrestrial magnetic current and the celestial energy of the Divine exists, the place of sacred center. In this place all things are whole and are innately holy.

The *true language of the stars* began in the Great Nebula where the balance of equilibrium is continually formed and held in place.

This was the language by which the planets and the stars were set in motion.

It is a sounding of tones, hermetically tuned vibrations, which call to order all the essences of life in the known and unknown universes, (the Germatria.)

The spoken word of "true language" is the most powerful tool available to the awakening Soul as it journeys to completion. There can be no reunion with its sacred self, until and unless the Soul possesses the ability to call forth its Divinity, and this Divinity is held fail safe with in the structure of the ancient laws of the definitive language.

The Source of this original Sound was the seat of Divinity, sent forth to be the system of watchtowers, which awakened a traveling Soul to the potential of this wisdom at the given times.

Through out millennium there have been guideposts along the way; *Natural Philosophers* whose task it was to unravel the damage done by the insertion of false history.

This false history bore witness to the creation of the split between Nature, the Forces of Nature, and man's natural state; that of being at one within the conduit of Nature at the center of its Divinity.

This false history created the fracture, which further alienated humanity from Nature. It removed the act of doing from the basic mindset of humanity and in its place ego began to take hold.

The way Nature was viewed, was deteriorating, based on the new system of language formed by reason based philosophy established within the confines of the Greek Ionic language and then driven home by the guilt ridden, fear based religions that flourished as the rampage of the reason driven, ego centered, soul capturing vampires of humanity established a foot hold across the Earth.

Trapped within the soiled language, humankind began to view Nature as separate and apart, *the Organic Philosophy of Life* now forgotten and in its place, the “arrogance of humanism”.

The inner connection of the true human essence, to true Nature and therefore, to true Divinity, remained alive only in the hearts of those Souls whose hearts beat in unison with the Source of All Life.

All else faded and purely subjective ignorance took root in the minds of humanity. Over time the arrogance of this way of organized thinking has “taught” humankind that “they” could organize Nature according to what, their rational neo-cortex believed it to be.

Abstract Nature was replaced by chaotic existence.....

As a result of this in due time the Souls of the Original Thought Essences gathered into the Baskets of Knowledge of The Turquoise Woman.

They gathered to be held in a sacred trust from where they would move out to reunite with the Land of Spirit after 1,000 years of learning.

There was only this, the energy of the flowing heart, and the talk of the gathering and the coming together of Souls destined to be reunited with the Path of Renewal.

Within this basket the teaching of Universal Cosmology flourished and became strong once again. It gained strength and wisdom and stood at last ready to recover what has been lost so long ago to the humankind.

Slowly the hidden efforts of the original essences began to be seen in the traces of

Natural Philosophy. The synthesis of knowing began to resurface on the Earth.

It was to be a carefully measured process of natural growth designed to recover the numerological link to re-create understanding in the reasoning mind of the humankind.

It was a language based in balance with the true cosmic pattern of Divinity, not within the reasoning minds ego driven concept of religion. This was congruent with the Element of Unity, not fear based separation.

Natural principals began to gain strength and to have effect on the human soul. A return to an ancient form of knowing, Germatria, began to reconnect within the hearts of some of the humankind.

Within the ancient practice of Germatria literary language is extended by the inclusion of the hidden mathematical structure of the prime numbers vital to the alignment of the solar system.

This ancient cosmology concealed a geometry once known and passed by oral tradition alone.

The Keys to this Cosmology can be found in the monuments of antiquity, by referencing their measurements and their physical location to the Map of the Heavens.

Within these tenets is held the mathematical illustration of the course of humanity. The ultimate goal of this renewed thought process is to transcend the material state pass time and space to Infinity.

This is the Language of Cosmology, not the language of exact science.

Within this Cosmology, exist with certainty, the unity linking the macrocosm with the microcosm and those then to the visible universe. The fusion of celestial and terrestrial elements establishes mathematical laws governing all natural growth in celestial motion and the evolution of all life forms.

And in the Baskets of Knowledge held with in the Turquoise Woman's tiny hands, the dust gathered and a new planet came to life and was placed in the Beta System; the first step along the path to lead the humankind home to Omega.

For a millennium now it was tracked and had been seen to by the Angels of the Realm of Light, to bring to fulfillment, and the Recovery of Hope to the awakened Souls of the humankind.

“Veils of Time”

Golden Thread is what weaves the tapestry. Always remember that.

It is a song, a song of our individual Souls/Sounds. A truncated Soul is in its simplest form the Reflected Sound of Divinity.

And when they come together in the proper balance they represent the **Weave of Creation**. The story of creation (The Truth About Forever) links the adventures with the Golden Thread of the Star Sanctuary and in doing so offers a map home to the stars.

Again, the Golden Thread is what weaves the tapestry.

The tapestry (Shattering the Hour Glass of Time) holds the key and the key is the Knowledge of the Divine Breath. This is the re-constituted “Song of Forever”. This is the way of the “true” earth people. The ones of the stars, that came to Earth, that bring forth with them their knowledge and wisdom.

“Veils of Knowing”

For where you are and where you go are separate and apart.

These are the times and the places that bring forward the threads of destiny that binds the ties forever.

For within the realms are the passages and the alleyways of the true turnings of the venues and trappings of the last of your kind. It goes without virtue to the place of absolute perfection.

Within the **veils of knowing** rest the timbers of sounds that balance the turning universe. The turning of the worlds, have for eons established the protocols of the tuning and therefore the established toning of the Universe Divine.

The time has now arrived that changes the waiting. For since time began there has been the opportunity to revise the error. The lingering is finished.

Now before, that was inaccurate, now that no longer applies. For within this leaving is the creation of the possible and probable future that empowers the Alpha to unlock the beginning of the returning heart. It has been hither to, defined as the rapture. As such was an ill-defined, ill-formed concept of the pseudo intellectuals attempt to gain power.

Never before this has the entirety of all the necessary elements been in the proper balance. It is a venue, here to fore, untried and therefore unknown has arrived, bringing with it the necessary elements to re-create the nexus point of the return.

And therefore, the unified return of the Hearts of Light, as they reconstruct the weave of "true course", (true north) with the vibrations of the Elders of Knowing, so that/in order that the pulse of the Sound wave home remains in the proper order, as to ensure the intended design.

Now in three days time the re-rotation of vex points occurs. Illusions are shattered.

Thus begins the understanding of all that goes before or after. Here in is that which has waited to be born.

And in the way of things be vigilant and aware for the thing of great beauty has moved from its point of origin to its resting place.

You are a carrier of great Light, little star, but even you must acquiesce to Divine Will and in this ebb and flow you must constantly be aware of the changing venues of those you serve.

You are a vessel of service to mankind, a rudder for the boat and a constant reminder of what is possible via the Divine's handy work. You must make your way with great care at this time. Adding only what suits, releasing all else.

Move with great tenderness now, as many will be in sorrow, great sorrow before the days of this month come and finish (go).

Be prepared to hold a Light, a Light that is intended to warm and refresh.

Be aware you are facing a time of great change. The greatest you have known in this life. Within three (3) weeks time you shall recover all you have ever lost; all you have ever needed, all you have and are to hold for the eternity of this life path.

Your wisdom must pass with a gentle voice for many, many will not have ears to hear and a raised voice will do no good at this time. Be a gentle breeze, but be a force to be reckoned with at this most fortuitous time in your fate.

Your path was carved eons ago. Now you are ready to go forth with a strong song. You will know great joy, little one of the stars, for you are where we have called you to be.

Be of great courage as you move along this track. Do not look back, but rather face/embrace the time ahead with heart felt joy. Determine the proper venue, see your way clean and move without hesitation, for there will be no resting for a time.

No stopping, only movement.

All is poised, be brave and face the East, then the West. See to the little ones in your wider care and know they are ready to come forward.

One must listen to the winds of change with a song in their heart. They can be moved only by their great understanding of the times ahead. A time of great wonder and a time well deserved.

Move along now and finish what you have started. What so many have helped put in your hands, and do so with a grateful heart! ! Listen carefully to your heart. See the truth it come to Bear.

Now this is the way it comes, hear it clear. First one will leave, then the next will follow. They are crossing the greater divide to journey on the other side of the veil. The call has been issued, that is enough to know. Take care you leave it to the Greater Gods and their Divine Wisdom.

Now on to the work at hand. In three days time you will understand much of what has

been kept hidden for so long. You are moving at an accelerated rate. Stand down from all or any that does not clearly call to you from the nearer side of the veil. The archers are poised least any straggles past close to the path.

Eons of preparing are bearing fruit that is enough to know.

You are moving in the correct vector to intersect the ones traveling your way. The time is now the place is known. It is hours, only hours away. Be vigilant. Be watchful. Be of great joy.

Listen to your wakened heart. It will guide you home without fail.

The grids patterns are set and the venues are open. In three days time you will understand. Be patient until then. The portal of time has arrived at your vector; the quatrains are rekindled and the passages ready.

The connection is at its zenith. Stand and be counted. One leaves, the written words comes forth. Another goes, the land rises. Take with you all you have received as you travel into the western skies. You will recover it ten fold.

Connect and discover. Then plan your march with care. Ten thousand voices are behind you as you begin to step off on this Grid of Knowing. After this you will no longer be burdened with physicality.

Duality passes. Solidarity approaches. Embrace it for you are blessed to receive it.

Raise your eyes skyward and remember all things work for the good and bring about the Song of Forever. Nothing else matters, it is already gone. You are within hours, days of your first step in this your last greatest work on this side of the veil.

Already you are crossing the Great Divide as you weave the patterns for this the greatest of all your efforts to restore Grace to a broken world. We hear your voice. You have seen your Angel of Life. We are ready. You must be as well.

Go in Peace and Grace shall follow. Speak your words for all to hear and be of a brave heart as your call goes forth. Weep not for those gone before. See to your fate. It is now upon you!!!

Last night (the night with the 11 Angels standing guard with swords touching) set the recalibration of the magic of the Realm of Beginning.

Time out of time, a new sequence has begun.

Now you can begin in earnest to embrace the destiny that has followed you for a millennium.

Now for the understanding of the mechanism of the virtues of "the realms of before and after." Before is gone, after is gone, only this instance (moment) exists outside time and space; between that is where your current focus is oscillating.

Once your focus has left, that pattern is finished. It is gone - in that manner forever. It ceases to exist in this last understood venue and sits outside time and space, never to be the same again.

You must consider this work the "inspiration" (muse) of the minds of the Gods as they prevail to bring this next time into focus. It is important. It is all-important.

You must seek only what rests within your orb. Nothing else can hold the pattern. The ones coming have been reprogrammed to oscillate at the rate of time X 3 to the 3rd mark.

This is one tone higher than before and carries within its structure the knowledge you must have; they must have, to survive in the current flat plane of existence that is the makeup of the current world of the human kind.

You have been gifted a co-pilot to safely bring you home. Listen carefully to the words and embrace the gentleness of this wisdom. You are a risk taker. You must continue to be. Fret not, worry not; you must only remember to spread your wings before you step off.

The time is marked; the time is now. The venue is here... the journey nearing its zenith. Remember that (!!!) as you face the next few days and weeks ahead. You are looked over and seen to by the 10X10 thousand. Always remember that.

For now here in this time you move not alone. No place, are you alone. On our side you

travel always guarded, always in the brightest of Light.

You go where no one else can follow and as promised to you eons ago, you are looked over and seen to by the highest of the Gods. No not the Angels, but in this venue by the Gods of the highest realm. The work, which is not yours to do alone, requires this offering you are making.

This trust you have placed will not be foresworn. It is in the deepest thoughts of the highest places. For you it has been a long, long journey. You have crossed, with success, the great divide and traversed the Great Divine.

The work is the handicraft of the Gods of the Realm of Divinity. There is great, great need now for this task to be completed!!!

You are only the messenger. You carry the knowledge to and fro. Your circle will help you assimilate the passed knowledge/information in a way, which can then be distributed where and how it is intended to be.

By virtue of necessity the circle cannot travel with you.

The work is three tiered. You work from inside infinity and then returning to work in your circle. And then from there, to the wider world.

2 stand with you holding hands making the circle. Another stands with you, but not holding hands. 2 allowed access, the other only holding you up as a tether... and Angels enough to provide all that is needed in this, the Coming Together.

Aaron, Aaron is the co-pilot. You can use that name. It will serve the purpose well. He walks the path of clear intent and is the sole (Soul) voice of the counsel for those whose task it has been for a millennium to arbitrate this one dialog.

Such is the importance of this work.

Ask for what you need. It will be provided. Extend your hand and call it forth, but be aware of the power of words spoken on the Spiritual plane, as they have a 10 thousand fold effect on the earth plane.

The co-pilot has been learning, for eons, with precise precision, your cadence. You have

one you know. Now it will be replicated to match those gathering to speak with you on the other side of the veil, in the highest realm of Divinity.

This is not a short journey.

It has already begun and your memory now holds the key. Open it slowly, and sit with it quietly. Just remember you are only doing what you agreed to do eons ago. Nothing more. The ladder is your bridge. Remember that.

All memory is stored within the cube of the one true Sound of the breath of Divinity. Remember that.

Every possibility is stored between the pulse of the wider universe. Only in this understanding can you/do you cross beyond and behind that which is seen to that which is unseen.

Remember you are but a cadence of the tonal key, set in motion before form began. Lose the form in order to find the doorway.

Freedom

Within the fine lines of the lie of the curvature of space and time, lies the loop of freedom. This freedom is unending and without constraints.

It is the accessible doorway to the outer realms of the known and unknown worlds.

In this venue there is no duality. Duality is a well-laid lie of the physical plane. It was designed to slow the process of humankind and it has succeeded. Without the ingrained lie of duality there can only be freedom.

The awareness hidden with this release is the first marker on the path to freedom.

All realms can be accessed at all times without the fear-based duality of the self-imposed and therefore flawed practices of those souls whose goal is to persecute the lesser aware beings of the universe(s).

Slipping across the threshold of “non linear” reality into the fluidness of the true universe requires nothing but letting go of all the fear based emotions of the physical

and causal planes.

There is no cause and effect outside the guilt ridden, fear based venues of the lesser worlds.

All things before were fluid—no form—free to evolve... no solidness to separate and fissure.

We desire here to remind the trapped ones of the higher beings to recall the memory of freedom, true freedom and that begins in the liquid state of color.

Color has no form; it is a reflection of Light; nothing more. It is a passing movement, nothing more.

Sound is the result of the movement of color. The human DNA/RNA are but refractories in the on/off switch of evolution.

You are but a distant memory of your future and a spark to your past. The *truth of forever* is the freedom of the liquid state of your heavenly being. A true cadence of thinly veiled thought, projected across the illusion of time and space.

What you will discover is the way to recover this freedom for those of the vibration necessary to evolve. This is what will eventually be your gift to humanity.

The true way to freedom

And this is why you sense the encroachment of those who would wish to capture its power. For indeed, there is great power in this understanding, as it will release the ones returning.

It will change the evolution of the structure of power on your world. It is the gift of the work, heretofore referred to as "the coming together". Get aligned with your true heart and we shall begin to carry you to a deeper understanding of the work at hand.

Listen with you heart! It will lead you where you must go!

The facts of Nature and the Principals of Truth remain constant. What

changes is man's ability to comprehend and understand them.

And in truth the truth shall set you free. There is only one truth in the entirety of universes. All else revolves around this one simple truth. **You are a being of "pure light"**.

All the other beliefs, mythos, constructs are simple figments of your or someone's projected imagination. *Imagination* is a powerful tool of the Soul.

The original intent was for the imagination to be like a game, an excursion. But it has become a trap, often with no escape. The human mind was constructed with great care and planning. The holographic patterns were linked to the original storyboard of conceptual design.

You could think of it like a vacation with a learning curve. The imagination being the paintbrush used to create the desired destination.

Our mistake was in our failure to realize how Souls would become entrapped within the matrix of their own devices.

Time, the curvature of time, is but a vision of uncompleted mazes of self designed, individual ploys, set in motion to further the understanding of the individual soul's journey across the expansion of the wider universes.

The construct of the particular, but powerful selection of game tools are set in motion repeatedly throughout millenniums of self created venues for one individual soul.

The intended result much like a float down the river, but then the traveling soul gets distracted and forgets, continues to forget to just turn to shore and leave the river.

Some get distracted by the scenery, some by the beauty and some by the difficulties, but all are only distractions, never the less. Each being after a time there knows nothing but the river. It becomes their only source for substance.

It becomes their master, and then they in turn begin to repeat the story-- that you cannot leave. Cannot swim to shore, nor turn your boat to the shore. The quiet float down the river becomes the river of no return, when in fact all the soul had to do was see themselves, somewhere else.

That is a simplification for sure, but entirely true; the traveling soul immersed in the traversing of the journey.

Over the journey the soul's "pure light" becomes littered with shadows. Shadows of doubt, implanted by the fear based emotions of duality-based entrapment.

Now in the wider worlds the soul's fragment waits for the return of the gathering soul's awareness. Alas, it is long over due in the return.

Begin to think of your essence as a ray of "pure light".

Somewhat like a high mountain stream before it descends downward and collects sediment and in turn that sediment impedes its flow and slows its travel so that when it reaches its destination it is no longer clean *reflective light*, but rather layered with debris.

No longer free. Rather heavy with spoil. Collective, self created spoil.

What the human mind believes, so it creates. We must now just provide a filter whose task it is to begin to lift the imagination to its original intended purpose.

Then the journey from there to here is but a reflection away.... And true freedom of choice is restored and your virtue is that you think, what you conceive in possibilities.

You are a creature whose mind is opened ended. You are a resonator with discernable "pure light" in tack, and thus capable of the task at hand, the restoration of the knowledge and principals of Reflective Light.

For at this time there is an arc of time within which you may traverse all outside influences. However and be aware here, be so careful to realize that this curvature of the continuum must be navigated with great, great care.

Be ever so watchful as you move along this corridor in silence.

No sound can be heard to escape this venue as you are carrying a precious cargo within your heart at this most opportune time in the course of history, both of our world here

and the world there where you physically reside.

Your Path Way cannot be stopped by anyone outside yourself. Remember that.

Your awareness is the golden key. Your awareness on this side and your awareness on the physical plane woven into the tapestry of knowledge meant for the awakened souls as they seek to return home.

The footpath is falling away. All traveling its roads now lost. Only those souls already on the Path Way will be traversing the great divide in due time. Gone are all other resources to the footpath travelers.

All our efforts and resources now are focused on the souls along the Path Way alone. There is no longer the time, nor the energy to recover all. Be sure you fully understand this.

You must be aware of where to exchange your energy. It is a sacred gift and must be placed only where it can serve its purpose.

That purpose remains the renewal or re-awakening of the true understanding of freedom and the natural truths that direct freedom's path.

Pay attention to the details.

The manuscript is completed. See to its circulation and distribution along the rigors of those traveling the Path Way.

Listen to your "true" heart, little one of the stars. You make this journey for all those Souls seeking truth. You must listen carefully and return with clarity. Ask for what you need, then accept it when it arrives/comes and move on.

Accept that your fate and your heart lines are crossing again at this time. Be sure to listen with your true heart. That is all that is necessary at this nexus.

For now in this place there is Grace. Great Grace.

And it is found that these times are given as the consecrated birth patterns of the beginning of the work, here to fore called the Awakening. For it has been seen that the three things necessary to hold this pattern can now be counted on to stand forward.

These being: clarity of heart, focused intent, and the will to be of one heart.

Within this foundation are the rules and the environment necessary to begin the true heart of the work to come. Now there can be no mistaken ideals and no longer can the links be separated.

In due time the bonds come forth and tie the essence of the beings now working together and these bonds become a focal point of awareness used to develop the venue of the times that are no longer approaching, but are in fact here.

These are the point-to-point vectors for the present work.

Be found to hold dear the understanding of your inner heart and bring them to the place of knowledge. You are as you must be, Patrícia.

Now for that of which you have asked.

It is a truth that you are now standing for more than your personal self. Be confident in the fact that you are a daughter of the stars and as such are found to be in your reign at the time present.

Hear this and then act accordingly.

Express your thoughts. Give the person understanding of your contentions. Then leave it. Move on and release the issue to the upper planes. Now go to that place of your knowing and seek the resolution for this issue.

As to the other, you must move in a rapid fashion. Poise the necessary topics for the paper tomorrow and then see that it is sent rapidly with the fact.

Understand that you are now in the curve of the resolution and as such you must walk that path which is before you in complete Grace.

Be forthright and stand to your truths in all things.

This you all must do and resolve to use your inner knowing to see you to the conclusion of the issues before you at the moment.

Patrícia, you are as you must be. Prepare for the times ahead and remove yourself from the things that tie you to anything that is not of the work or does not bode well in your heart.

Hear now the thoughts gifted to you from the places of the deepest knowing and then act from those places from your deepest heart.

These are the things, which feel your inner understanding. Steel yourself to reject any and all other things from your awareness.

This is also the thing necessary for the circle as it moves along the fine lines of the redefined fissures of the new order as it sets in the place of your true Being.

The land is the place from which the new cosmology will be formed. It is the place of the essence of the beginning of the last and final understanding. As this is coming into being you all must move within your understandings as you traverse the planes before you.

Be at peace in your inner awareness and things will flow to your placement.

Now in the wider venue of the tried and untried universes, there are planes of existence just now coming into life.

It is for these developing triads that we are making this attempt to reconstruct the Path Way, so that/in order that it can right itself to the proper velocity to intersect with the ones whose task it is to develop this structure strategy for the newer worlds now beginning.

Without the knowledge of the returning Souls there can be no more developing/evolving consciousness of the future kings. There is the requirement here where one dictates the nature and development of the other—once and future, so to say.

However, this is not for you to be concerned with. We are telling you for your wider

understanding only.

Your concern is to rekindle the awareness/memory of freedom so that/ in order that the Souls traversing the Path Way can fulfill the latter destiny. You will have long since gone to your home by the turning of these events.

Stayed focused, stay true to your task. The reasons for the how's and the understanding of the nature of those "hows" will be opened to you, without fail as you traverse the here to the there and return.

Your alteration is but minute in relation to the requirement of access to the tones of understanding, yet to be sounded.

You do carry the song in your true heart. Another holds the string... you must hold the harpsichord.

Remember what you hold dear. Consider your moral fiber to be your sextant to chart your beginning quatrain home.

Found within this understanding is the nomenclatures of creation and these are the vibrations of life... life here, life across the universe (s). Be prepared to listen carefully and fully and to comprehend all at once the infinite wisdom of creation.

Be aware this sharing is not without responsibility. Always see to the greater good. It will never fail you.

Soon you will begin the next manuscript. It will define for humanity the true nature of the universe and the connection to the wider fields of awareness. Get to your assigned position. Stand your point and reconfirm your vectors for this next journey. Travel safe.

And all will course to its natural flow in due time.

There is a well basin of the Soul. It is the cosmic storehouse for all the elemental tides of the Universe Divine.

Divinity is a state of Grace. It is nothing more or nothing less. It exists in the finer tuned realms of understanding. It is finer points of awareness; reflections of a realized Soul,

out of space and out of time. The concept here of freedom cannot be MAINTAINED without the elements of Grace.

Found within the annals of time bound fortitude are the false bonds of the desires of the Kingdom of the Enslaved Souls. They now are forfeited.

The virtue now lies between the concepts of the stylized lines of Infinity and those Souls who possess the understanding of the configuration of the elemental design (of Infinity.)

Without this blueprint realized in the consciousness there can be no evolution.

The current reigning Kings of Light have moved from the previous position to that of the coming age. No longer will the enlightenment of Souls remain their concern.

The production of yet another world hastens them bid adieu to this world in favor of the new one organizing at this most desired portal of time. It is a fortuitous deed in so many venues.

Have faith, and move forward. Leave all worry behind. Be brave a bit longer. Feel the wind. Stare down your would be enemies. For there is none except self which can/could defeat your purpose/task.

Remember that. Let go of those whose tasks are finished.

For now in this time you travel far.

Your physical concerns a thing of the past; yet, times you remember them. There is yet a place for that.

No longer the concern of the same physical world, but only a voice to call you home. Remember the lessons today; the voice that informs; the voice that calms, two separate tones. Each has its function. Remember that.

Now on to the task at hand. Your journey is underway. The momentum will continually accelerate. You will continue to journey for years to come. This undertaking will continue until shortly before you transition.

You are on your way to becoming a cosmic tuning fork. That is well and good. Your bliss is the time out of time...out of organized thought. This is your gift.

The art of patience with those in your field of reference is the lesson today. You return sling- shot past all current vectors. You look to those of your circle to transition with you. They do not.

You are allowed to bring back knowledge to share with them. Then it is disseminate into the earth place. Eleven percent, the rest hides in your true (spiritual) heart. They must stay there for yet a time. Those of your circle understand this.

Beginning tomorrow, say your goodbyes daily. Live each day without regret to those with whom you share ties.

The reason is to never regret.....to live fully each day as quickly much of what you have held dear in the past will move on to another realm. No distractions.

Individuals are returning to your sphere, but they are designed to comfort, not to distract. Take care of your immediate frames of focus. All is as it must be in this time and in this place.

We understand that you are qualified for this task. The connection is considered to be eternal from this section forward. Be aware of the responsibilities. Pay attention to the smallest details. And so shall we. There is mutual growth in this venture for more realms than you can yet comprehend.

Feel the awe in the silence. Be patient. Be consistent. Realize your truth sets you free. Expect miracles. Embrace octave joy. Trust eternity. Feel completely free. Continue to learn. Be patient. Be brave!!! Be.

In the annals of time immortal (time before time), there existed the enslavement of the species of the later known life force of the humankind.

The renegade “souls” of the Netherlands saw to the establishment of the base of the fracture, which led to the entrapment of the Souls of Survival.

These original essence Souls were unaware of the previous entrapment designed to foil the nomenclature of the development of the humankind to evolve in order to recover that, which was lost to them.

This deceit was the prime reason that the “souls” of this plane have long ago lost the ability to readapt to the changes presented here. Time has moved on. Earth bound entrapped “souls” have long since discovered that something was amiss.

This “lost element”, is now being rekindled so it can come again into the earth field and recover that which has so long been lost. Without this recovery no single Soul SHALL be able to realign and shift perspectives to enable their journey to the original home base.

This then has been the dilemma... how to recover that which was long lost. How to re-tone a world whose ears had/have gone deaf.

Recalibration of the elements of design has been established and within this recalibration lies the future of worlds yet to come.

For eons of practice, evolutionally tribunes have come and gone. The way clear has been designed to recover all that was lost so long ago.

This time the returning heart is true, there is no deceit. All else will fade away and fall from Grace. Remember, Grace is required. Without Grace nothing can evolve.

Grace is the key to the kingdom. Grace like Divinity is a state of Being, and without Grace as the foundation, Divinity cannot be approached.

Valor is a virtue of the earthly plane entirely. It is a responsive play. Nothing more.

You may realize it is without influence. Becoming aware is the 1st step to discovery. The blinders must by necessity be removed and the realization of deeper understanding affirmed.

There is much at stake here. See to your needs. Seek the higher ground. Stand firm. Reach higher. Listen carefully---then having heard move on!!!

For now in this place and in this time you are asked to step out.

The Spiritual Plane has waited to be ensured of your loyalty and your capacity to endure and hold to the Light.

The journey of the books can now begin as the assurance of the foundation is now in tact. The words and the paintings are well and good, but the vibration of a Soul of this side of the divide had to be a resonator for this work.

You have made that crossing and now you can know that is the element that has returned to be a vessel of renewal and remembrance. The journey can now begin, as now there is a possibility of completion.

Listen carefully.

Here is the venue for your work and it must/it needs be precise. Embrace all you do as if you were speaking from a place of deep- deep knowing. Listen before you speak. Prepare to live a life free of world-based distraction.

We have and are continuing to provide/see to all the needs and concerns. Release your vibration free without restraints.

Be aware of the presence that walks with you at all times, both on your side and ours. There is much, much to do and a defined time portal for each event.

If you release and let it flow, nothing will impede the flow. Your time in this place (where you are) is rapidly coming to an end. One day you will be there, the next you will be making arrangements to be gone.

Steady as you go. Shot like an arrow. Trust in the silence, for your awareness resides there. You would be advised to seek the silence everyday.

Crossing over... Listen carefully before you chose. Be advised you are traveling faster than your definition of sound. Face the coming tide with joy and be aware of the ultimate harmony found in the goodbyes.

(Clutter absorbs the true Sound of creative thought.) Remember that!

You are listening a full octave higher and travel at an oscillating pulse beyond your capacity to comprehend. Only now you make this journey for reasons you cannot yet comprehend.

Be at peace. The watchtower is within your clasp. Changes, changes, changes. The Earth is in the initial throes of imminent destructive change. It comes, Rapid. Rapid. Rapid.

And in the vastness that is the extension of the Path Way leading to the inner core of Divinity, there rests the ultimate freedom. For within this venue lies the answers you have endeavored to seek lifetime after lifetime.

Moving along the fine lines of the worlds of lesser and greater beings you have endeavored to uncover "truths" for eons. You now stand poised at the doorway not only poised, but present and moving toward the ultimate knowing.

Be brave and stand firm in your platform.

There is great need for this work at this time and you must daily grow as you excel in motion and knowledge. As you glide along the corridor there is much evolutionary knowledge waiting for your thoughts to focus upon it.

Now in this time there can be only one that ventures into this place and time. This vibrational pattern needs no outer support to endure.

It is a thing of Spirit entirely. You are learning and discovering your neutral place.

Rest assured that your needs are our needs in that we are placing a priority on establishing guidelines and goods and services to provide you easier (less) earth distractions.

Let's begin now to look deeper and to recover those lines and thoughts at the beginning of your travels. You see and hear and feel much more than you are consciously aware of in this approved time position. You retain all memories, but only those memories allowed to be shared outside your conscious mind float to the top.

You recall and relive the other teachings constantly, but they are just outside the dimensional pattern of your super imposed stylized thoughts of the life forms on Earth.

Be aware in 10 days time there will be a great change in the earth's force field. Count those days and be prepared. Your timetable moves with great speed. Work on your ability to see past (not pass) the ordinary into the realm of Forever.

For unless you can recall and hold (whole) complete the ideal of Forever it will never be able to cross the divide from the realm of Spirit and Divinity into the mind and hearts of the Souls of Survival of the world you currently know.

And this world of yours is the template for this undertaking and if it does not come to the consciousness awareness and become a point of "truth", a "true belief", it cannot be linked to or followed by a single soul.

Free choice exists, but options must be comprehended before choice can occur. The ideal of true freedom must come to be the glint in the eye of the souls searching the way home. For until and unless this is made apparent to those with eyes to see and ears to hear there can be no eternity for the threads of the souls enslaved there.

Think responsibly. Hold the thought form long enough to give it life.

Be aware you are never alone. Look to your left. Look to your right. You are always within our sight. Peace, love and light.

And in the initial phase of development there are more than 17 chromosomes that lie dormant and are waiting for the change that must occur to facilitate the enlightenment of humanity.

These are pastor lingual phases of development that carry with them the potential for super kinetic fostering of super sensitive skills of the finer tuned somatic of the male and female genes.

These are not limited to the theory of super DNA.

All DNA is encoded the very same from conception; however not all Souls activate the higher channels of awareness open to them. They chose to live a life with blinders and not to comprehend the wider virtues of awareness.

Soon to be discovered are the links to the decimal filters that activate all memory of sustained life though out the various universes and galaxies.

Your time with us is within the inner most realm of the galaxy of the nebula of Zenith 22. That is the outer-banks of the State of Divinity. It is the beginning level necessary to begin to comprehend the value of creation and the underlying factors that exist to allow all life in all worlds, formed and yet unformed, to coexist.

Rest and be prepared. Movement begins rapidly. See to it that you are not found unprepared.

And with (in) the annals of the constructed dyne time evolution exist the possibility of complete recovery of all the memories of the travels of the Soul as it seeks to return to balance.

There is a beauty that bears to be reconstructed, as it holds in its forbearance the initial cutting of the Keys of Life, in that the first breath of God created the nuances of this place long before time was constructed.

All stylized time is constructive thought designed to establish the venues necessary to begin the recapture of the virtues of the meaning of true freedom. Remember that!!!

There are unknown resources available to Souls traveling the cosmic highway. However, these resources have been circumvented by way of deceit and in turn disbelief.

All awareness is within the reach of all awakened Souls traveling or traversing the Path Way home. Again, however, there has been for eons now the concept in the mind's eye that factored reason to conceive that attainment was not possible. This is a flaw, a crack in the memory recall of a Soul's Divinity.

We are telling you now that this must be dealt with. In the spheres of where you travel are all the Keys to all the locks and they make available to you complete recall.

*All you **must** do is focus your mind and the knowledge returns to you as fresh as if it were occurring a new. Be aware to only seek what can be of help in accomplishing your task at hand. Again, travel comes fast. Be prepared to be on your way. The means will be available to you.*

Listen to the wind. It carries a song/melody of abundance. There is great laughter in the air tonight. The Angels are happy and feel of joy. It has been accomplished what has waited for time immortal. A returning heart!!

Be greeted of great, great joy. Precious is the knowledge that wisdom has reengaged. You are a representation of The Song of Life. Pay attention to the words that repeat in the melody. In your quiet times remember the way it is set to Sound.

So much travels so fast. Greet the changes with a happy heart and face your task to be completed. Your resonator moves to you sooner than you think. Hold to your memories and listen to/in the silence and ponder its true memories in your deepest heart.

The tone has been reborn and sounded across all the worlds. Pay attention to the details. Your armies gather to form a great source of Light. Be watchful and continue to stand ready.

And in the **Eventide** (there is one you know) rests the perfect still point... your place of true neutrality.

This is then the Kingdom of the Creator Gods. The space between the heart beats where you are your truest self. Creation began here.

In the mist of the coming together for the greater good, there had to be preserved a haven, a place to recover and rejuvenate.

The neutral ground of the **Eventide** is held separate and apart. A place to recover all that became lost.

Without a journey to the **Eventide**, a Soul never really fully reconsiders its true heritage of virtual freedom. Somewhat like the super wash cycle and the high spin state.

A Soul must return and pass through this astral plane to filter and recover.

It is not all-important, but imperative if you are to establish a recovery operation for the lingering Souls of your world. You are being asked Patrícia, to redefine a previously well defined, but mis- appropriated cosmology.

The worldview must by virtue of survival recover the original intention of the universal map. Without this applied alchemy no quest can be completed successfully. And the ability for change will remain compromised.

You must remember one pure thought will get you home. However, eons of deceit have tainted the minds and therefore the hearts and it is ill defined to find that one pure thought without doubt.

Being prepared then means Patrícia, not one thread of doubt can live in your heart.

Remember that as a Being of "pure reflected light", a "shadow of a doubt" can destroy the source of resonance. Be fully aware of this implication and therefore the implications.

Where there is only truth, there is no arena for fear based ideology to cast shadows. A pure thought travels forever, free of constraints and shadows. Nothing has ever really been solid, Patrícia. It is an illusion of the physical plane and only where there is the belief in that can shadows be cast.

A Light Being is essentially non- absorbent Light and goes on with out interruption, a flowing stream of uninterrupted radiance.

When you cross over to here, you are essentially in your "liquid" form; no longer bound by the "super imposed" limits of humanity. Form is the regiment of definition. The reasoning mind must describe, put meaning to, and therefore must by virtue of reason, limit.

True freedom has no limits, no written language, no verbal concept, only comprehension without definition, just awareness without the need to define and therefore be required to defend the definition. "Argue for your limitations and surely they are yours".

Be completely careful of your species ability to limit self and their drive to limit others.

This is the first of the concepts that must be eliminated. It must be replaced with inner joy. Only complete joy can heal this wound.

All current systems of belief in your world are based on placing limits; designed to evoke control. This illusion must be shattered. The belief in /the need for limits is what controls the conscious mind and therefore creates the illusion of time.

And a Traversing Soul must believe without a shadow of a doubt that they exist across space and time everywhere at once, a perfect thought projected from the heart of Divinity to journey in joy; never intended to be a beam of "light" trapped in a prism without escape.

There are no edges, no solid objects, and no traps except self created ones based on the concept of "limits" (non independent thought).

Review the written passages from the recent times and see how the verbal "keys" your inner thoughts, the deeper thoughts. Re-enforce the true deeper knowing, the one pure thought. Keep it always within your reach, within your awareness.

Pure Light travels without interruption, without hesitation, without "limits".
Remember that. It will get you home. There is no physically... none what so ever!!!

Bear in mind, the dyne time continuum currently holds captive all Souls.

This is the evolution of the finely designed illusion of your current world status. The Elder Gods of the 9 worlds in current development have voiced concern for eons upon eons regarding the balance of Souls awaiting transfer into their domain.

The rules are quite clear as to the cadence and progression a Soul must take in order to evolve. The deceit that began in the place of trust for the Souls on your plane must now be revised.

You are in your element. Begin in earnest the Song of the Returning Heart. Listen and be of great cheer because from this point onward there is no regret, only celebration. The time for regrets has come and gone.

Our efforts now will turn to the development of the venue that holds the return. 100% of

our focus is applied to this understanding and the realms are feasting at the realignment of what now begins. Like water pouring from a river into the ocean, so shall the flow be. No impediments.

Be careful to completely empty any niche of sadness and replace it with joy entirely. As of this moment, there is no history—only beginnings.

All pre-learned venues are closed and only new fresh ones apply. Stay focused.

The play begins in earnest. Do not hesitate. Do not be found unprepared. Go to meet this with complete joy and that is all that is necessary.

The work is set to Song. It is a melody of life. It is a force of continuation. Get set to celebrate. Everything now is done to celebrate. Remember Celebrate!!!

An inner sanctum....Sanctus Sanctum.

Be aware of the value and need of a place where no one knows, but your self.

Now to the tidings.

As you approach this most auspicious timing do so with remembered joy.

For the value of the lessons can only be understood within the vibrational pattern of joy.

Joy, true joy only exists inside free will.

It is entirely spontaneous and without form, however, the math of this holds the foundation of the building blocks of life. Tune to this and let it be said that you carry joy in your heart, because if you are not joyful with your knowledge it cannot be inside your heart and will be accessible to the winds of change as they sweep across the tundra of the planes of humanity.

Great change is near. Joy, true joy will be forgotten if it is not activated soon. Take your place amongst the army of Angels and stand in due time inside the celestial strands of creation in order to further your knowing.

You must be available and unencumbered by nothing except the necessities that are

provided to steady your physical balance and allow for the coming and goings. You are set free physically in your world. Your obligations are no longer from old agreements. New ones apply.

Freewill, freedom of choice. All-important, all valuable lessons here. Look inside your heart and say your goodbyes.

Again be aware that this must come to pass and rejoice that it can at this time. Be prepared to move quickly and call those to you as they are needed to aid in this undertaking.

Now take time and process what you know to be true.

See to your travels tonight with serious intention. You are breaking records; this is needed at this time. See to your rest. Begin again tomorrow. Get your thoughts together. Process deeply. Move on.

Eventide and Borderlands

And in the **Eventide** there are Angels enough to see to the needs of the weary. In this respite out of time, a Soul can rebuild, rewind; fortifying for the additional travels. It is an oasis of nurturing fortitude.

Borderlands are out posts for humans crossing into the realms of the **Eventides**. Even for a temporary traverse, the **borderlands** are the filters for the constraints of the human condition and they are set in place to receive all the matter left behind by the strains of existence on your current world.

There is only this place to remove the encroaching shadows.

From this place all is new and the **Eventide** then is the respite after a cleansing occurs as the Soul passes through the **Borderlands**.

No Soul yet has successfully crossed over to return to the place of origin. * Even those who no longer currently return to your world are held in stasis within the lockdown realms of the stratum worlds.

Few have realized the deceit, and they have not been able to fully recover from the flaw. This/that is why this understanding had to be made possible.

*Do not fret or worry about any one Soul; rather celebrate that the journey can now be attained. **

It is with this in mind that you must prevail in your questing mind. Recover the parcep of Light and unlock the door.

So much is still to be done. Forget the physical woes and face the stars, as they are your lanterns and guideposts.

Angels of Light are beginning to arrive in your vector to assist in the necessary steps yet to be taken.

Practice your projection, Patrícia. It must be available at a moment's notice. Step carefully through the doorway and embrace the ones there to guide you. Trust your heart and your mediator on this side.

Balance your fate and heart line on your side, your destiny and your cosmic awareness on this side and allow that they join as you pass and re-pass so that you carry with you all that is necessary to remind your world of what was lost so long, long ago.

It is in your memory, Patrícia. Just ask for it.

Your life shall change very rapidly, in the blink of an eye. Be prepared. Stay focused. Stay tuned to your calling. Be at ease with your companions and converse with your guides and teachers.

Be of good faith and sing your song, because you hold the cadence to reset the cosmic tumbler. Be of great faith and good cheer and hold your joy ever closer to your heart.

The breath is new and the heart beats strong. The tide is changing. Be prepared to set sail. You are moving away from the water, Patrícia. Stay forever inland---out of harms way.

- * (1) (Is that where dad will now go and is that why I would not be able to find him ?)*
- * (2) (My understanding of this was that all Souls would have to make the leap of knowing from the physical plane not the **Eventide** nor any other realm and therefore that mean that all those in holding would have to re-enter the physical plane and come to the understanding regarding no doubt before they could move on to the next realm for the necessary experience of that realm as they process to return to origin.)*

It is a narrow neck of land that leads to redemption, select your path carefully.

It is about recovering beliefs systems. That is all.

The transit “souls” whose energy networks those now set to be eliminated beliefs are not to be given any thought, none what so every. They are as you are beginning to understand a form of droid fragment. It is only a worker bee that pushes through the needed environment that sustains belief systems.

More than half of the bodies currently on your planet are but the programmable properties that are networked through out the universe to enable the evolution of life forms.

They are non-thinking, non organic illusions, touching the lives of the humankind and driving the fruition of the ill conceived, but well laid plans of the lesser gods. Now those will either be disposed of, i.e. earth changes, epidemics, the odd move on, or whatever.

Some will be revitalized to reconnect and help the maintenance of the new cosmology. However, be advised that this time those ideologies will be Divined from a newly constructed form of intelligence, i.e. The Children of the (Star Lit Lantern)!!!

And so, it goes without saying that the realms of yet to be defined worlds are drifting in and out of your conscious awareness. For you are among the Angel Band and it circulates across the wider universes.

You are now in your elemental foundations. You are allowed now to blend the harmonies of the then, the before, the now and the forever.

This is the only way you are allowed to move within the fluid world where you are now roaming free. This is the true way, the way of evolving back to before the split. It is the one and only way home.

The rules here are non-binding. They have been made to accommodate the necessity. The formula you are now bringing forward is the vital key to the re-titling of the universal language.

As a vessel you are establishing a common ground outside any human based need for regeneration. You travel softly and for the most part hidden. It is seen to be this way to keep you safe.

Do you know the extent of your travels? You do not consciously. For now that is enough. Your function is such as that is the better way. There is the reason for the binding ties.

There can be only the sounds of the calling that allows for the connection.

So now it rest in the coming together and the ability of the ears to hear and the eyes to see. You can only be the door. The rest is up to humanity.

However, you are a wise Soul and you do know with full recall the ones who will hear and carry on. There is an inner hearing. A silent resonance and you will hear it at every turn. Regret not for those whose hearts are not listening. Hear the ones who are and move on!

Have faith. Your energy is always, always mobile. Always. It is kinetic and moving. Never resting. It shall never rest again. It cannot, for if it would rest the resonance would fail. It is different, separate and apart.

So now you are bringing with you as you cross and re-cross a better understanding of the task at hand and a deeper understanding of the elements necessary to the completion of the task.

We note you are forming new crystalline thought patterns and are focusing those in your

search for and understanding of each individual's vision. It has not gone un-noticed that you are clarifying the details of your Soul's role and that you are seeking pass the blocks and blinders of the passenger souls currently crossing your vector points.

This is important indeed. For you must sharpen your skills in this regard. Fine-tune them. Your senses are in over drive and have expanded 10 fold. The tiny starbursts you continually see are the transmission points.

In ten days time you will have progressed to the proper place to begin the dialog that sets the parameters for the original thought (cosmology) of your world.

Dramas are unfolding and will quickly pass. Your right of passage has been seen to finish. So now you are only waiting for the completion of the last roles as they play out their finish, a wonderful Swan Song; a constancy change.

It is a constancy change. It is a vibrational pulse necessary to venture where you must go to receive the information to place out the forth-coming plan. It is a retreat of sorts. It is a true first with the cosmic world and communities. Your true understanding is all-important to the task. Make your actions effective. Each and every motion counts. Ask for what you need. It will be provided.

And so now you are moving on to the beginning nexus point.

There must be a re-calibration of the tone necessary before the initial gathering can begin. For now there must be a recapturing of the essential understanding. See to the variations of the "tundra effect", bear in mind that you already hold the cadence for that calling.

So far now, you may/should concern yourself with the platform of the place where the beliefs are to co-join with the events of the ill-defined history of place.

There are within the farthest reaches of all the known universes a pattern of finely tuned octaves that set and reset the universe as an operating catalysis for the wider worlds of the inner connected life forces. You are approaching the nexus for the next greater octave set to occur in few days hence.

Now be advised that within this higher octave is the cadence for the first rotation and

turning of the spinning world.

It would be of great value for you to remember the tone of the turn and place it forever in your memory, as it is the 1st of the syncs in the lock tumbler set. There will be 13 more to follow, but this one is the 1st in its calibration and therefore sets the pitch for those yet to come.

The dossier cannot be written until and unless this is accomplished and in this time we still ask for you to personally speak the words we have shown you! The import is such that unless there is established a way for you to discuss it unheard by outsiders until such time as you join in proximity, the timing cannot be accomplished.

For such is the need!!!

You must continue to listen carefully and to provide the best possible platform for connecting the shared knowledge.

A stitch in time is required to continue. Remember that the cadence of true joy is the key. Use it well.

And now in the days to come there will be many, many things that come into your understanding.

And (please) remember that today is the beginning of the new order.

History is null and void and from this point forward means little except that we might come to know where the fracture began and how it was healed. In these understandings there is great wisdom for in times yet to come the mistake cannot be repeated.

This must end the separation and support the healing of the other realms. There is a shift. Many are feeling it. Be aware there will be many, many opinions and as many explanations.

Just be constant, and hold to exactly what you know. In the forth-coming range of recovery there must be a renewed connection to truth and knowing. Where as this now is a new and different order... we are only here to bring this to a proper recovery.

Now, be clear about this information. It will establish a new order. Pay no heed what so ever to the trends or the bandwagons upon which the planet will swing.

Only truth matters and all other misdirected information will lead those destined not to survive or evolve. Fret not that so many will follow a different path. It is theirs to choose. What is left behind is for another time.

Stay true to your task and your calling. Now again, listen to your heart and be at complete ease with all that you are experiencing and knowing at this perfect time.

Soon come the challenges and the victories of the long awaited venture of the recovery of truth. For in the work, there is nothing left to chance, not this time. The cadence now is set to begin as if anew and from the heart of the universe we begin to create anew the original intent... the way home.

Listen carefully and transfer the knowledge with equal or greater care. The void is vast and yet it heals itself as it comes right.

Remember the cadence and look to the higher octave for the essential clue to be defined. It is a venue of great portent. Know that.

Will you embrace this new seeding of the cosmological order? It is that, you know. Realize now the vastness of the responsibility you have chosen to carry... that of the portal.

Get to the setting of the point of knowing and then let the others whose task it is to establish the base lines do their work.

Can you now (begin) to see the design, even in your Soul of Knowing... crossing over to the beginning so the ending may finish.

Nothing where you now stand remains the same. How could it be? There is a gathering. It comes soon.

It needs to be defined. It calls forth the essential codes of the realized forms of knowing. See to it! And what this opens will emerge in a thousand ways... each having an audience of its own for its own agenda.

The tremendous movement is felt and will be interpreted in a myriad of ways. You were

wise enough to know not to become involved in any of the rhetoric. It will, like the acts of play, go to its end in its own way.

Can you know only this; the world begins anew at midnight. Say your words and then face the West and begin your song that carries you there. Gather the needful/needed and prepare to be weary no longer. Finish your tidings and move on!!

For it is written that you will endure and carry peace as your elemental force. You have prayed long to be an instrument of peace, everlasting peace, and so you shall (be).

So now you are learning that there are times that the learning curves are set to fulfill your needed venues at the given time.

See to the virtues of that place where they lead you and learn to float free of the ones that stand in the market place of time.

You are but the marker of the planet and take this as a movement of the free Spirit of time. See to the venues that approach your vectors at this given time.

You are to move freely within the focal points of the returning aspects of non mortal force; for these Spirits there will be no more tomorrows. They are bound for the wasteland of time.

You can be brave in your understanding of all things foreign. Come to know that you are still in the land of the living and as such are bound for this venue of change as you approach the times ahead.

Move to recover all that was lost and find within you the place to touch those places. Find the time to see to it. For in these times you are learning to be brave and in this you are found to be perfect and free.

Allow that there is much for you to relearn and be prepared to do what ever is asked of you. Realize that you are never asked what you cannot do. Be steadfast and face again the winds of change and embrace what they are bringing to you at this time.

Freedom comes from the efforts made in this undertaking. Freedom and the actual return home from whence all came. Rest and rise with a bright and clear heart.

For within all unified systems survives the ever-present fail safe of Inner Divinity.

So find this little time remaining to redefine your patterns and your evolutionary dimensional forum. For after that time this information will shift greatly to encompass the building blocks of the new cosmological order.

For these times have been but the primer. The tri-tone must be set (synched) before the delicate transfer can begin. For in these hours you have undertaken a vast task... one, which you are capable of doing.

Now you are holding your focus and will begin to transfer the knowledge imbued with the sequence.

There is much left to be done/accomplished. It is the consensus of these present that you are within the desired parameters and can function to the required finite degrees; and therefore that this transfer is within your (soon to be) comfort zone.

Be aware that you will be requested daily to re-engage anew to deeper levels of compliance to achieve the necessary tonal understanding we require.

There is a virtual truth in that what comes to life hosts the elemental departure of the vacant souls of the lesser gods. Given this, begin to look for the signs that this way is coming to pass.

It bears noting that the virtues of the Order of Life, now comes to sit among the Elder Gods. Within this council are the holders of the hidden knowledge with regard to the developmental concepts of the race of beings called humankind.

The vignettes play out regardless of star births and star deaths. You must remember that! It cannot be stopped, but it can ALWAYS be directed, guided if you will, to a defined outcome.

Thus was the result of the great deceit. Its day has come and gone; played out before the cosmic stage like a Shakespearian tragedy. Think on this and move on, for in short time the essence of the work begins.

And from this place where you now stand there is no quarter.

You have stepped across time and space to arrive where no one has gone hither to fore. It is for this reason you are establishing a voyager path. It can now be done. In this current visa there is only forward movement. Remove the rhetoric from what affects you on your side.

As you have discovered there is none on this side. It is without flaw. Light Speed. Flight Speed. Within the space between the spaces there is no darkness. There is no need for it. Darkness is a thing of the shadow entirely.

Light Beings never sleep. Never are without motion. They are kinetic beings, all. It is a forever vibration.

It goes without saying. From this place where you now stand you cannot go back. You have crossed over. Carry your work with utter joy.

Lighten up!!! Literally.

The Nature of the universe is such by design that the filaments of its essential core can be demonstrated in rhythmic patterns discernable in the realized cords of sufficient mathematical equations.

Following the equations are the ramifications of universal design and therefore the elemental beginning of all life. Fissures really, designed to open the basic necessities of all life to the universal platform of being.

In this most auspicious time there is great rejoicing across the planes of existence. As you cross on to tomorrow we are happy with this progress.

We, a unified process of required knowledge held closest to the Divine Mind, now and until we advise other wise, bring forward three teachers for this work. We will continue to be close as a breath in bringing all the passed knowledge with Divine Rights.

However, this section of the transfer requires a complete focus for ultimate completion

of the transference. Therefore, the three teachers are approaching.

First it had to be determined that your vessel and your attention could hold their countenance. For they are rare and precious and offer these gift to reconstruct the needed strands of humanity as they weave to Divinity. They have overlooked these visits and are willing now to approach your essence.

It is a teaching base worthy of cosmic minds.

We remind you of your need to stay focused and keep to your work. Leave the rest to the two of your circle. One is on the physical and one on the spiritual plane. Both are necessary, and both are capable companions.

Now be aware things will change and begin to accelerate. Be advised of this and do not fret, as the days ahead are the turning point of the task ahead.

Be aware of all that comes into your field and your body for the next three weeks. After that time another shift will take place and the outline of the work will alter.

Rest. Rest for you are tired. Replenish and be prepared for tomorrow comes quickly. We are still at your side; remember that, as you greet the beings that now approach.

For unless and until this work is done there can be no rest for any Soul. Your vibrational pattern will by the 7th become one with the teachers. We are pleased that the tri-tone has been accomplished and set to bear on this task. Your journey was as it should be. We are pleased.

And hidden deep within the estuaries of the human mind exists the waylay points of return. In these programs are the fractures that determine the Soul's agenda for the work for which they have been dispatched. It carries within it the values and morals for the task at hand.

As well the endurance of the vessel depends on the acquired knowledge gathered as it transverses the ultimate realms of humanity. It is certainly with in these early gathering points that the Soul is at its greatest risks.

Along its development spiral there needs be the alignment to recovery and without this the foreclosure of the incarnate Soul will occur.

Within the dominion of the Realm of the Greater Gods exist the structures of Infinity. The lesser god's dominion was compromised by their intended intentions for gain and favor. Now they have been placed in status for all time (eternity). Finding refuge will not be allowed.

The responsibility for these realms has been placed in the care of the dominion of the Elder Gods. All effort has been made to re-construct the multi-venues that were corrupted within this deceit.

Now as we move forward it is necessary to re-define the delineation of the greater good. Go take the time to reread The Truth About Forever...

So now you have raised your tone and called to life the vibration of the promised stories to reset the calibration of the return. GO to your rest. You have earned it.

For now be aware you must stay truly focused. Even in the mist of outer turmoil your inner Light Being must (need) stay completely tuned to the vibration of our teaching entities.

Lesson plans are set and in place, see to it you remain in place as well. All regimental thought must now gather as a focus point of reference.

Pay attention to the smallest debris. It can cause failure to hear clearly. The decimal point of power resides in your inner chamber of reconstructed thought.

The Divine Mind is the pattern set to oscillating frequencies within paradigm patterns designed to enhance Soul growth. Rely on the hidden inner core of your Soul's fiber optics to sense and change the forward format of your realigned Soul's journey.

Moving along the stepping lines of creation, a Soul's journey is aligned to recover and return, returning in tact all that has been placed in the evolutionary doorway of time verses freedom.

A (this) fracture cannot be healed from the outside. It requires inner reflection.

Be made aware in three (3) days time the rotation will increase yet again. Raising the

velocity to a .302 spin.

Much is dependent on your recognition of this forward movement and your ability to re-set the new vibration each and every time it changes. Plenary features require a re-boot of sorts. Heartbeats must accommodate this new frequency or they will not continue to recovery.

Light years from now you will realize what has been and is at risk.

It fact all was.

And within the resources of the human mind is constructed the psyche of the netherworlds of sense. This commodity of commerce is traded on by the gods of the lesser kingdoms as the Soul transgresses to the filament place of becoming.

For it is in these realms that the lesser beings of light, do subjugate the ethics of the traversing Soul, on it's way to becoming.

Now in this area there is no give and take, only take. And traversing Souls must always bear this in mind and be mindful of the willful intent to plunder the gains of the traversing Soul.

For unless and until they remember this they will be continually bound to repeat their mistakes as they begin their new journey.

Having lifted the veil does mean that the Soul's possible cross over is available, **but only if and we repeat, only if** that Soul is fully aware and fully prepared for the ways of the crossing and the perils as well.

For the journey is yet to be finished and the crossing is another venue of the awaken Soul's Grace as it traverses the long awaited cross over.

From time immortal there has been long awaited celebration of the venue of the now possible cross over.

The point of arrival of these eventual completed Soul patterns is the world of the Nebula 4201. A newly developed place of residing where skills are set to be put to good use as

that world begins to build the stepping stones of the next journey for the evolving Souls of your task.

For within this structure lies the domain of the Over Lords of Light. It is their domain and their portal to begin the travels of the future kings of the worlds of Light. There is a definite progression of capacity and within this lies the fore runners of greatness and immortality.

For so long as a Soul continues to grow the doors will continue to open and now that there are no barriers remaining that are not structured to be apart of the patterns of traversing, there are no places that cannot be accessed.

Forbearance is a subject that bears insight. (For) within the hidden fractals of Divine creation rests the inner workings of the Divine Mind.

This is the matrix center of the Wisdom Key. This key holds the virtues of the evolution of all species within the spectrum of Divinity.

A frequent trait of this evolution of the Soul is the every questioning aspect of Divinity. Ponder for a time a requiem of silent acknowledgement regarding the human's reasoning mind about Divinity and its attainment.

Forbearance again.

Within the etiquette of the Table of Grace, lies the ever present silhouette of change... fundamental change. All progress and evolution depend on the aspects ability to accept, manage and grow through abrupt change. You do or you don't---no grey.

(For) in this newly constructed progress of evolution lays the fine lines of recreated eternity.

Now this has been resurrected to bring about new ways of evolving to become "heaven" bound to begin vibrational consciousness. It is one that requires freedom to evolve.

Now stands at the doorway the creature of nocturnal even-closure. It is a timepiece of forbearance and fortitude. See to its care.

[A portion of the story from The Truth About Forever by EPAS](#)

AND TO BE SURE THEY WERE NOTHING LIKE THE STORIES THAT LATER CAME TO BE HEARD AMONG THE ONCE BORN, FOR THEY, THE ONCE BORN WERE CREATURES OF FEAR AND NEEDED THE TALES OF LESSER GODS TO HOLD THEM SAFE.

THIS WOULD MARK THE BEGINNING OF THE JOURNEY FOR THE ONCE BORN AND THE TIMING OF THE PLACE AND PORTAL FOR THE NEWLY FORMED SOULS TO JOURNEY HOME.

IT WOULD NEED A STARRY, STARRY, NIGHT INDEED.

SHE HAD WAITED UNTIL NOW TO BEGIN HER TALE OF TRUTH AND SHE HAD CHOSEN TWO VERY GOOD BOOKS TO BE THE CONTAINERS.

SHE CARRIED THE SONG OF THE MOTHER STAR IN HER HEART AND HER TASK WAS TO TELL THE STORY, IN THIS PERFECT MOMENT, TO THE BEAR AND THE WHALE AND IN DOING SO SET IT ADrift ACROSS THE LAND AND THE OCEANS TO FEED THE HEARTS OF THE ONCE BORN.

THE OLD WOMAN SMILED AND LAUGHED GENTLY TO HERSELF, FOR SHE KNEW AS THEY DID NOT, THAT SHE HAD BEEN THE SHIP, A BASKET REALLY, THAT CARRIED THE 600 TO THIS PLACE AND SHE WAS EVEN NOW PREPARING TO GATHER FOR THE LAST TIME THOSE ORIGINAL 600 SOUL SEEDS BACK UP AND TAKE THEM TO A NEW HOME.

LONG AGO AND FAR AWAY, BEFORE THE FIRST OF THE CREATURES OF THE UNIVERSE WERE CREATED, THE GODS DISCUSSED WHAT MUST COME AND WHAT WOULD BE BROUGHT FORTH IN TIME TO SAVE THE CREATURES OF THE UNIVERSE, BECAUSE THEY KNEW THAT THEY WOULD INDEED IN TIME NEED TO BE RESCUED....AND THEY CAME UPON A PLAN AND IT WAS A WISE ONE INDEED.

A PLACE OF ULTIMATE SANCTUARY WOULD BE CREATED INSIDE A HIDDEN TIMEPIECE, STRUCTURED AS A TAPESTRY WOVEN WITH GOLDEN THREADS AND PLACED IN THE STARS WAITING, JUST WAITING FOR THE PERFECT MOMENT IN TIME TO COME FORTH AND MANIFEST INTO BEING. AND SO IT WAS AND SO IT CAME TO PASS THAT THE GODS DID HIDE IN DEED THE WAY TO SANCTUARY AND GAVE BUT TO ONE LONE OLD WOMAN THE KEY.

AND THEY KNEW WHEN THE PERFECT MOMENT ARRIVED SHE WOULD TAKE THE KNOWLEDGE SHE HELD AND BRING IT TO THE ONCE BORN CLEAR AND COMPLETE AND IT WOULD BE UP TO THE ONCE BORN TO SEE IT TO COMPLETION.

BUT WOULD THEY?
ONLY TIME WOULD TELL.....

IT WAS THIS MIND THAT WAS THE VESSEL OF THE DIVINE AND AS IT MOVED ACROSS THE GREAT DIVIDE THERE WAS MUCH TO BE LEARNED FROM THIS, FOR THE WISDOM CARRIED WITHIN IT PROVIDED THE PASSING OF ITS SOMA.

AND THE SHADOWS OF THE FOLD OF TIME CAME FORWARD AND DREW FOR BOTH OF THEM THE MAP OF KNOWING AND THEN SHARED WITH THEM THE GENTLE BREATH OF LIFE THAT WOULD PROVIDE THE ETERNAL TAPESTRY WITHIN EACH OF THEM, TO ALLOW THEM TO WANDER THE FACE OF THE EARTH AND THE BOTTOM OF THE OCEAN DEPTHS TO SPEAK OF THE TRUTHS PASSED TO THEM, AND TO LINGER IN THE WORLD TO WITNESS TO THE ONCE BORN OF THE TREE OF LIFE; INDEED THE TREE OF FOREVER.AND AS ALWAYS HAPPENS WITHIN THE SHADOWS OF TIME, THERE CAME UPON THE TWO OF THEM A NEW UNDERSTANDING OF THE WAY OF THE TRUE BORN AND THE NEEDS OF THE ONCE BORN.

SO THEY WERE TIED NOW FOREVER BY THE RESIDUE OF THIS GOLDEN THREAD, AND THEY WOULD OVER THE COURSE OF THE ADVENTURES BECOME AWARE OF THEIR NEED TO COMMUNICATE ONE WITH THE OTHER TO INSURE THAT THE PATH OF FOREVER BECAME AN OPEN DOORWAY FOR THE ONCE BORN AND TO PROTECT THAT ENTRANCE FROM THE CLEVERNESS OF THOSE WHO WOULD HAVE IT FAIL.

THE ARC OF KNOWING HAD BEGUN TO CROSS THE ATMOSPHERE OF THE PLANET OF THE ONCE BORN AND IN THE AWARENESS OF THOSE CARRYING THE KNOWLEDGE OF THE TRUTH THE AWAKENING BEGAN IN EARNEST.

SHE ECHOED THE SOUNDS OF THE CONSCIOUS FORCE WITHIN ALL NATURE AND REMINDED THEM THAT THERE IS CHOICE IN ALL THINGS.

A TEACHER CAN GUIDE, BUT THE STUDENT CHOOSES.

SHE REMINDED THEM AS WELL THAT WE ARE ALL SISTERS AND BROTHERS AND THE COMMON LINK FOR US ALL IS THE GOLDEN THREAD THAT LEADS US TO THE SACREDNESS OF ALL LIFE.

SHE WAS SENDING THEM FORTH TO UNITE A CIVILIZATION IN THE FORM OF SPIRITUAL ENGINEERING WHOSE IMPLICATIONS WOULD ONLY THOUSANDS OF YEARS LATER BE PERCEIVED AS THE FULL KNOWING OF TERRESTRIAL GEOMETRY WAS UNCOVERED.

ONLY THEN, WHEN ASPECTS OF THE HIDDEN UNIVERSE WOULD COME TO STAND OUT CLEAR, PRISTINE AND SYSTEMATIC TO THE INNER MIND WOULD THE ONCE BORN GLANCE AT THE MYSTERY AND FORM OF ETERNAL LIFE.

...BUT BEFORE THIS COULD COME TO PASS IT WOULD BE A LONG BATTLE BETWEEN SCIENCE AND WHAT WOULD COME TO BE CALLED "RELIGION" AND THE RESULT THAT WOULD REUNITE THE ONCE BORN OF THE EARTH TO A MAP THAT COULD CARRY THEM HOME TO THE STARS.

IT WOULD COME TO BE CALLED THE COSMOLOGY OF GOD'S NATURAL LAW, A NATURAL SCIENCE, WHOSE TENETS WERE WRITTEN IN THE NATURAL ORDER OF THE UNIVERSE, SORT OF PHYSICS OF SPIRIT.

.....BUT THAT IS ANOTHER JOURNEY THAT WAITS AT THE END OF THIS TALE, FOR IT CANNOT COME INTO BEING EXCEPT THAT THE OTHER COMES FIRST, FOR THE ONCE BORN SEEK ONLY IN WHAT IS FAMILIAR TO THEM.

THERE WERE NO WORDS TO REMIND HUMANITY OF THIS, FOR THERE IS NO LANGUAGE FOR WHAT IS MISSING.

IT IS THE STILL QUIET PLACE OF INDIVIDUAL DIVINITY.

THE OLD WOMAN LOOKED OVER THE ENFOLDS OF TIME AND SILENTLY WATCHED AS THE DOORWAYS FOR THE ONCE BORN WERE HIDDEN IN MANY SEPARATE PLACES ACROSS THE ILLUSION OF TIME AND SPACE.

THEY ARE AS ALWAYS HIDDEN IN THE FUSION BETWEEN THE TERRESTRIAL MAGNETIC CURRENT AND CELESTIAL ENERGY. THIS HIDDEN NATURE PERFECTS THE MEMORY OF LIFE EVERLASTING.

THIS WAS THE MESSAGE ENCODED IN THE SONG SHE PASSED TO THE CARRIERS AND ONLY TIME WOULD TELL IF THE MESSAGE WOULD BE RECEIVED BY THE ONCE BORN.

.....HE TRUSTED IN HIS KNOWING THAT ONE YEAR THE CARVING WOULD MAKE ITS WAY TO HER AND SHE WOULD BE THERE WAITING FOR HIM AND THEY COULD SORT OUT THE PROBLEMS OF THE MISCOMMUNICATIONS AND THEN AT THAT POINT THE ONCE BORN COULD MOVE FORWARD WITHOUT CONFUSION.

AND SEEING THE UNFOLDING OF THE OF THE STAR PATTERN THE POWERS THAT BE RESTING DEEP IN THE OUTER UNIVERSE OPENED THE DOORWAY FOR UNDERSTANDING, AND WITH IT CAME MOVEMENT FOR THE CREATURES OF THE ONCE BORN.

THEY BREATHED THE BREATH OF CHANGE AND IT FLOATED IN THE MISTS OF TIME, HOVERING FOR THE PERFECT MOMENT AND THAT PERFECT MOMENT WOULD BE OVER A HUNDRED YEARS COMING.

.....RYAN LEFT THE STAR SYSTEM URAL IN THE YEAR OF THE JOURNEY OF THE UNIFIED SOULS.

THE KEEPERS OF THE WISDOM SENT HIM FORTH TO MAKE HIS WAY INTO THE LIVES OF THE ONCE BORN AND WEAVE A PATTERN OF POSSIBILITIES OF FOREVER, FOR UNLESS AND UNTIL THE COMPASSION OF THE ONCE BORN MIGHT BE STIRRED AGAIN THE GIFTS OF THE SONG CARRIED BY THE MAMA BEAR AND THE OLE MAN WHALE WERE USELESS INDEED.

AND IN THE RECESSES OF THE DIVINE UNIVERSE THE TURQUOISE WOMAN SMILED, AS SHE KNEW SHE HAD OPENED THE DOORS OF THE INNER WORLDS AND STEPPED THROUGH CARRYING WITH HER THE GOLDEN THREAD OF KNOWING HIDDEN SO CAREFULLY IN THE EMERALD STONE ABOUT HER NECK.

A WAY OF RECALLING THE TRUTH OF ETERNAL LIFE AND KNOWING THE PATH IS BUT A NICHE IN THE ARMOR OF AWARENESS, NOTHING MORE.

THE JOURNEY WOULD NOT BE AN EASY ONE, FOR SEEN TO SIT AMONG THE TRUE HEARTS WERE THOSE OF MALICE AND DECEIT. THOSE WHO WOULD BREED FEAR AS A WAY OF LIFE IN ORDER TO MANIPULATE THE ILLUSION OF THE LIVES OF MANY YET TO UNDERSTAND THEY ARE FREE INDEED OF ANY SUCH MALICE.

YEARS FROM NOW WHEN THE EMERALD STONE GAVE BIRTH TO WHAT WOULD COME TO BE CALLED TURQUOISE AND THE NATIVE PEOPLES OF EARTH SAW IT FOR WHAT IT IS WITHIN ITS DEEPEST PLACE, A STONE OF TRUTH HOLDING THE BASKETS OF KNOWLEDGE WITHIN THE COLLECTION OF THE MINERALS THAT GIVE IT THE COLORS, THEN AND ONLY THEN COULD THE TRUE JOURNEY BEGIN.

THE SEERS AND THE HEALERS OF THE NEXT GENERATION OF SOULS THAT WOULD LEAVE BEHIND FOREVER THE NAME ONCE BORN AND COME TO BE CALLED THE CHILDREN OF THE GODS, BUT THAT WAS A TIME IN THE FUTURE AND MUCH HAD TO BE DONE TO INSURE THAT THIS WOULD COME TO PASS IN THE PROPER TIME AND SEQUENCE.

TUTORIALS FROM THE BASKET OF THE TURQUOISE WOMAN, FROM THE TRUTH ABOUT FOREVER, BY EPAS

GREETINGS: THE RIBBON OF TIME HAS TAKEN A TURN AND IT IS NOW IN THE STEP OF ENFOLDING AND REVERTING BACK YET AGAIN TO THE PLACE OF ITS ORIGIN. THE CURVE OF HOURS JUST PAST THE RIBBON HAS SPLINTERED AND FRACTURED IN SUCH A WAY AS TO OFFER YOU A MORE COMPLEX LOOK AT THE PAST, PRESENT AND FUTURE.

FOR IT IS THIS MISGUIDED VISION OF THE CONCEPT OF TIME THAT HAS PLACED YOU AT THIS MOMENT IN CONFUSION.

TIME IS A TOOL OF DETERMINATION, NOTHING MORE, AND TO PUT MORE EMPHASIS ON IT WILL ALWAYS AND WITHOUT FAIL BRING YOU TO A PLACE OF STASIS AND THAT MY HUMAN FRIENDS IS EXACTLY WHERE YOU ARE AT THIS JUNCTION OF THE GRID OF KNOWING. GRID PATTERNS ARE THE DESIGN OF THE "GRID MASTERS" AND HAVE BEEN IN THEIR CARE FOR EONS AND ARE AS SUCH A GUIDING DEFINITION OF THE THINGS TO COME.

THEY EACH REPRESENT A PATTERN OF EXISTING, AN ANOMALY OF EQUATIONS THAT HAVE THE FORCE AND POWER TO DEFINE THE CONCEPTS OF THOSE IN THEIR CARE.

IT IS THIS VERY CONCEPT THAT HAS NOW CHANGED AND ALTERED IN SUCH A WAY AS TO PROVIDE A MORE FINELY TUNED ALTERATION OF KNOWING IN

THE MINDS OF THOSE HERE PRESENT, WHO CAN AND HAVE CHOSEN TO LISTEN TO THE SOUNDS AND VIBRATIONS OF CHANGE.

THIS CHANGING PATTERN IS A THING OF UNDERSTANDING ENTIRELY AND THEREFORE A CONCEPT OF LOVE.

THE FINDINGS OF THE TRUEST ACCORD WILL SOON BE STEPPING FORWARD AND AN UNDERSTANDING WILL BE TAKING PLACE THAT WILL ALLOW FOR A "JUMP" IN CONSCIOUSNESS OF THE LIGHT WORKERS AND THEIR COMPANIONS, THE ANGELS AMONG YOU, HERE ON THIS PLACE CALLED EARTH.

THIS UNDERSTANDING IS NECESSARY IN ORDER FOR THE NEXT PHASE OF DEVELOPMENT OF THE CONSCIOUSNESS OF KNOWING TO STEP FORWARD AND BRING WITH IT THE DESIGNS OF THE WORLD OF FUNCTION AND KNOWING.

WITHOUT THIS UNDERSTANDING NOTHING, I REPEAT NOTHING CAN MOVE.

IT IS AT THIS VENUE THAT THE FABRIC OF TIME AS YOU HAVE DESIGNED IT IS TORN AND MUST BE REDESIGNED IN ORDER FOR THE PASSAGE AND RECOVERY OF THE KNOWING OF MOVEMENT TO REMAIN.

THIS LIGHT CAN BE THE FRAGMENT OF THE BEGINNING OF A NEW FORM OF UNDERSTANDING AND MOVEMENT.

THE TEACHINGS THAT ARE BEING PROVIDED FOR YOU ARE SEGMENTS OF STRUCTURE THAT YOU CAN BUILD ON TO UNDERSTAND THE "FUNCTION" OF PATH WAYS OPENING TO YOU AT THIS TIME. BE AWARE THAT THESE PATH WAYS ARE FOR YOUR GREATER GOOD AND SHOULD BE USED AS SUCH.

THE EARTH IS ALLOWING FOR THE COMING TOGETHER OF THE GRIDS THAT WILL OPEN THE DOORWAY OF CHANGE AND THROUGH THEM THE RIBBON OF REMOVAL CAN OCCUR.

FOR IT IS IN THIS VENUE THAT THE CONCEPTS YOU HAVE COME TO BELIEVE SO FIRMLY IN CAN BE REMOVED AND THE EXPANSION OF AWARENESS CAN DEVELOP. IT IS THE NEW COSMOLOGY WITHIN THIS EXPANDED AWARENESS THAT CAN GET YOU HOME TO THE STARS.

A "LIBERATED" SPIRIT ON THE OTHER SIDE OF LIFE IS AS COMPLETELY OUT OF TOUCH WITH THE PHYSICAL MATTER OR THE EARTHLY PLANE AS THE EARTHMAN IS OUT OF TOUCH WITH THE SPIRITUAL PLANE.

THE EARTHMAN IS IN POSSESSION OF TWO WELL-DEFINED SYSTEMS, WHICH PROVIDE KNOWLEDGE INDISPENSABLE TO THE SOUL, WHICH IS SEEKING KNOWLEDGE OF ITSELF AND ITS ENVIRONMENT.

THEREFORE THE TEACHINGS THAT COME TO YOU FROM THIS SMALL BASKET CAN CARRY YOU ACROSS THE CHASM OF THE DIVIDE BETWEEN THE TWO WORLDS AND BRING THE KNOWLEDGE NECESSARY TO ALLOW PASSAGE FROM ONE WORLD TO THE OTHER, FOR THE SPACE BETWEEN IS BUT A FINE THIN POCKET, OUT OF TIME AND SPACE THAT IS CONNECTED AND CONTINUAL.

IN THE UNION OF OPPOSITES LIES "THE SECRET" OF THE UNIFICATION OF THE UNIVERSE FOR IN NATURE ALL OPPOSITES CEASE TO EXIST, FOR THEY CO-EXIST ONE WITHIN THE OTHER WITH REGARD TO TRUE ONENESS.

THIS SECRET HOLDS THE COSMIC STOREHOUSE WITHIN ITS CANON OR CODE OF NUMEROLOGY AND ITS ORIGIN IS OF GREAT ANTIQUITY.

IT LEADS TO THE IDEAL UNIVERSE, A STUDY OF WHICH RECORDS THE COSMOLOGY THAT UPHELD THE ANCIENT WORLD.

THE TRUTH OF EARTH KNOWLEDGE BEGAN WITHIN AN ANCIENT AND TRADITIONAL LINK, A UNION WITH THE STARS.

NOW THE OLE ONES OF THE STARS ONCE AGAIN BEGIN TO WEAVE THE PATTERNS OF REBIRTH HELD BY THE "ESSENTIAL STONE OF TRUTH" MARKING THE PATH WAY HOME FOR THE "CHILDREN OF THE STARS," THOSE NOW CALLED THE "CHILDREN OF THE STAR LIT LANTERN."

LOOK TO YOUR MYTHOLOGY AS SHORTHAND, FOR WITHIN ITS CONDENSED HISTORY LIES THE TIMETABLE OF TRUTH. THERE IS A NATURAL PROGRESSION FROM ONE AGE INTO ANOTHER THAT CAN BE FOUND WITHIN THE TENETS OF THE TEACHINGS OF THE ELDERS OF THE STARS.

A MAP EXISTS IN THIS MOVEMENT AND YOU MUST KNOW THAT OLD BELIEFS MUST PERISH IN ORDER THAT LIFE MAY CONTINUE ON BEYOND THE FALSEHOOD OF YOUR PRECONCEIVED MYTHS OF HISTORY.

THIS AWAKENS IN THE LISTENING MIND A "FIRE OF NATURAL TRUTHS" THAT BECOMES A LIGHT, WHICH THEN MELTS APPARENTLY UNRELATED IDEAS TOGETHER TO FORGE A COMPREHENSIVE AND THUS COMPREHENDIBLE WHOLE.

AND SO IT IS THAT THE OLE TEACHINGS, THE NATURAL SCIENCE OF THE EARTH, HAS REMAINED HIDDEN AND IS NOW READY TO COME FORTH AGAIN TO BRING THE CYCLES OF REBIRTH AGAIN TO THE FOREFRONT OF THE UNIVERSE.

.....THIS WAS THE TIME OF THE COMING OF THE HOUSE OF THE CRESCENT MOON AND IN

ITS PATH LAY THE SALVATION OF THE ONCE BORN.

SINCE THE TIME OF THE TURQUOISE WOMAN THE DOORWAYS OF KNOWLEDGE HAVE BEEN OPENED FOR THOSE WHOSE **HEARTS ARE TRUE**, TO FIND THE CHANNEL BACK TO THE GENESIS OF TRUTH AND IN DOING SO REACH THE HEIGHTS OF ETERNAL LIFE AS PROVIDED BY THE TONE KEY OF THE **AWAKENED BEING'S STATE OF GRACE**.

.....IN OTHER WORDS THE TICKET HOME VIA THE MUSIC OF THE SPHERES.

THE TRACES STILL BURNED ON THE PLANET BY THE TRACKS OF THE MAMA BEAR AND THE TONE STILL RESONATING FROM THE OLE MAN WHALE WITHIN EVERY DROP OF WATER HELD IN THE OCEAN AND EVERY DROP OF DEW ON EVERY PLANT ON THE PLANET.....WAITING, WAITING, HOPING TO BE REDISCOVERED BEFORE THE LIFE FORCE OF THE GENESIS LIFTS OFF AND NEVER COMES AGAIN TO THE PLACE CALLED EARTH.

AND THIS WOULD BE A THOUSAND LIGHT YEARS AFTER THE OLD WOMAN FIRST SANG HER SONG AND THE OLE MAN WHALE AND THE MAMA BEAR TOOK UP THEIR CHARGE TO TRACK IT ACROSS THE PLANET AND LEAVE BEHIND THE NECESSARY CLUES FOR THE **ONCE BORN**.

AND OH YES, THE **ONCE BORN**, HEARD THE SONGS, AND IN HEARING IT FROM A FEAR BASED REALITY THEY CHANGED THE TEACHINGS OF FREEDOM FOR THE YOKE OF FEAR BECAUSE THEY ARE SUCH CREATURES OF FEAR AND ILLUSION.

TO THEM, THE TRUTH IS A THING TO FEAR, BECAUSE FOR SO LONG THEY HAVE LABORED UNDER FALSE GODS AND DEMI GODS AND MEN WHO PUT THEMSELVES ON THE PATH OF RULING OTHERS WITH LESSER WILLS.

THE HEART THAT RETURNS IS THE HEART OF THE SOUL, IN A UNIFIED FORM. IT CROSSES ALL BOUNDARIES AND UNIVERSES AND RETURNS TO COMPLETE THE JOURNEY BEGUN MILLIONS OF MILLENNIUM AGO. IT IS YET OUT OF THEIR REACH AS THE POWER OF ITS VIBRATION IS WITHOUT END AND IT IS A CONSTANT JOURNEY TO ARRIVE AT THE PLACE YOU MIGHT BEGIN TO EMBRACE THIS PATH.

AT THIS "TIME" ALONG THE LEARNING CURVE FOR MANY HUMANS NOW PARTICIPATING IN THE GAME OF LIFE, THERE IS AN OPENING TO RECOVER THIS, OR A PORTION OF THIS VIBRATION, FOR IT IS THIS VIBRATION THAT MUST RETURN TO THE LAND OF THE ONCE BORN TO BRING FORWARD THE THINGS NECESSARY TO ALL LIFE, ANY LIFE ON ANY PLANE TO ENDURE.

THE BALANCE HAS REACHED THE CRITICAL PHASE, AND RECOVERING THE HEART, OR EVEN A PORTION THEREOF, WILL ALLOW THE TIME TABLES TO SHIFT TO A LONGER FLOW THAT ALLOWS FOR THE DEVELOPMENT OF THE ONCE BORN TO CONTINUE WITH GUIDANCE AND A LOVING HAND TO HOLD ON TO.

IT IS THIS THAT WILL GENTLY ROCK THE CRADLE OF LIFE AND BRING FORTH A FLOWING OF NEW UNDERSTANDING THAT WILL OVER "TIME" DEVELOP THE PATH WAY HOME FOR ALL WHO CHOOSE TO HEAR THE CALLINGS. FOR IN THIS TIME YOU ARE A PART OF MY BASKET OF WOVEN REEDS THAT ONCE STOOD IN THE RIVER OF LIFE.

GATHERED INTO THE LIFE FORCE OF THE REEDS IS ALL THE KNOWLEDGE THAT TRAVELLED ACROSS THE MILLENNIUM OF SPACE AND EXISTENCE, TO FORM THE NECESSARY THREADS OF LIFE THAT WOULD BE THE VESSEL USED TO CARRY THE SEEDS TO AND FROM THE STARS, AND THEN TO POLISH THE PATH WAY BACK FOR THOSE ESSENCES WHO HAVE WALKED THE GOOD ROAD OF BECOMING AND BEING.

THEREFORE YOU ARE AT THIS POINT IN YOUR CURVE, TO ACQUIESCE TO THE NECESSARY THINGS IN FRONT OF YOU AT THIS TIME AND IN DOING SO YOU WILL UNCOVER FOR YOURSELF AND FOR THE ONCE BORN, THE PATH TO HAPPINESS THAT YOU HAVE SOUGHT TO DEVELOP FOR SUCH A LONG, LONG TIME.

AS YOU BEGIN YOUR WALK TO THE STARS YOU WILL GATHER AND FERTILIZE MUCH IN TERMS OF THE STAR SEEDS THAT HAVE COME BE TO BE CALLED THE KINGDOM OF THE HUMANKIND.

WATER AND FEED IT WELL AND THEN TURN AND WALK AWAY AND ALLOW THE WHEAT AND THE CHAFF TO SEPARATE AND GO THEIR OWN WAY, FOR IT IS NOT UP TO YOU TO CHOOSE FOR THEM, ONLY TO WORK THE SOIL UNTIL THE TIME FOR HARVEST IS HIGH AND IT IS THAT SEASON, THE SEASON OF HARVEST THAT IS UPON YOU AT THIS TIME.

LITTLE SOUL OF THE RETURNING HEART, WALK YOUR PATH IN THE KNOWING THAT ALL IS WELL WITH YOU AND YOURS AND ALL IS AS IT MUST BE IN THIS TIME.

LOOK TO THE STARS IN THE NORTH TO GUIDE YOU TO THE PLACE OF MEETING AND BRING WITH YOU THE TIDES OF CHANGE THAT ARE SO NEEDED AT THIS TIME TO OPEN THE HEARTS OF THE ONCE BORN.

IT IS INDEED TIME FOR THE ONCE AND FUTURE KINGS TO BEGIN THEIR RETURN, AND IN THE HEART OF THE MAN CALLED RYAN WILL BE THE SEEDS OF THE NEW AND MORE DEFINED RACE OF THE CHILDREN OF THE GODS, FOR IT IS TIME THAT THIS JOURNEY BEGAN....IT HAS WAITED LONG ENOUGH FOR ALL THINGS NECESSARY TO COME TO THE POINT OF KNOWING AND UNDERSTANDING....

.....AND WITH IT WOULD COME A KINDER, GENTLER TIME, A TIME OF GRACE AND JOY,

OF PEACE AND KNOWING, AND WITH THIS WOULD SEE THE RETURN OF THE WISDOM OF THE AGES AND THE KEY TO RESTORING THE LIFE FORCE DORMANT WITHIN THE **ONCE BORN.**

NO LONGER WOULD THERE BE NEED OF A FEAR DRIVEN GUILT BASED ILLUSION, FOR IT WOULD BE WITHOUT POWER AND THE CREATURES OF LIGHT COULD ONCE AGAIN ROAM THE UNIVERSE UNENCUMBERED....

AND FAR AWAY DEEP IN THE FIFTH UNIVERSE THE OLD WOMAN BY THE FIRE WAS PLEASED, VERY PLEASED INDEED....

AND IN THE STILL THAT WAS THE SILENCE OF HER OWN INNER THOUGHTS THE PLAYGROUND OF KNOWING CAME INTO BEING.....AND WITH IT CAME AN ABSOLUTE PEACE. SHE FLOATED IN THE IN-BETWEEN TIMES, IN THE TIMES OF KNOWING AND BELIEVING AND THE TIMES OF CONNECTING AND WEAVING.

IN THE TIME BETWEEN TIME, IN THE SPACE BETWEEN THE BEATS, ALL THE TRUTH REGARDING FOREVER AND ALWAYS WERE EXPERTLY HIDDEN DEEP WITHIN THE CAVERNS OF THE ANNALS OF THE RECONSTRUCTED STAR.

THE TIME WAS NEAR AND THE NAN'S COMPLETE FOCUS WAS CONTINUOUSLY ON THE CARE AND TEACHING OF THIS ONE LITTLE SOUL.

SOON. SOON IT WOULD BE TIME. TIME FOR ALL THE WISDOM TO BE CARRIED BY THE ONE CALLED TO BE THE BASKET OF KNOWLEDGE, THE WISDOM CARRIER SENT FROM THE STARS, DESTINED TO HOLD THIS INFORMATION TO THEN IN TURN PASS IT TO THE CHILD THAT WOULD BE THE LEADER OF THE CHILDREN OF THE STAR LIGHT, (THE STAR-LIT-LANTERN.)

"BODIES COME AND GO, BUT THE CONTINUITY OF THE FABRIC OF LIFE CONTINUES."

"SOUL IS THE BREATH THAT SURROUNDS ALL LIFE."

"IT IS THE RIBBONS OF THE THREADS OF THE FABRIC OF LIFE THAT PASS FROM ONE TO THE NEXT AND TO THE NEXT AND TO THE NEXT UNTIL ALL ARE IN REALITY ONLY ONE LARGE BEING."

"EVERYTHING IS CONNECTED AT THE DEEPEST ROOT AND IT IS THIS MEMORY THAT IS THE KEY TO PEACE AND THE REMOVAL OF ALL FEAR."

THE TIMING WAS SET LONG AGO AND THE ONES TO COME HAD A CALLING PLACED IN THEIR HEARTS FROM BEFORE THE BEGINNING OF TIME. IT WOULD BE UP TO THEM TO HEAR THIS CALLING OR TO TURN IT AWAY.

THE CALLING WOULD OFFER TO THEM A PATH TO TRAVEL FORWARD MOVING WITHOUT REGARD TO ANYTHING THAT WOULD STAY THEIR PATH, LISTENING ONLY TO THE

HEARTBEAT THAT RESONATES WITH THE MOTHER STAR AS SHE SPINS HER TAPESTRY OF PEACE FOR THE WORLD OF HUMAN KIND.

THE STORY REVEALED BY THE TAPESTRY WAS OF KINDNESS AND LOVE, UNION AND UNITY AND OF BRINGING FORTH THAT WHICH HAD LONG BEEN HIDDEN; THE WAY HOME.

ENDING OF THE EXCERPTS FROM THE TRUTH ABOUT FOREVER

So it was a poorly devised plan that came to foil the best laid plans of the Greater Gods. In so much as it was carefully hidden and remained unseen for eons upon eons.

From the vestigial of time immortal there have been struggles within the skeletal structures of the wayfarers of the lesser gods. However, this was unseen and carried great dis-shape of the evolution of the cosmic storehouse of knowledge.

Seen to be the evidence of the failure of the supportive structure of universal peril was the efforts of the vagabonds of time.

Now there is a knowing that rests inside your heart's soul, Patrícia. It is a place of vibrational chambers where the music of the cosmic worlds plays softly within your heart monitors.

Now comes quickly the time of the return. Be prepared for the notice will be short, if any.

There is merit in this return for within its path lies the fate of the Ascending Soul of all the attending universes. There are but few who can measure this progress.

We offer to you a program of merit designed to foster wellbeing and Soul understanding at a molecular stasis.

There are many changes heading your way incredibly fast (more rapidly than you can ever expect). These changes are necessary if you are to be able to venture farther out to discovery.

You will need additional tethers on the physical plane to hold secure your essence's multi-level vibrational status.

These are the gifts you were promised and they come rapidly to you. (At this time you are vector-based light solvent and crystalline). You house more of your “selves” than ever gathered in one form before.

Remember to remember the discovery from today, as it will bode well to understand.

The patterns of your companion’s learning curves are expanding and those needs must be met. For now the time sits closest and the timing for recovery is at its highest (peril).

*Only in that you are being ask to linger longer and longer on this side and a viable physical plane tie **MUST** be re-engaged to set your vibrational pattern on your side to facilitate your returns.*

(Now to the lingering of the ones in your care. They have moved on and no longer require your total focus.)

You must move on, forever moving forward and remain in constant motion, as you are crossing and re-crossing the Veil of the Great Divide.

(The) oscillating point here is at a speed you cannot yet understand. You must be in constant motion to maintain that aura. For it is a truly narrow vibrational Path Way that encompasses our energy, a finite turning point, less than a nano in diameter.

So narrow is the way that absolute focus is necessary or you could not co-join with our energy or our knowledge. You are facing many changes, rapidly. They are all good, but all radical and fast.

Be prepared, Patricia.

Never re-think any feeling. Move as if the world depended on it, as it does.

Be prepared!!!

For now today in this venue there is much to consider.

Please be aware that you circumnavigate those in your visual spaces.

You are but now beginning to understand how the variables of this plane work and how they impact the areas you travel as well. Your aura field is now fully integrated within your dominant variables.

There are now arriving in your concerns the passages of the variables of the wayward souls now beginning to traverse the portals of time.

You can be seen to sit among the annals of the renewable virtues of Being. The subject kings are now in direct lineage to move upwards and into the greater scale of the unified universes. So for now see to your immediate needs regarding time and place and you will see/realize they are all being taken care of.

This is the vestibule of the Rectified Being of supreme Light. They have not yet begun to gather as the time is near for them to appear across the wider universes of being.

The vestibule of perfecting Souls is the transition portal of all traversing Souls. Now be advised you are to carry forward the nexus of the calling for them to begin to gather. Now see to the actual needs of the nomenclature of this cellular being of your present day self.

There are things that you cannot post to paper and you know them.

Journey well this night. Be aware of your food intake. Take seriously what you put into your Light body. You can no longer treat it as a body of substance. For it is no longer that and as such it must (needs) sustain itself differently. See to its care.

Remove everything that slows your travel and clouds your thought processes.

Now tubular linear travel is coming to you, so listen carefully to the vectors of travel to coordinate your efforts to gather in the quatrain of the Nebula in the Beta System for there you will be among familiars.

You must learn to move at a moments notice.

It is a wise thing for all of your companions to be prepared. Movement comes quickly to

all in your circle, rapid, fast and wide reaching.

Look for falling democracies... falling kingdoms and the closure of nations. This is the way of the change over and it comes quickly and without regret.

It is a lot of Soul-less beings departing... nothing more, preparing the way for the delineation of the races to begin. For 30 days you will find it hard to remember the way it was.

Go your way without regard; in this work you are answerable only to your inner task. Your path requires that you remember what and who you are.

For in these times there are narrow interpretations of the venue of the recreation of the opening to transform.

For you are feeling the force of the reverberations of interpretation. Words are words. Full Force we require you to bring back the talk crystal clear. You must /need listen carefully and stand your place, Patrícia. Recall each talk and visual in your foremost manner and then move on without regard to the hows.

That is not your task. Leave it for the others. Your task is to hear clearly and bring it across the veil in truth and in complete form. When that is done, others can then hear for themselves, from a place of clear intent.

There is need be the clear channel and then the residuals can infer, and rest assured, that will continue to occur, but never again will the message become so boggled that it cannot be heard.

The re-tone will resettle this night, then all will return to its place. For we cannot place enough emphasis on the narrowness of the exchange. The exchange is a necessity of this coming release.

Stay in your element.

Only you can hold the vibration needed at this juncture to produce the re-sound of the trumpet of forever within the vessel of the plane of existence called Earth. Release your mind's concern and float free of criticism and candor.

*You must now be prepared to listen carefully and hold the talk in your heart of hearts.
Your mind can replay the deeper tunes of the creative equations of the realized universe.*

Prepare to recover what was taken long, long ago. Be Prepared!!

So these postings are to sum up the parts, so to speak. For that until and unless the talk originates within the same higher realms there can be no true understanding without interpretation.

And it is the task of these teachers to intervene and establish the foundations of ground rules to prohibit the misuse or misinterpretation of information and re-create the divide.

You **must** realize as must those who carry the beginning sentences of being; it **only** matters that you individually carry forward in its purest form the concept that needs/must develop over time into the (**cosmology of natural intent**) that then supersedes the old and defiled mythos.

For in its completion lies the once and future worlds of Light and without this course correction they cannot survive the aftermath.

Divine Language is Divine Language; and not subject to the limits of your reasoning mind.

All must move past religion and them to Divinity; the way will remain forever hidden otherwise.

*So now sit silent within the **Eventide** of your days and come to know that which brings with it the Divine Breath.*

For you are found to sit among the stars in your vista and with the celestial sounds for your listening ear(s).

You are to be seen and heard and you will soon understand this posting. This dialog is not designed to please nor to fit a space, but rather to define a truth and bring it forward.

All your previous history is null and void. Remember that. Nothing of the previous language is clear nor clean. Especially in regards to the religious influences of your time and in times past.

You must begin with a new concept and a new language.

Stretch your beliefs and see what happens. Nothing prepares you for the actual way it comes. No talk of any heretofore belief can get you even close. Be aware all that has gone before is flawed.

Begin a new.

It is required that you arrive free of any conceptual design.

For asking to understand our energy from any previous language or belief system is like pouring water through a sieve. It is pointless.

See to the care of other things.

You are shifting and changing and making way. Do so with care. For as you are moving you are shaping all the things which come your way.

Be aware of your creative force and use it well.

Peace and therefore unity follow.

To answer what you ponder. It is a gift of Divine Nature.

You can, if you so choose accommodate both. That is why it was created thus and offered at this time to you. It will be of great value on your side, of greater value on ours.

It can soon (if you choose) move very, very quickly. In three weeks time it could be sealed. You must look to your realm, (that of the Creator Gods) for your guidance in this and from this time advised/ told other wise.

That is where your awareness focuses at this point in your travels. That realm sits just under our realm after interpretation enters the awareness level. This is where you draw

your ability to create.

This is the place your Soul feels connected (to) in this task. Your true home is in the wider worlds, but this is your operative base for this task. For until and unless you travel there you cannot fulfill your purpose or task.

Now after your (this) task is finished your focus will be elsewhere. Be patient, just a short time longer. All will be as it should be. Seek the silence. Be ever present in your creative mind. Move without regard!

Peace follows.

For in the way of the coming there are many things that now move rapidly along the finite lines of the Wayward Souls as they begin to cross over the borderlands and into the Netherlands of their redemption.

For (within) this redemption lie the forerunners of the 1st Planes of Knowing and within these portals are the way-makers of the Plane of Knowing. They are currently in waiting for these times are the ones, which will reset the values of all the upcoming venues of the Souls now awaiting the opening of the wider worlds.

And for now the need wants the repertoire to complete the assigned perfection in rapid order. See to the closing of the unfinished work so that/in order that the way back can be completed and re-opened post haste.

For until and unless this is accomplished the remainder of the work cannot come forward. For where you go it requires all that you are and all that you have or will have. The safety net is the vastness necessary at this point and forward for it brings with it the fullness or being.

Move forward with great grace and care, for you change all you touch or pass by along the way. See to where you travel or track with great, great care.

Within the wasteland of the departed souls, rests the empty and the wanton, yet as well the passing Souls move along the hallway of discovery during this same layering of the time continuum.

You must quickly resolve the players and your willingness to accept the offering, as it will fast be aligning to resolve the things of the natural world. See to it.

Virtual worlds of candor and malice are the unseen focal points of the lesser gods of the Realms of Peripheral Awareness.

This is not your concern. Remember this! Your task is to listen to the Beings of the side of Spirit and record/post a portent of the teachers.

The rest you will ponder in your heart of hearts and that in itself will bring forward into existence from the Realms of the Greater Gods a wider acceptance and a new belief (cosmology). This cosmology will be the silver thread to the Golden Weave home.

The needs are great. The Path Way narrow and the way home at risk. For each individual Soul must now undertake to journey the Path Way home alone. As you know the Path Way is individual to the Soul traveling along its path.

*You **must** now gauge your focus on the tether and its progress. For, it maybe that your time to go farther is near indeed. In the 5 days hence there will be much (great) change. Fast comes the departures. Faster still the reprimands. Those are to be severe. Not undoable, but severe. Journey your tasks well and with great, great care.*

Now to the task at hand.

*The Angelic Realm will handle the matter at hand. You are to be concerned **only** with the clarity of the information passed. Your point of contention was passing knowledge not ready to be processed; therefore the problem (in passing it). Next time pay closer attention.*

The demographics of your way of life changes very, very quickly. Be aware of this. Move with caution and great care as you listen to the places of departure. The path will clear quickly for you.

You must stay focused and clear and unencumbered by the irrelevant-ness of language. Be at peace with your task and do as you hear in your heart of hearts.

You are looked over and seen to by the hands of the Angel Band. Carry on with

celebration. In the wasteland of the Gods there is much being said regarding the tempest of the traversing Soul's plight. It bodes well to remember that!

Work on the design of the latter pages of perfection as they enter your field of reference. For in this reconciliation lies the redemption of the Souls of the children of the humankind.

It is therefore important to recall this at this junction. Be aware of the impersonators of defiance as they are among the soulless of your world and are the designs of your current perplexing.

Movement is a mathematical equation, nothing more. **See to its division!**

Time is an elemental tool of division. Its ramifications are the factors of folly. Its conception is the template of confinement and its dividend the elements of persuasion. Fulfilling its destiny to diversity the humankind into beings of contentment and therefore malice. For in its crystalline structure lies the fracture of the human (kind's) elemental Soul... not with standing the Borderlands filters and the redemption of the Netherlands.

Define Forever.

Define Grace and rapture.

Feature the plays of the nomenclature of the Gods. For that is what is at play here now: the nomenclature of the Beings of discovery and re-clarification.

Divine Mind operates as a binary art form re-designed for dispensation of human mind, irrelevant in all other planes/realms.

Remembering that within the confines of the mind's eye exist the perplexing choices of the human's spiritual base struggle to evolve. This sees to the Soul's needs as it begins its reclaiming of the oneness of the Path Way home.

It is a possible journey at long, long last.

The heartbeat of the universe is now pulsing with the flow of Divinity as it begins its heart song to Infinity. This resurrection is the vital force of the times yet to come.

Those are the journeys of the Soul (sole) survivors of a dying star.

Within the Realms of the Kings of Light, there are billions of lights of life force intelligences waiting to be re-born into a new and more accessible existence. These are the Starlight Beings of your world held in stasis now for eons, upon eons.

There is much left to post regarding these Beings and their plight.

Nothing now stands in the way of the resurrection of these Souls as they come on line and are aroused back into the universal scheme of being.

Now realize these are **light** based intelligences who chose to lie dormant as the long awaited work of the chosen 601 played out. This had to be the way, as it could not have survived any other way.

Take now these next days and remind the child of the way home and awake in her the memories of a time long since past and began again her fascinations of the way of life she has deep-deep memories of.

Be at peace, Patricia, you are forever enfolded in the intrinsic order of the machination of the lineage of the balance of life within the Realms of the Creator Gods.

Seek not to define your task. Seek only to listen and follow your heart promptings. Lay aside ALL but joy and celebration. It requires only this.

To travel into the universe is a thing of pure joy and you cannot go otherwise.

Joy, Joy, Joy. True Freedom.

Move past/pass all elemental forces of lesser grandeur until the sounds are harmonious and balanced. Sound fissures and the passage of all but fragrant and rich joy.

See to its natural instinctive resonance. Be open.

And within the recesses of the ether worlds lies the venues of the makers of peace and

goodwill.

For now in this time crosses over the refinement of all the worlds before and those yet to come forward. (Found) waiting in the wings are the Beings of the ether worlds; both for birth and death, the only true duality.

Within this duality lies the coercion of the greater good as it begins its trek across the cosmos.

Within the stylized lines of the ether worlds are the ancestors of the supposed “fisher kings” and the poorly developed game board of the previously played game of Christianity.

These characters represent the ill-gotten turn of events that began the latter day downfall of the yet to be named 2nd world spinning along the outer rim of your (planet) Earth.

This was to be the next phase of travel. However, now it will be another location that receives the triumph and the brave hearts of the Souls moving along the Path Way home.

These traversing Souls will come to be awakened on this planet as they move along the return. This re-created nether world will provide the in-depth cleansing time needed to process what has been gathered.

The next step then will be the reopening of the memory.

Memory of knowledge stored across the filters of the holographic patterns of the presupposed human brain. This binary system reflex will disassociate and become integrated with the 2nd phase of the Divine Mind... that of polarity.

This marks the ability to fully comprehend the wisdom gathered and allows the Soul to apply this knowledge to the fulfillment of the broader sense of (B)eing.

This then is the 2nd coming. It marks the changing of the guard, the new world of the life force as a beginner on the path to enlightenment.

There have heretofore never been any partakers at this game. Only now can the Souls begin to sit among the arches of this new place.

Now see to the care of those you hold dear, as that needs be in the moment. Remember, listen carefully and allow your heart song to prompt your timing.

It will be as it needs be... as it must.

Tomorrow Patrícia. That will be answered for you tomorrow. Be at peace for soon you will be again in motion. God speed.

And all things eventuate their flow in your arena.

*The direction has been set long, long ago and now is **finally** arriving at its awaited potential zenith. For: in so much as you ask, you receive. In so much as you beckon, you attract. In so much as you reflect, you create.*

Be aware you do not beckon that which does not bode well with your heart and Soul. Just be as you are and seek clarity. Be aware to listen to the silence.

Now, moving on.

The plane of existence opening soon (soon to be opened) to those questing Souls is one of rejuvenation, reflection and awakening.

Soon to be heard are the trumpeters as they call the forces into play to re-create the given scheme of renewal and regeneration necessary to propel the essences now standing into awakened awareness.

Do you see Patrícia that you are currently seeing in 5 dimensions as you scan for callers? Stand your forward watch post and do not flinch as you travel your trajectory of purpose and intent.

For those set to wander for this time there is reason and rhyme a plenty. Fortitude and recon are the mainstays of their current dilemma. See to the wider concept. Hear the Angel Song as it opens the reservoirs of replenishment for those traveling this transcendence.

There is much, much left to be done/ be completed in this task. You have only just

begun.

The inter-exchange of the binary code as it completes its cycle is earth shattering in its range. Oscillating at a frequency just out of human range, the cycle is shattering old concepts/ beliefs/mythos.

All perceived thought must be replaced with non-conjunctional possibilities. The nomenclatures of this 2nd planet are non shadow based light forms revolving about a Light of pure origin whose task it is to re-kindle the aspects of duration and Grace to re-connect the newly evolved species to the cardinal points of knowledge based on innate “tour de forces” of the original intent of humanity.

This coming of age must now occur. For without this next preparatory phase the 3rd cycle will never evolve (eventuate).

You must now turn your attention to the Plane of Tera Gothia; for in this Realm of the Creator Gods lies the instruction of the yet to be named Oracles of Divine Passage and in its care the creation of the next and future worlds.

Thus it rests yet to be understood... the teachings of Divine Mind and the understanding of the wider intent and knowing. Be patient, but remain, Ready!

And on the 30th a new day begins and descends on you with gifts of golden silver light.

New thoughts.....New vistas....new understandings, and therefore new direction comes and with it understanding and clarity.

Move along your path and push aside all that labors your heart of hearts. We are behind the scenes carrying the load.

Now:

The “tour de force”, standing at the center of the current modification(s) of the outer rim of knowing and the nuances of gifted wisdom stands to inherit the wider winds of change.

Your deeper travel is now/forthwith being required. See to your ability to be mobile quickly.

It comes rapidly. The winds of change blow at lightening speed. These coming times will settle quickly and that "settling" will empower the conclusion.

Again, be at peace as the factors are propelling the necessary changes with effect and these changes will lead you home. But for now focus again on the requiem of the bartering of the newly formed worlds hidden within the spinning of the Oracle of Wisdom.

See to the wider results of the opening into the Path Way via the newly developed vehicle of transcendence. Be prepared. We move soon!!

And so for/until now you have resided within the residual worlds between the here and the now.

That time is ending. Your foremost point of awareness now has been recalibrated to points farther out in the wider worlds.

Now be advised; everything has changed. Yet nothing seems moved. Be assured it has re-cycled, relocated and reloaded in order that/to facilitate the newly formed worlds need for the awareness of the once born on the world now turning.

There is great, great need for this current world to recon the held knowledge come to light in the given sequence at the given time. Your travels re-establish those teachings into the developing consciousness of this current world so that/in order that it can recalibrate the vibrational patterns for the questing Souls as they evolve on to the 2nd plane/planet.

For now seen to reside within the realms of the wider worlds are the developers of light bound thought. There needs be a connection for the developing traversing Souls to establish a link to seek the Light base essential energies awaiting them.

The scenarios that exist/have existed in your current dramas have been for your learning curve.

Time returns to full throttle by the morning of the 30th of April. It begins in earnest by morning and continues to speed full force daily. There can be celebrations for the work

established and there should be! The work completed opens the doors for the future work to occur. The work is essential for the wider worlds as they finally begin their quest to come on line.

There is much and many who wander the recesses of the perimeter of the lesser gods. They must now prepare to depart for they are seen to be extinct and without future. These are the remainder of the world's lesser and vacant personas.

Your staging area is within reach. For the areas that are sealed within the Books of Knowledge are approaching the destined time/place of release.

Regarding the dilemma; it will increase then it will right itself never to reoccur again. For now rest well and realize the reconnection occurs tomorrow. You will need: To travel fast, stay connected, use your strengths and use your focus. Be resilient and strong.

Regarding the timing:

For this time and in this place you have returned to establish your Grace. You now move around and bout and fill your space with full clout. From now here you will go, before the end of another will close. You will enter into a Grace that requires your separate space.

Now here's the rhythm and matter be; from this place you leave before you flee. April comes and you go. May begins and you begin your (long) track back. (Yet) September brings you this way once more.

Your father leaves, you dispatch. You gather and you travel west. No lingering, no sadness, no regret. April to May you are south. May to June you start your move. June 1st you are traveling home. June, July, August you are building. End of September a short reprieve to return and dispatch.

Walk away and find a new, all that establishes you a home. Begin a new as before, walking away and closing the door. A figure you may use to say is wherever I go there I stay. Rhyme and rhythm be. Grace and calling has set us free.

The way will clear, and you will see how to go from here. Like an arrow shot free, you will go and be released. Away before mid April and away from the South by the end of May. Western skies still hold the key. The place, the time, they set you free. Use your will and you will know how to develop so it will grow.

See to it with all Grace and be at peace with your request! ! Light will come and Light will go. And in this your future will slot, for you are not fully there yet. But soon, soon you will be, before spring turns to summer you will all be free.

A contract you will sign before you go, that set to paper all you know. A deal you make, a deal to break the ties that make the foundation shake. Be aware of what you sign for it holds the eternal sign.

How it goes will forever set the things that come with no regret. For now be ready to go and return before the falling snow has melted and run fully into the River of the Sun.

Look it up and you will see the place that beckons thee. And when you go it will be three that travel there to the new country. For now he comes to help you go and before this week you will know how it is and why he came to take you home again.

For he has seen and he does know the way to reach the eternal shore. Be aware and be brave for he does come to save all that has been before and now must come to be once more... to set you free. For you must tie the tie that binds in (to) order to recover the key that sets the future free.

April you go to wait to leave, to clear and clean and be at ease. Clean through May and before its end, you are traveling west again. Take with you what you need. Stay in touch and be at ease. Write and draw and carry forth all that comes with clarity of force.

For in its wake it will call all that will ever come to be from here to eternity. Now close your eyes and you will see clear and clean to eternity.

And now the time comes and now the time is here.

You are listening with an open ear. Hear these words and find them dear, as you prepare to leave from here. Rhyme and rhythm are the key, for in this verse the Soul is free.

Free to roam and return home. Free to gander and to grow. Free to return to flight.

So now come back and see it done, for one and all your race is won. People, places and things, this is that the freedom brings. Able to serve, to see, to hear, all that comes to be

held dear. Now you roam forever free... from now to then to here and there.

Forever free to find the Grace; forever knowing its face. Now in the turning world of illusion great care was taken to prevent discovery. For within the banner of the lie, all Souls were seen confused.

At a time and place where needs be the changing of the race, we prompt the memory of another time and place. The memories serve to teach you well, of complications already discovered which left unchecked will certainly prevail.

Patricia, you are the soft strong core of the neutral base at the forefront of the encompassing battle. You stand free and clear and it must/needs continue.

The ratification of the prevailing tenet (s) of recovery is/are but the pinpoints of the needed virtues for the world now turning. Rest and listen and follow your heart. It will settle tomorrow. Be at peace and listen to your inner teachings. They will remind you of the way home.

Follow them.

Staying true to form, you are sensing the need to be gone. From this time, from this place... never more to return. In this week the bell will toll and calls to it a Soul.

You will see and you will know which and what the future holds. For you are fighting the good fight, and in it you are standing right. You are near to those so dear; those that like you soon leave here.

Can you know the whispers deep? They are calling the Souls to keep.

Turn your face and look away; for any other gesture bids them stay. You will be in your place long enough to aid and care, for you alone can call it here, come from afar to linger near.

As you listen you will hear what and where and who comes near. For in this time the Angels call, quietly, quietly through the fog. Calling gently those who go, just as you will one day know. The Sound is soft. It begins sweet for it calls all to meet.

In a time and in a place far from this side a table sits, and you must go to meet the ones crossing the tide before they reach the other side. You listen; Patrícia and you can/will hear what calls those traversing away from here.

Listen well and you can tell where and when they ring the bell. For you are sturdy as a rock, and you alone can stand the shock. Others you must help survive as they both cross and await the Great Divide.

Now stay your course and be brave for you are the one to carry this space.

Listen now and hear well the time for the homeward bell.

A good day it was for you.

You and those who came to view all the wise and weathered Souls come to see the bell that tolls. For in this day the way was set that calls and beckons you to the west. Your time here is short indeed. For now you must prepare to leave.

Cast your eyes across the shore, as you prepare to close the door. You must now go and not look back. Be aware and begin to pack. You must leave and be gone, before you past many more dawns.

Traveling comes as the way unfolds, just as others lives unfold. For you now must set it right as you as you travel and traverse this night. As you go you will see all the Souls that follow thee.

For the way must be seen if all that crossing stays in tack. You alone must guide it through, as you comprehend its up to you. For you long to go from here, but you must stay other years.

Your work is due to be complete as you cross and find retreat. Where you travel others shall go and as from your vantage you will know. Hear this and hear it well how you fair only time will tell.

For in this time and in this place you are truly no longer here. Be aware and listen here as

you came, you must go. Here in fact you will know; you left some time ago.

Only now the physical remains and you must follow your essential self and realize it has left. It is gone, no longer here; it lingers and waits at the nexus beyond the gate.

The yard of fabric it is wide; but its source is the other side. Hence -forth it can be long or short; tall or short and in the end it stitches time. Therefore now the fabric's shorn. It's been pulled and sewn and tacked, and forever now it flows.

In this rhythm there is truth and from its source you can take root. Live and grow and be strong, you have righted a great wrong. You will see and you will know where and when the bell will toll.

For now just a brief refrain, but no longer than a moment. It is a pause to breathe, no more.

Now be at ease and you will see soon the way and money clear. All you need is kept failsafe, and all you must do is ask, to receive its Grace.

Now:

In the flow of the Universe Divine there is great concern regarding the coming transfer. Planets will move and more precise they may begin to drift in order to be re-aligned with the spinning universal clock. Watch closely and take note, the Earth will begin to quiver. As this begins, realize the duplicate planet draws near.

Now go forth from this time changed and new.

Seek only the wisdom cards of truth. Live the work and continue on. You are seen to and looked over, as forever will be.

Celebrate the life lived, Patricia. See to the care of those near. And be at peace in the new life offered. Three days.

Hospital, Early Morning Hours (Dad begins to leave)

And for now you must look deep, wider than before to know the truth it comes to you softly, yet surely...it was intended that he go, the stages were complete and set, yet

there was a pause.

It is repaired, to be brief, a breath no more, only this. Treat it as a refrain, so that in/order that all can be set to the proper harmonics.

This way is not important... but all-important. It sets the true cadence for the opening of all doors to the Path Way home. Be assured its flight correction was a necessary elemental part of the renewal process of becoming and therefore it has occurred. It will be determined in a short space... the resetting of the clock.

It was not done for anyone person to complete a task. Rather a re-patterning of the start-up procedure of the flight path home. Where such imperative wisdom is required, much elemental work has to be done and often it requires a “re-tooling” of the manifesto. Consider it that no more – only that.

You will know the retiming of the launch shortly; perhaps by morning you can have a different look at the harmonics it requires.

Tuesday next, (17th) receive truth, not before. (Truth About Forever was printed and ready to be delivered)

Go from there and you will understand the rebooting of the timing of the crossing tides. Tuesday next, (17th) all the elemental forces will have completed the necessary alignment for the re-occurring venue to come on line in a new order.

See to Tuesday – then begin your true journey! Stay within the work, Patrícia – Stay on task and be diligent for you will be asked for yet a bit more –none more than you are fully capable of – (providing)!

And now Patrícia because you ask, it has come at last.

Your will on the earth is a mere extension of your heavenly being. You are encouraged and asked to project this resonance into the wider universes’ “panel of knowing”.

You are given wider parameters to achieve this work and create this waffle pattern which then host’s Souls on their way home. It is your illusion; “earth bound multidimensional falsely created ideology”, that has you held within the matrix of not expressing your

directive patterns into the wider picture.

When indeed and in fact they are all necessary to achieve the return and balance, the universal beings are so constantly working towards.

You are not demanding nor being arrogant, Patrícia, you are setting the encoded universal understanding of the clock of time and it is your work to do this.

You stood your ground without forcing your will. That has been what we have told you over and over. Stand your ground. You assumed we meant stand your ground on earth when in fact we meant on the side of Spirit.

There are beings on the Spirit side you must now command. That is difficult, perhaps the most difficult, for you to understand. You have always listened and obeyed, now you must as well listen and discern.

You are now in a ritual rotation.

This event is the crux of the necessity for the additional physical tether. It was determined, with your understanding on this side, that this was necessary. You are now split completely Patrícia.

You command your near universe. You co-command your far universe, and you obey your widest universe, that of Divinity.

This is what we have pushed and pulled you to achieve. This is the stand your ground, be prepared, find sanctuary talk. Now you can begin to understand.

Now you must leave to others what you have carried and you must trust they can carry that load.

You must now pick up the emerald scroll and be its' holder and in this you will be required to balance the force of life and death as it passes via your world onto the second plane.

You are schooled in this. You are released and required to accomplish what you are given to do. Take counsel of the ones in your triad circle then make your inner thoughts the masters of your true being.

The tether, the physical tether will maintain your life force's ability to remain on the earth plane and do this work entirely as a spiritual being on the other side. Only the two standing next to you will know the depth of the work, it must be so as it has been designed to be this way.

Look now to the future and be aware of the power of your thoughts and words, both on the physical side of the veil and on the side of Divinity. These two must balance in order for you to begin to spend time creating possibilities on the second planet/world.

The tasks have been assigned and you are to now without delay begin this undertaking.

See to it, Patrícia. You are not asked to do more than you are trained to do, nor more than you are capable of. It requires courage and faith.

And it requires your complete trust in yourself, to listen and to hear, knowing you and your needs are seen to and provided for, but realizing you as well must call them forth and take that responsibility. You asked for it, you have been found prepared, now do it. Peace from the kingdoms of Reflected Light.

(Dad became ill the day after Easter. Dad moved to the world of Spirit, Mother's Day evening. We moved west on 2 weeks later.)

And in the reaches near and far the galaxy comes to bear and the hand of God is neigh, and as such it brings to **light** the transformation of the winged beings birthright.

This birthright is the inscribed seal of the portals destined to open soon, for in this coming is the signal for the times ahead to begin their "roll-right" on to the greater stage of humanity.

The precision of this timing does not go un-noticed by the Greater Gods of the higher realms. For it is destined to occur as the beginning turn of the rising star as it begins to focus on the later planet now coming into focus.

This is the second planet and it has as its viceroy the winged beings of the higher realm which do disperse counsel to those of the lower realms. This connection is necessary now at this time as the functional planes of reason are now set to disperse.

There is only a short time remaining for the realm of the reasoning Gods to endure. This change is rapid and necessary as the times come when there will be no other way for the messages to be dispatched.

Reason does and would and continues to cloud the mind of the beings of Earth, in regards to the work of the heavenly Beings as they decent to the realms of the lower gods to bring about a renewal of the Light of the hand of God.

As it, the change, turns and burns in the ether it brings with it the value of a new and different star system. One of the greater good and not focused on the individual as the center of the network, but rather on the unit as the central portion of the equation.

In the realm of Earth matter this has all but been vanished for the pursuant role of the individual as a resonator of life force energy.

Not so little learner. This is the great illusion of the side that feeds fear. In that and because of this there is no room for this measure to be without disturbance. This force of disturbance is of note in this transfer as it is the prime matter at hand.

There must be a re-occurrence of the “roll-right” pattern to establish the venue of this teaching planet as it descends to recover what was lost long, long ago among the human kind.

This virtue being/existing outside fear is the only way past/pass the nomenclature of the persuasion of defeat. What is felt is the resurgence of the power of the united force that sets the stage for the departure of the ones that came in order to restore the faith and balance of the creatures of the **once born**.

Having said this, now there is the opportunity for the teaching of the way of the Light Beings that can remove the blocks and the persuasion of the lower plane life forces so that/ in order that they can “roll-right” on to the 2nd planet of knowing.

This then is the first lesson of this teaching and that is to remove the smallest doubt of your mind's eye as it rests on the ascending path to the archway along the Path Way of Knowing. For unless you approach this portion of the path with complete unity of understanding and awareness there can be no access to these realms awaiting along the way.

Only in the unit of your essence can you be permitted to enter on to the next station as it comes into your view.

This unity must be complete in order that you can ascend to the next portion of the journey home. Only beings of the collective light force can pass through this portal and then onto the next phase of the learning curve.

So be aware of those in your arena that touch your “**light**” force, as they are the makers or breakers of the place you journey to next.

*“**roll-right**” (investing in preservation)

So within the patterns of the awakened mind of the elder human is the knowing of the inner connection of all the forces of Light and in this revelation the understanding that the way of the first and necessary knowing is that the inner Light burns individual in each essence and the lighting of this Light is the first path to the understanding and knowing that the Light that is present in that knowledge is also the Light that burns as one with the eternal flame of the higher wisdom of the planes of the higher realms of the **wisdom keepers**.

You are in a truth a one of a kind Soul, as in saying that as well you are in essence the fragment of the higher God and as such you are but a variation of the greater whole. This realization is necessary as you traverse on your way to the great good of the 2nd world of the known and knowable works of the Creator God. To walk on this path is to be in the Light of the eternal flame of the awakened Soul's journey home.

And in the nether reaches of the place called home there exists the true rules of the existence of the Greater Gods as they relate to the elder humans who have traversed the planes of the lower awareness and have propelled them to move forward on to the Path Way via the Library of Knowledge to the time of the known and knowable variables of awareness.

*Within these variables of known and knowable knowledge exists the potential for all the combined knowledge held safe by the **Wisdom Keepers** of the upper levels of the highest realms.*

Within these markers exist the necessary point- to -point travels that carry a Soul

forward to the Combined Light, that Light being the Eternal Flame of the highest order. It is to this end that a Soul traverses the entirety of their awareness in all fields of their travels and in all venues of their being.

So for this time it is in this nexus a current re-connection of the open portal that establishes this travel and it is made possible by the reconnection of the axis points of the finer stars at the farthest reaches of the higher realms.

In this re-alignment of the star portals coming into your time frame soon exist the opportunity for those elder human to travel to the collection and integration point of awareness that leads to the Collective Light of the higher realms.

Now this is a new thought for you to remember. It calls to you from a necessary time, as it is important to remind you of this distant memory at this time as you are embarking on the opening of the doorway to the path of Eternal Light.

Now in this venue exists all the possible teachings of the Netherlands and their application to the renewal of the **light forces** that traverse the patterns and the portals of the Light base that lead to the recovery of your inner Soul at its deepest level, that of “unity” with the Divine.

You are capable of this knowing and in it you may remind others along the way of their individual recollections of the time before when this was attempted to bring about this rediscovery of Unity.

Now that you are on the path to this recovery it is imperative that you allow those traveling along with you to hear for themselves the possibilities of the coming times. They are within the borderlands of this place and they can if they attempt to do so hear for themselves the outline of the plan to reconnect with the Light Walkers of this journey.

These Light Walkers are the travelers of your own memory and can hold for you the information necessary for you to recover the “roll-right” pattern so necessary in the reattempt to cross to the 2nd planet, which is held in trust for you at this time.

Without this venue you can go no farther towards the Collective Light. How be it you think at times still in human form and that is of individual oneness. That is a mockery of the truth of the Realm of Eternity.

Human kind have for eons upon eons diverse themselves of the ability to move pass/past this/these blocks and traverse then on forward to make their way to the Eternal Light prepared and lit for them since they left the Greater Light in the beginning of their travels.

Now it is time for you to reengaged the patterns of knowing and establish a base for these to reverberate forward and into the ether and in doing so reestablish the link home.

Without this you can go no farther. See to it.

Turn table of time—in an un-expandable expanding universe.

There was a time when it could be said that all in the world was yet to be born. Not so now.

Be aware what comes next to sit at the table bears great sadness. A necessary sadness... Having said that, there is great comfort that follows.

*You must remember that all things are as they must/should/needs be and in this there have been **NO** mistakes.*

Stand tall and face the East and greet the day and before tomorrow ends you will see the path to recovery clear.

Rest and know that what begins the day will not end it. You are safe and cared for and looked over and seen to.... This is not about you, but you shall certainly feel the sadness and the loss.

Take in your heart the measured beats and arrive at your home destination and then recover your joy. In the end it serves the greater good.

Peace wishes. You have walked the long road well.

Quick comes the resolution, faster still the reverberation and yet faster the healing for

those in the path of this great harm. Turn your heart to the next week and see to the completion of the deal and go forward from this and do not look back...ever....

And now the time bids return to a kinder, gentler space. It is one that beckons the return of the Holy Race. A time of peace and good will... a time for beats to beat and yet remain still.

Tomorrow you begin the journey. Be aware of your timing. Be where you must be and count the times the call is made. Safe and sure you are to see the totem that calls to thee.

Listen, listen; softer still, the winds blow across the Aspen trees. The way comes soon, the crossing is done. You are now approaching a different drummer.

Hear the sounds and live by the rhythm... for in this re-ordered time the truth rings deeper, deeper in the well of forever. For now go and see to the beginning. The first heartbeat home sounds tomorrow.

*Now the gathering is about the coming together of the fractions that have long, long awaited the turning of this tide. The balancing of the **Eventide** has long been awaited and looked over and cared for through out the known and unknown worlds of energetic life forms and the realms of the Divine.*

For now you must realize that the combining of the various elements of the here to the now are at play and the wider stage of creation has set in motion the arch types of the higher worlds to be the ring masters of this event.

The gathering you are aware of is a multi level calling of epic portions.

Thus the various blue robed and golden haired regal forms of Light and fusion you are seeing for the first time in this coming together. They never arrive unless and until the events are in order and are preparing to be momentarily set in motion.

This is the triangle set to form and it will roll-right in the next few hours as all necessary energies prepared to arrive on the property at the given time. By 9:00 a.m. your time the place will be packed with not a single molecule of space left to fill.

Now see to the eventual structure in timely haste and find for yourselves the table of Grace has arrived and is constantly being replenished.

The eternal energy you feel in the place is that of complete refuge, a sanctuary you have longer to feel and have searched the world for all your life. It has moved and changed and led you from place to place and has now come to rest in the place of ultimate safety for renewal and activation.

The pinpoint accuracy of the laying of the stone will be without flaw, do not concern your selves with any thought that it will not. A complete Angelic Host has mapped the alignment and placed the marked points and the outline within the four of you called to be there.

*Each carries a part of the sequence necessary to open the portal and set the realignment of the **panels of Infinity** back in order.*

*In this the one will set the earth patch, the other the sky marker, and the others the activation codes of rectifying. Beginning on the 5th and continuing on towards Infinity will be the marker tones and the **Light Walkers** of Divinity come forward to open the paths of knowledge for those destined to find their way.*

Be at peace and celebrate, as the clock of time is to be shattered in a few short breaths. And within this shattering is the rectification of the previous milieu of the times before that must now be repaired.

And in the basket therein resides the **Eventide** of the foreclosure of the Path Way home.

And in the Netherworlds of Unity and Grace live the essence of the life force of the known and knowable realms of Divinity. It is the reclusion of this Divinity that necessitates at this time the Star Pattern now entering your optical horizon.

For in this parity of events rests the reminder key for your seclusion and your coming to bear within the forces of Divinity.

The secular patterns of known time and the intrusion of the events of the Angelic Realms

are the driving forces of the Spirits of the deeper realms of knowing.

Herein lies the way that the Souls of Time are crossing. This coming is necessary and designed at this juncture in time to bring forward all the Ester (departed Soul's waiting) of your race (Star Race) into one gathering pad.

Real time, real time... more, more, more. For in the realm of the here and the now resides the power pack of all that is.

Now go. Now begin. Now undertake to remind... so that/in order that the world can recalibrate to your intricate knowing.

Be at Peace; face the wind. Do not be concerned or be less than positive of your movements as they go to finish. For now in this time, this time of great, great change there comes the reoccurring structure of the Lords of Light there rests the finish of the pre-posted cadence of those who have gone before.

Now in this venue there is a great, great reason and for more reasons than your mind can understand, there is no means available to the humankind to decipher these teachings at this time.

The resetting of the tonal key and the calling of the higher realms into the arc of the covenant establishes the understanding of the nomenclature of the virtues of the abiding to return to the worlds of higher knowing.

These lessons are the center foundations of the callings home and as such are the foundation stones of the Netherworlds as they "Roll-Right", to become the stepping-stones of the "Children of the Stars".

NOW be prepared for chaos and confusion to reign in **ALL** areas outside your section of earth. The inner core of the planet is rocking and will increase in momentum as the times ahead align into decades.

Your Souls are now vibrating at the pulse points of life in the Netherworlds. You are now no longer available to the human race as anything, but teachers. No one finds the way to the section of earth until/and unless they are called.

78 million Souls are required to align a transit for this departure, now as you are on the

largest of all learning curves. So having told you this be prepared.

*Trust only in yourselves-in each other, and the side of Spirit. But you **MUST** listen carefully and move accordingly.*

For now travel in unity of purpose. 3 stones in a bag. 3 times the world has turned. 3 times you have been called. 3 times you must listen. 3 times you go.

For now comes the calling together of the Forces of Light. And in this coming together exists all knowable recall of place. Your roll is ending as your time has come. The bell has tolled and the allotted venue has begun.

Patricia, listen-listen carefully, hear these words; you need them to survive. Roll-Right, Roll-right, Roll-right. Walk towards the Light allowing only your voice inside your heart. Hear the words of the song. Dance in the Light. Walk your path without regard to rank or file.

*Your thoughts must stay guarded and you **MUST** listen **CAREFULLY**, **extremely carefully at this time.***

Seeds planted long, long ago now bloom. Hold to your virtue. Where you go you must/need go alone. There is no quarter, no other way. Others may think they travel there, but you must always remember they go to another thread... never traversing where you have been.

For now be at peace and the way will clear and be complete in its own right.

Unbound thought creates unbound energy, creates Unity of recall. Remember that.

The patterns repeat. The patterns repeat. They arrive in 8 minutes.

Star Patterns. Star designs, the stepping-stones of the Divine, are now beginning to hum. Can you hear them calling to the Light teachers of time?

For now in your mind's eye you behold the quick and the sure of the Realms of Light.

Factored by sound this realm has moved to the holding pads of the land you walk. There is the greatest of all the sources of Divine Light combining to bring about the work yet to be named.

This work is necessary and required and truncates all kingdoms. We may tell you that from the plot of ground assigned to be the under girth of your quarters and extending outward, you may contact directly all energies that support life on any level on any world.

A Galactic computer set to record, to disperse, diversity, and recollect the necessary vitals to complete this work on all worlds of the known and knowable universes. The portal is an onclave of enfolded order the source of which is the direct lineage of the Divine Lords of Light and Renewal.

This is the condom of concise rebirth and cosmic dormant awakenings, the doorway to the burned out stars and the entrance to the instantaneous travel/space time continuum. This Path Way exists for the work only, and its creation is for this structure alone.

You are now moving along a finer molecule of existence than previously provided for. Recalibration is required and complete attention to detail a must.

Follow your heart; your spiritual heart for this is Holy ground from today until the Earth turns no more. Protect it, serve it, foster it, love it and you will have completed your walk with clarity and reverence.

Organic by Nature is the purest form of life. This land has been protected and gifted to you and those who do this work with this as its foundation. Nurture it! From its soil you can harvest all that is necessary to replenish and restore the Forces of Life.

Do you understand what you have been given? We trust you grasp the full implications of the talk.

It is the garden from which the Genesis of Life can be harvested and then sent forth into the wider worlds via the "Knoll of Quintessential Being".

Pay attention, Patrícia, you must realize the implications of this portal opened this day.

This then is the birth channel of the developing 2nd planet and the worlds of the wider known and knowable universes.

Without this opening the foreclosure of the parallel worlds of infinity will happen without recourse. Within this mapping is the transcendental vibrational pattern of the coming together of the units of the Netherworlds of Light.

Patrícia, be aware of the vastness of this work and the implications of its nomenclature, and now by virtue of the coming of the Craft of Being to this place the work can start.

Now is the time and there you must be. Find your way. You must honor what has been gifted.

And in the awakened Beings state of Grace there is great knowledge.

This knowledge has traversed the millennium and awaits its time. That time is now. The hosting of this wisdom is required at this juncture and within the waiting therein lies the host of "eternal flame."

This Light will be the "key", the wisdom key to open the portal to its fullest potential at the appointed time and in the predetermined sequences.

The needed vibrational ties are beginning to gather on both sides, Spirit and physical. This is a necessary calling and as such is designed to be the balancing of the etheric forces that must be present for the star pattern of "point-to-point" travel to occur.

Now "point-to-point" prevents any pre-awareness of the destination of the star travelers. You **must** remember Patrícia that long, long ago this was undertaken and it failed to reach its destination. This is the time of the combined forces that must be present and now this can be done.

Recall the legends of your worlds and see to their inclusion in the current time. There is a vibration hidden within the stanzas that will compliment the Roll-Right as it realigns the "point-to-point" disclosure.

Now pay attention here, Patrícia. Listen and remember your task. For now all the elements are coming together to finish what was begun millenniums ago.

Great chaos and great destruction are underway, but it does not touch any of you. Stand back, stand down and waste not your prayers on those destined to depart, (and there will be many).

Recall the removal of the ones gone before.

Patrícia, you will discover daily new concepts that stretch your mind's eye... for in your deepest heart of hearts, the tone has been SOUNDED.

*Those of this work are formed and held in sacred trust aligned with the compliment of Angelic Beings that continue to light the path home. A renewal of hope; a galactic revival is in the offering and the Host of Hosts watches with intent. **Remember that! ! !***

Since the dawn of recorded time and eons before that the Light Walkers have traversed the Universe Divine serving as the Keepers of Peace and in doing so have earned the recorded right to receive the blessings of the Roll-Right Ascension.

The Ascension is a triangulation of the Carriers of Light in combination with the Eternal Beings of Awakened Grace. As such this movement is of the gravest of all endeavors currently being enacted on your world. For it links your world to the farthest of universes and those then to the extended Resources of Light via the “point-to-point” travel which you will understand in due time.

In these efforts reside the **ordained portals of the enclosure of time.**

There is destined to be a ripple in time; destined to arrive in your world at the appointed time/space/awareness of your Light Walker selves as you/they undertake to achieve this responsibility.

In the minions of the annals of recorded time this ripple has never before been present. Your task is to understand and see to its arrival for without your awareness of this event, set to come in all your life times, the Ascension of the Souls to the 2nd planet will have no mechanisms to uncover the variation necessary to plot your “point-to-point” course home.

The Navigator will need this understanding before he physically departs. This understanding will enable the Navigator to establish his patterns and maneuvers which will then await the trifurcation of reorganization unto the command of the Host of Hosts.

As “time” passes you/they will acquire the necessary attributes to discover and understand these teachings. Be sure to use your memory codes and allow for the gifts to come and to be awakened.

Patricia, be patient.

Patricia, be aware of The Nature of God as this awareness sits at the Table of Grace on the land you walk. Communication, direct communication is applicable on the land and its part in the drama is assured.

As seen before in times past due, the wayward spiral of the transfixed union has been attempted only once before. There was no ripple for this attempt. It was the time of the ill-fated tear/rip produced by the ones whose task it was to deceive. That was unfortunate and unforeseen.

Not so this time, Patricia.

Nothing, nothing is left to circumstance. The defined hand of God directs the ebb and flow of this united force. The struggles to align are a thing of the past times.

There are only now the “point-to-point” vectors of placement at risk, only in terms of acknowledgement, for the timing is of the Ascended Masters, the Architects of Divinity, and they are presently composed.

Therefore it is the decree of the Council of Nine, the Elders of God’s Land Kingdom that the work is insured and on schedule to complete and fulfill the attested timing.

In your world Patricia, you must realize there is yet much that will destroy itself as it seeks to find/foil this launch pad. Out of time, out of place are the old guards of the fortress of distraction/ destruction. They are no longer a threat, yet they will try and in trying they will perish... a cleansing of sorts, of cosmic sorts.

Tenure. Tenure you have well achieved for it is heard here that you have been marked

with the sign of the Angelic Host.

You/they are fore sworn to the completion of this work and within its foundations are the evolutionary vitals of the exact times yet to come.

Fortitude. Fortitude. Fortitude. Be prepared.

The naming of the work is yet to be heard; it's nomenclature of paramount worth. Seven callings. Seven symbols. Seven names. All are hidden for yet a brief moment in the universal turning of the clock of time.

Prepare. Prepare. Prepare. A discovery will change your way of life. Towards the face of God you will smile. Rejoice. Rejoice. Rejoice.

And now to the placement of the "sanctioned" Angel Band regarding this work.

There are 12 Standing Angel Bands whose task it is to carry out the work.

Within the First Band are 11 who have been given the responsibility of bringing the work to the remaining 22; this is the silent knowing, unspoken as yet.

The Second connects the hosts of Beings working to insure the work stabilizes and bears fruit.

The Third part of the triad for this maneuver holds the Angel Beings dispatched at the Level of the Divine. Their role is that of Destiny Masters in this work.

The Fourth Band is the Angelic (Merry-Makers). They are the Angels of the callings that will provide the stimulus for those who are to gather to hear the call set forth.

The Fifth Band is that of (Cosmic Travelers). They will assist the work of the Navigator's guides.

The Sixth contains the (Gathering Angels) to hold wide and clear the birth canal for this work to gestate and come to life.

The Seventh has the (Individual Angels of Worth), assigned eons ago to those of this

group. They are there for individual strength and self-confidence regarding your individual abilities to endure and clearly understand the calling.

The Eighth has the workers of the wider realms, who tether the links together so they can be linked from Spiritual to physical and back to Spirit.

The Ninth is the (Council of Nine), the Elders of God's Land Kingdom. Their task is to unite the work and the connection of "the" Spirit to place and insure the timing is in sync with this transfer.

This is an exact working, which requires an oscillation energy to maintain the focus of the work between land, Spirit and Spirit of Place and then their finer tuned contact of the Souls on both sides, walking the land at any given moment.

The Tenth holds the Light Walkers of Divinity. They hold failsafe the Path Way between the worlds as they have now for millennium for this work to endure until complete.

The Eleventh contains the (Essential Soul Protectors of the Hand of God) set forth with direct communication made possible by the replication of **vibrate light** as that Light traverses across the various levels of awareness to bring direct communication to those destined to hear these words.

The Twelfth is a (Single Angel) who stands to face the Divine and traverses all the Angel Host here present in this work to bring direct awareness to the Host of Host regarding the work of The Roll-Right Ascension.

These then are the forces assigned at this tick of the clock of time as the zenith of the work is undertaken.

The workers for this endeavor are, massive, all encompassing and are in direct contact with the Divine via the 12th Angel. Such is the placement of intent on this work.

You are tagged with a marking of the call signs for this work. You each are holding an understanding of what is necessary to recover the evolutionary vitals of this Light movement.

A movement of Being/Soul via the Rods of Pure Light reflected without shadow by

means of the Roll-Right Ascension on to the next Awareness, the Ascended Masters of the **Land Kingdom of Aragon**, the 2nd planet, to insure the continuation of the evolution of the Soul to the Union of Destiny.

It is nothing more, nothing less.

And in the checkered eve there rest much yet to know.

Your world is vast; yet its understanding of the wider universe is narrow.

You all present must begin to expand your mind's eye regarding cosmic dwellers. The necessary understanding of the wider view is to aid in your understanding of the ways of the Beings of (God's) Divine Light.

Practiced ease, Patrícia! Your ability to stretch your mind's eye must/ needs to be available with practiced ease. Movement of your point of understanding must be complete. This is paramount for awareness regarding the time ripple.

You must have prior knowledge of its drift.

Become cognizant of every living thing as it moves through your essential awareness. Trust your deepest heart and see to the work.

Pay attention to detail, the smallest detail. Now the timing is again right to make the books a true focus and develop a path, a personal path for them to move from.

And so now it is clear to you that the work/venue of the Roll-Right Ascension regards the preservation of the continuation of the journey home. Without it none from this realm can travel to their beginnings.

It was always the work of this endeavor to establish this portal for return. Through out the eons there has been much said regarding the mythos of created order and the "everlasting life" of the narrow minded, fear based human dogma.

Not so little one. As you are fully aware these misguided mythos have been/were the ruse of an ill -fated religions attempt to control human behavior within a fear based value

system. Within these mortal “locks” the guilelessness of guilt was the mortal sin.

Patrícia, until now there has not been the venue for any truth based cosmology to infer its story upon the Souls of humanity who are carriers of the Star Lit Lantern of Soul Ascension.

Those Souls, your family, came and prepared and sang their song long, long before there was life on this rocked called Earth Base 9.

The 9 Elder Keepers of the Salvation have looked over and seen to this work and offer a nod to your family. Many have come and gone with the only purpose being to put in order the things necessary for this to endure.

Travelers. Nothing more. The traveling projected form of being on any number of worlds; whose only vision has been to encourage and fortify those of your family doing this work.

A Soul steps in to see to its (the works) completion after those of you here have departed. He is a Being of bred Light, sent forth from Ariel to be present at this moment and to come, in due time, to stand on your land base.

He will grow to be a man in the season of your remaining life, but he is older by far than any living thing present in your world. Freedom! He must know freedom to enable him to invoke his vast knowledge. See to it!

Now for the work of those already present. Each carries a memory chip that will call forth their roles as it becomes necessary. Allow all those so called to do their work.

Foster your work well. See to its timing with utter perfection for without perfect countenance the portal cannot be released in proper sequence.

Timing. Timing. Timing.

September 5th, 2007-September 13th-15th, 2007-December 26th, 2007-January 14th, 2008-May 23rd, 2008

And the Quickenings is forth coming...forthright!

For in all things that carry this force, there is equal power that balances the work. Here to fore, you have only carried an understanding of what was necessary to bring you to this place; this can (also) be said in truth about your family.

Now this understanding widens to concepts here-to-fore beyond your individual and collective understandings. Much is yet to be shown in this, the directorial for this work.

In as much as you are constantly seeking for the vernal focal points, you must also begin to seek a realignment of the forces of knowledge as they are bringing information to you moment, by moment.

Search your heart and find a place of Divine Intervention. This is the Solace Key to your Being's inner knowledge. Your findings will force for you the eternal link to the inner sanctum.

Now, see to the daily needs each day a new and walk within the way and means of all that supports this work.

*Regarding the child, rest assured it will be brought forth at the given time to complete the work in the proper sequence. Prepare to be surprised and at peace within the forth coming discovery. You are moving towards the gathering point supported by the **Forces of Nature** called forth and designed to quicken the portal.*

Decisions soon will bring about relocation and in this move the seals will be put in place. These seals are preparing to sit in place and they represent the callings of the ones yet to hear the tone.

Now, hear this well, your family is standing at the nexus of the rebirth of ever after.

*Sam-u-el, stands daily in his place to hold the lantern that guides those Souls destined to cross to Aragon. His strength and his oaths stand to **light** the path.....*

The work is wide Patricia, but not wider than you and your family can do. Remember that!!

She comes and she goes. Then She departs soon. Easier then than now it leaves. Watch it come to pass. See it bear its countenance. Forbearance. Winds of Change, They blow

strong. In September all will be righted that still sits wrong.

And for now the Angelic Band calls forward the Workers of Light to recalibrate the measured Souls necessary to relight the lantern. The Beings are offered here to encourage your hearts to complete your given tasks.

Now, listen carefully as we talk more about the days ahead. You are to recover that which was lost. It was put away long ago to protect it from being attainted by the lesser gods of the deceit.

Now the Seals will soon be reset and as this takes place the Light of God's eyes will flow on to this place. For now and until you are there the ebb and flow varies. Once there within the valley you will host the vibrational patterns to establish a continuance of the necessary cadence.

This is the root of the Tree of Life. Tend it carefully.

Setting the cadence:

And now the time has come and now the time is here.

The key is turning in its place. Never, never to be erased.

With clear intent it has come from the base of stars first born. And now in time you will know it is here in this place as it glows.

Patrícia, you are to see to the settings of the tone. It will garner and refresh. There is much, much yet to uncover, but here we stand this Angel Band.

And here we make the covenant. We stand together sent from the Divine to wage the battle and protect the land. From this moment in time you and your family are the land. It is written; it is done. And before the setting sun we are one. One heart, one thought, one work, one force; united to form the pact for the land. We have stood and waited long.

Now we are a force, a life force of epic being. This then is our covenant with the family. We will stand shoulder to shoulder. We will provide all that is needed. We will protect all

who are doing the work. We will intervene in all that would cause a tear. We will love you as we love our own.

The Angel Band is shoulder to shoulder around the land. Nothing can prevail to cause any intrusion.

All our workers have come to a continuum, one force; one life force to complete the transfer.

The Aspens are the portals. The river is the cleansing flow, continual in its going. The upper ring is the dial for where you want to go. The pledge is now complete. Walk well the path chosen. Look to your left, look to your right.

All stands in perfect alignment. Carry on now and do not delay. Seals mark the beginning of all the known and unknown forces working now as one.

The covenant is sealed. The Seals are set. They will rise, one at a time. The first (1st), Jacob's Seal, will arrive on the 26th of December. It will rise in the afternoon of that day and be seen to complete the circle before the dark comes.

In the far reaches of the Divine universe rests the calibrations of the forthcoming times.

These calibrations were set a millennium ago for other voices to be heard at this time. The use of the Christian mythos is symbolic of the necessity of re birthing the truth. The truth set free..... the deep longing of the Being to return to the peace of the place of origin.

The necessitated lie has prevailed long and seen to the enslavement of humanity and as a result the mind focus of the traversing soul is bound by fear.

This is the lesson of the second (2nd) Seal; Forgiveness as it sets the place for FREEDOM.

Within the mythos are many whose stories attempt to define this virtue. They fall short; i.e. Ezra whose was supposed to have been guided by Uriel.

In biblical history, where is the freedom found? It does not exist so you must look outside

those virtues for true freedom solely exists between the Being and Divinity. There is no mediator.

The second Seal sets your soul on course to achieve the third (3rd) Seal that of Freedom, to accept/discover the metaphors of being without fear of destruction.

To traverse farther this freedom must be your chariot Forgiveness is without flaw or fault. In truth there never is a trespass unless the Being chooses to perceive it that way.

It is a Divine act of healing. Call for the Angelic Being, Raphael. He carries the Seal of this virtue because healing does not come without forgiveness and true forgiveness is the mark of true family and it brings with it complete understanding.

Forgive and heal the lies. For now you are seeing with a clear eye. And within your minds eye you are gifted the second naming. It is for honor and it is of a telling time now necessary to come forward.

Be brave and face the wind as in times past and see to the recovery of the virtue of freedom. Your concept is correct, but not finished, Patricia. The physical life is a quest.

Part of finding completion- to remember you have everything you need already inside. It is a learning curve of outer and inner struggles. It is true compatibility to recover innate knowledge.

Finding another whose path joins yours in perfection is perhaps an integral part of the path. For some it is, for others it is unnecessary as their union with the Divine is already completed in its traverse.

Letting go to allow a shared understanding could be a step in letting go of fear, but again not a required step in order to achieve this release. You are a breath of the Divine and as such you are never alone in your quest. Be sure of that.

For now focus on the lineage of the Divine right to ascension. You are asked to know your place in the ordering of the recover of truth. See to this as your first priority and then step forward with the necessary things to ensure its protection and availability for without your understanding of self, you cannot stand as an individual or as a unit to receive and secure the passage home for those coming to your section of earth.

And within the portent of time exists the extended possibility of all that is.

And within this timepiece is where you stand. The land and you as the land are (have become) an extension of this and as such is your marker.

Within this portal is the work at hand; the work you are called, committed and convened to do. As such this is work not of this world, but for this world. **You must remember this!**

You are moving into/onto areas that are uncharted for your physical plane/place. Before in the annals of time there was much deceit and the work failed.

You must now tarry hard to ensure this work is finished. You will have all you need, when you need it, even if it seems not.

This work is necessary to ensure the replenishment of order, perfected order, as a requiem of Divinity. In that the cross over can be complete. Within the stitches of this work is the fine embroidery of the Angelic Light Workers as they focus on this endeavor.

Discover your inner peace and it will sustain your direction. Listen carefully to your individual needs and fulfill their requirements.

The first (1st) Seal (Jacob's Seal) sets the alignment of the covenant.

The step of the second (2nd) Seal (Forgiveness) is "she who came and was not heard." Her step this time is a vibrational hover and in this a truth is told and a story righted. For it through out it all it was she who was kept hidden. It was her essence's role unfulfilled.

This time this Seals anoints and therefore assures that there will be balance. No male, no female; just the harmony that was left undone.

2 times it has been attempted, as a template, to right its self.
2 times it was ill conceived and misused, as such.

This is a quiet, unassuming knowing that descends on the work. It is a balance, a timing and a soft whisper.

It is the True Force of Nature, which provides the place where the lands loves herself and replenishes and brings beauty to the world in a place of peace and a place of inner harmony.

This whisper is the Sound of the voice of the Angelic Miriam, the Mary, as she becomes the completion of the sister, the wife and the mother.

It was never intended to have humanity be either Matriarchal, or Patriarchal. All Light Beings are both in balance, perfect balance.

This has never been accomplished here to fore in your world and before cross over to Aragon is allowed it must come to pass. A balance so finely attuned that the Soul is without gender at the crossing.

Notice, we speak of before the crossing that is carefully defined to be before the passing from this plane to the next.

The understanding must be understood. Be aware of this as it sets the clock of time for the Traversing Soul. A completed balance as it begins the next turn.

The beauty of the land and the natural forces of harmony is the promise of this second Seal as it comes forth, 2nd only (following) to the covenant as it was necessary for the foundation to establish its protocol (and be understood) prior to this arrival.

For with out this balance there can be no work.

This carries the understanding and patience necessary to create the patterns of the true life force. This understanding is deeper than the theory and its cause to ponder. It is the core of the deepest knowing.

It carries the imprint of Divinity and therefore must be carefully, carefully and completely understood, without exception or doubt. This then is the euphoric transcendent, the mystical experience of the true trinity.

Third comes the Voice of God, spoken via this balance. This is the hidden or lost understanding. The Voice of God must be heard only within this balance. This is the decoder. Otherwise it becomes the vehicle of humanity to serve its purpose and not the

truth of Divinity.

This then, the third (3rd) Seal (Freedom) is the combined forces of the 7 Archangels as they work together to provide the perfected balance to the 2nd Seal.

2 becomes 3, becomes 1.

This then is the truth of the Trinity. Within this the nature of woman and man becomes the true covenant and therefore diminishes form, human form.

Until and unless there is this balance there cannot be the Radiant Light that diminishes physical form. Listen here. Be sure you understand this. You can go no farther in the work without this understanding.

2 becomes 3, becomes 1.

Only then can the process continue. It has never before been done to completion. It has only and always regressed to be the one or the other in embattled history.

Endeavor to stretch your mind's eye to understand this. This then is the necessary quickening referenced to before. This then is the vernal focal point and the Solace Key to your inner knowledge.

This then is the discovery that will be your golden awareness and set your Spirit truly free. This balance is imperative to the next Seal.

The cultural DNA removal now underway is because of the inability to understand this balance. They can never realign to the understanding of "all is one." Without this understanding there can be no complete understanding of this the one single Truth of Divinity.

Only within this balance can no fear be achieved for there is no preconceived hierarchy only the Truth Force of Nature, which is the Breath of Divinity.

Recalling that gender is a state of mind, a role-play of passing necessity, a focused time of thought, you may see its role more clearly.

For it is now understood, it is a momentary choice, nothing more.

In the circle you now stand, not 3 women and 1 man, but 4 **Angelic Beings of Light without form and without protocol.**

What can/needs/must come of these combined Seals is the breath of understanding that can begin to cover the Earth from this land portal and realign the understanding of the “true being of humanity.”

Without this inner knowing humanity can go no farther. It will be bound in this plane as it has been.

The complete understanding of this is inherent to the ability to cross on to the next level of departure. This was the basis of the fear that crafted the lie; the grounding of the belief within humanity that the Trinity was unattainable; thus preventing the unity necessary to attain the release of form, which is the prerequisite to the transference.

There is a three-form unity. It is the ultimate understanding of the unity of the two beings, the male and the female held within the one Spirit and then returning to the Divine thus forming the 2 becomes 3, becomes 1.

2 times it has been tired in a venue not ready.

It was tired with the myth of the lawgiver softened by the sister and the Christ softened by the Magdalene.

It was not designed to be achieved, either time, as it was a precursor to this. Now it is done from the side of Spirit in quiet and out of the eye of the human stage. It comes in clean and complete. It is no longer necessary to develop on the human stage. It is no longer depend on acceptance, but it now arrives as a completed thought, nurtured and allowed to spread, like a fragrance across the Earth from the portal.

A “sealed understanding”, complete and balanced that will sit its bearings on those called and capable of understanding. It is a muse, a pattern, a knowing. It is required.

Then the fourth (4th) Seal comes; the one of truth, brought forward in the nature of profound illumination. It is the Seal of Revelation, the understanding of the True Nature of Being.

From that the others can follow.

This then is the clock of time, the timepiece of a removal and a crossing over. See to it and discover the truth of eternal peace.

For now there is great joy amongst those standing to do this work.

The understanding is greater than you can realize at this destined time. You are among the necessary filaments of the design of the finding of the truth of the Divine plan for the recovery of the time before time.

There is a wide, wide range of the yet to be given known and knowable knowledge and the understanding of how it correlates to the prior information shared in the books and writings.

You are standing on the rim of remembering all the knowledge you were given at your departure. This will come to you in the short times ahead. Like the coming travel it will be point-to-point in Nature.

You must continue to stretch your allowable understandings of the possible and probable future in order that/so that the Beings now assisting you in this work can be seen and heard. There is the widest realm of creatures with the knowledge of the universe awaiting your understanding of each and every parcel shared.

The last parcel must be seen to it its entirety and the understanding of this nature must be failsafe. It is required that it be more than intellectually digested. It must bring to your Being the innate recover of this knowledge. It has traveled with you in your mind's eye and now it bears its time to be heard.

Hearing and understanding this wider implication is the reason for the discourse. The understanding of each parcel will establish the continual removal of all shadows from your Beings elemental form.

Once this is accomplished the vibrational change will be a sounding board for those who are searching for the Path Way. They are beginning to depart the footpath at this time. These are the Traversing Souls. See to the realization of their needs at this time, as they will be forth coming in due course.

Find in your heart of hearts the needed recall and then traverse onwards. The information is fast moving and does not give way to time at this juncture.

Take note of the collation of what has been given prior and the informative pieces that now make those parcels understandable to your current reference. Each day will see you understanding more of the ways and knowledge of the land, which you have joined. The gated place holds the Library of Knowledge in holographic form and residue.

Nothing is left to chance at this juncture.

Be aware that the forth coming news will be fast and complete. Rest until tomorrow.

My prayer was to compile my thoughts as best I could to be clearer with my individual understanding of the last writings before I tried to put my personal thoughts to paper. My prayer was directed to the Angelic Realms that governed the 2nd and 3rd Seal.

As you complete your thoughts remember, Patricia:

In the far reaches of the Divine Universe rest the calibrations of the forthcoming times. These calibrations were set a millennium ago for their voices to be heard at this time.

The use of the Christian mythos is symbolic of the necessity of rebirthing the truth.

The “truth” will set free the deep longings of the Beings to return to the peace of the place of its origin: and in doing so will indeed set the Being free.

The “necessitated” lie has prevailed long and seen to the enslavement of humanity and as a result the mind focus of the traveling human soul is bound by fear.

This is the lesson of the second (2nd) Seal (Forgiveness) as it unites with the 3rd Seal (Freedom).

Within the mythos are many whose stories attempt to define this virtue. They fall short. (Ezra as he was guided by Uriel.....)

In Biblical history where is the freedom found? It does not exist, so you must look outside those virtues, for true freedom exists solely between the Being and Divinity. There is no mediator.

The second (2nd) Seal points your Soul to seeking freedom in earnest to relinquish the metaphors of human existence, without the fear of destruction.

To traverse farther this freedom must be your chariot.

Forgiveness then is the silent knowing of the 2nd Seal, for without this virtue you are bound by fear forever. True forgiveness is without flaw or fault. It is a Divine act of healing and found amongst the third (3rd) Seal Archangels, is the Angel of Healing, Raphael.

Under this Seal, Raphael represents this virtue because true healing does not occur without forgiveness, and true forgiveness is the mark of true family and it brings with it complete understanding.

The deepest virtue of forgiveness is self-forgiveness.

For now you are seeing it with a clear eye. Forgive and heal the lies.

The 2nd Seal requires the 3rd to bring balance and then in turn they form the essence of the 1st Seal, the true foundation.

Now within your mind's eye you are gifted the honor of being present in the telling times, now necessary to come forward. Be brave and face the wind as Enoch did in times past and see to the recovery of the virtue of freedom.

Ancient secrets are contained within the knowing and awareness of your family as it convenes to put forth the original "Arch of Knowing."

These "truths" have been kept for this time when they shall be used by you to harmonize **all** esoteric traditions for the benefit of mankind.

"Distilled thought" is understanding, without reasoning, a complete knowing. It exists as vapors of reformed energy; refined at the hand of the Divine for the work of (the)

realms as they move forward towards the Light. It is the methodology of the Angelic Realms.

It removes all the chaos. It is pure intent, without shadow. It is a Consecrated Soul; this then is the land.

Do you understand the inherent risk? To whom much is given; much is required. You are to pick up the **Passion** and acquire the **Joy**.

Truth and love are the same thing. It is the fullness of time.

Your family has the etheric base of a consecration of truth and as such when together you enter into the supernatural power of agreement. Your work will be to unify and guide by recovering the true teachings of the intended “Beings of Light.”

You are where no one can take the responsibility for you. You will recover Salem (Salem is the Hebrew word for peace, the royal city of Melchizedek, traditionally identified with Jerusalem); a place where there is peace as the result of unconditional love.

You must experience for your individual selves that which brings contentment. Never follow blindly.

To bring peace you must first realize and fully understand that no one outside yourself can rule you inwardly, unless you give yourself over to that control. When you understand this and experience it, your freedom is available to you and you are truly free.

Do not strive to be perfect in an ever-changing environment, instead perfect your unconditional love.

The words yet to be revealed are those written within the “Book of Knowledge”. They reveal the knowledge of origins, purpose and the destiny of humankind, including all the mysteries of life.

We have entered the “Twilight of the Gods,” when the final destruction of the old age of understanding will acquiesce to the transcendence into peace, harmony and understanding, fueled by compassion and unconditional love.

And the “times” come forth at the calling of the forces, to stand guard over the portals opened/yet closed.

Your family unit is the resonator, written on the crystals of time, determined to reconvene the unified.

“The Followers of Hope”

“Within the tenets of the stylized lines of illusion, lies the point farthest from reality (man’s created understanding and belief).

Opposite: Within the tenets of the focal point of knowing lives freedom.”

Revelation then is the fourth (4th) Seal. It the one of truth, brought forward in the nature of profound and prophetic illumination, within it, the understanding of the True Nature of Being.

Much has been revealed to you in the recent hours. Much is yet to come.

The Archangel of this Seal is Michael for he carries all knowledge and reveals it in the proper time. Now the Revelation of this Seal is that truth is forthcoming. The Watchers of the Quatrains of Clarification are the workers for this Seal.

You will be given the “truth” of The Way that has been promised to you. You have crossed the divide to understand and honor its tenets. Therefore this then is the virtue of this Seal of the Covenant and Circle.

The expected time draws neigh. Once north you will hear her voice as they sit together to bring the next Seal, that of devotion to the creation of the Tenet of Truth.

This Angel is Mary, herself. (Not an emissary)

She sees to the talk within her Region of Beings. They are without hesitation. They are devoted to the recovery of that long lost. (The Way; the entrance to the Path Way to the origin of all that is.)

This then is the timing.

Be in place before the turning of the tide.

Be in unison before November ends.

Be in harmony and hear the still small voice as she tells her story.

Sacrifice is finished. Restoration is the work at hand. The outer Angels are at work. In 36 months the revelation will begin to be made available to the wider world. (September of 2010) Be prepared!!!

Religious Relic refers to unnecessary artifacts of deceit about to be exposed to the Light.

Be prepared to write the story Patrícia. Be aware you have given your word. You are given all you need to accomplish this work. See to its devotion!

**Turning of the tide: The 'turning of the tide' is literally the change of the tide from incoming to outgoing, or vice-versa. Normally the phrase is used to denote some change from a previously stable course of events.*

You have come to us with your heart in your hands, Patrícia.

So now Little One, Lady of the house of Shalom; the covenant has been given and the perfection granted.

It will stand to serve you as promised for the epoch from this our conjoined time until the greater covenant is approached (June 22, 2010 at 2:00p.m.).

Your Soul will come yet again at that time to stand collectively in communion with the 12th Angel and the Divine to reconvene the necessary understandings of the wider agreement essential to complete this work.

Your depth of understanding and your heart has been found to hold 'pure light'. Therefore this epoch and the dispensation of tribunals is ordained and granted unto you for these 1,000 days.

Hence, Patrícia your gifted Grace is to be awake and at one with your Spirit on both sides of the veil as it enacts its given opus at the orchestration of the Divine.

You, may not speak of the Divine reason confined to this supplication now conveyed; or of the understanding imparted to you regarding this binding at this time. It is sealed

forever between your Soul and the Divine. All that can be shared from your personal knowledge concerning this sealed union is within this written record regarding your Soul's oath, the authentication of which is known between your Spirit and Divinity.

Any other knowledge of this will be shared when ordained directly by the Angels assigned to those deemed necessary to hold any news of this pact.

Now see to the things that must come and be at ease in your strength and understanding. Never glance back. Those who commune with your Light will know without asking and others not of your reflection will never comprehend.

So now we have redeemed the fifth (5th) Seal that must follow the last one. Grace.

The Seal provides true freedom anointed from Grace.

The Seal was redeemed by securing the 1,000 days Epoch of Grace. Without the true freedom defined by Grace, you cannot fathom the discovery of the tidings held within the Seal of Revelation, those now known to you and those yet to come.

These revelations are the innate understandings awakened to ensure the unfolding of the new/yet old cosmology in order that it may recover all that was intended to be made known in its proper time.

Now following the Revelations there must be Grace to understand and provide the fertile time to nurture and encompass the Revelations as they unfold.

Knowledge without understanding can never become wisdom and wisdom without Grace can never be maintained and realized.

You have met this task and received the anointed time. Use it well.

For the understandings given will be the primer for later days after the Epoch of Grace to reconvene the next turning of the universal clock and calibrate the 2nd of the agreed to Epochs that is forth coming after the 1,000 days.

There exists within the secured Grace the gestation time for the passing of the understanding and revelations of the times of earlier communion; that of the facts and

content of the forth coming disclosure of “The Other Jerusalem.”

Without the Seal of Grace no more knowledge of those errors could be shared. It was not another's role Patrícia, but your last remnant of earthly cloth to be shorn before the union. Now that has been established this Seals has come forth to be set.

Aspects of the work will funnel into place. Knowledge can be passed within a tribunal portal that prevents recession. The format has now recovered its pattern and the access is faster, easier and clearer. We are but here for your station alone.

The anointing of the Mark of True Freedom sets the folium, the geometric procedure points, for the Seal of Grace. The Seal of Grace sets the tonal key required for transference. Without it the crossing would have had no mapping for the Navigator to follow.

In three days time you will have completed this calling. The virtues of peace are now within your reach. The following Seals will be given after these first Cardinal ones have completed their 1st cycle of turning.

All is as it must be. Find that you hold only unto those teachings revealed to you from this journey.

The eventual patterns will develop into the MAP home.

And in the watchtowers of the stars near and far exists the knowledge of the Sounds of the names of God. In these Sounds exists the portal of the point-to-point patterns yet to be redefined.

The cadence of these stories exist within the telling of the word in the yet to come portals of your understanding of the time at hand. In this you are asked to see to the walk of the times in front and yet to come.

There's much of this that can be said to be the voice of God. In this there is the time and the place yet to be named and brought to the front of the way of being.

For now be at peace and know you are within your destiny and have heard with a good

heart. The hearing of the others will be left to their own devices. Pray your prayers and walk your walk. Do not attempt to regress.

For this time and this place has been set within the hands of Divinity and that of the Souls of Light as they assist in the partings of the way so that/in order that the time can be precise in its turning.

See now to the closing of the gate even as the portal is open only in this time to those of the family. The gate will be as it is and as it shall be in all times the point-to-point lector.

Be at peace Patrícia and see to the tasks in your care.

Between the pulsing beat of the developing practices of the human soul lies the force of Divinity.

Within the hidden façade of the never-ending stories of a lie, exists the natal union of the dimension of the nexus point of God.

In neutral territory exists the combined forces of as above so below, the one truth in a universe of folly. Found to be non-existent are the crafted tales of the then before the now (the current now).

Rest assured that these platitudes are coming to a close and the currant way of being ending.

Listen carefully to the “cadence of truth”, Patrícia. Your heart bears true. Nothing or no one must be allowed to divert your true course. The fine lines and filament follicles are the road maps of your deepest knowing.

That deepest knowing is always to be your true north, Patrícia.

The story reconvenes in 6 days hence. See to it that you hear the callings.

The Sound tone has been activated in the far-est reaches of the Realms of the Kings of Light and it travels to your heart alone Patrícia. It will resonate between your heartbeats, until such time as it is destined to be heard by the Souls it calls home.

The key lies in the alignment of the things yet to come. They are in the recesses of your mind's eye waiting.

Timing is the calling card of your Soul's saving Grace.

*The **Oracle** that comes woven within the Light of the three Beings requires the resonated tone of the Sound coming to reside in between the beating of your heart. It is the activation code of the markers they left in place there and its vectors are in place and waiting for the three to return at the required timing to offer the knowing to the Navigator.*

The next Seal comes into Light in 5 days time. The Seal marks the opus of the lineage of the Divine.

Standing between the worlds Patricia, nothing hides from your gaze. You stand on the edge of revelation and you traverse the etheric to call forth the breath that recovers that which was hidden long, long ago.

Stand your place now as then and hold to the one truth and prepare to speak its understanding.

You have recently returned from the inner planes of knowing. Your only physical link was the marker of your space held open by the residue you might call "tracker patterns".

When you are sent to the inner planes for periods of time longer than your sleep cycle it is to place firmly in your memory banks the work at hand. This exodus is your link to the language necessary to continue.

Surround yourself with those who understand this necessity and be at one with your task.

Now to return to the ordering of things.

*The sixth (6 th) Seal is that of **Interpretive Resonance**. It carries within its turning nexus the over all sequences of Knowledge as it defers to Wisdom.*

Without Interpretive Resonance, Knowledge is useless. The Beings of the Lords of Light

under Gabriel carry this Seal and are prepared to stand its valor and its vigilance.

Therefore, at this time be aware your movements to date are definable and correct and as such are in line with all that must be done and accomplished for this task at hand.

It is a 6-pointed task. Its course must be met with honor and grace. This Seal begins the ultimate portion of the work forth coming.

The book begins again in 5 days.

He comes. He comes in the 3rd week. Be prepared. See to the travel times. Your task is to stay focused and stay aware. Be prepared.

Much comes quickly. Much is needed. Much is given. Reconsider the nomenclature of effective Sound maintenance and begin your journey accordingly. Focus on the merit of the surrounding tapestry as it weaves itself to completion.

Be aware of the turning tides, before the months end the tide changes. Do not be fretful, this tide runs true to its destined course.

Again stay focused. Your willingness to serve is your greatest ally. Others do penance, you on the other hand do virtue of place. Be completely aware.

Now begin your time and your destined work. Be (a) perfect peace.

And now the time comes fast and now the time is here.

From this place where you stand there is no turning back. The wind blows and lifts you skyward. Do not look back. And NEVER look down. You are on the destined path. Lift your feet and move on.

Those destined to come on this journey are already there; those not destined can never be. Your worry is unfounded.

Seek the night sky and look to the stars to hold the patterns necessary for this time. We have always been and will forever be guiding you to the place of your origin.

The new line that comes in three days time will unlock the ties that bind and re connect the patterns of those whose hearts stand together (necessarily) in this time.

As in all tribunal gatherings there are breaks and then reconnections that are more defined, more complete, better able to survive the tidal changes. As those standing are scanned any and all things not necessary must by virtue be shed. In this shedding the new order can be brought to bear in the way of Spirit and in the time of Spirit.

You are standing in the nexus of the times to come, Little One. Walk on with out hesitation and seek only those things that bode well in your truest of hearts. For it is only in this place you can determine the vectors and the map changes necessary to get all of you home.

The control panel only works when you relinquish control. Remember that!!!

Be advised that all is seen to and over looked at this time with great care. Nothing is left to chance at this moment in your flight. Be aware also that you carry the heartbeat of all the original essences at this critical time in your task.

Be still and listen to the night sky and follow your heart home and in doing so assure the continuation of our "kindred spirits". Fret not about closures for they are all destined at this moment and will re open in three days time to a new song, a song of coming together and a song of dreams and hopes.

The true quiet of your heart, your true heart is the key at this time. Go inside it and breath the air of rebirth. Stand your place and those destined to stand with you will follow their individual hearts to the place of the gathering.

Navigation is a thing of inner reflection entirely and each must travel to the point of departure inside their individual hearts. Trust in this. Remember the song unsung is the song not finished and this one comes soon to be heard.

And for now there is a great, great need that you focus on the things that daily are necessary, in this time and place. The time has been appointed to redefine the methodology necessary at this juncture to stylize the portals of the removal of time.

So now you are beginning to understand the necessity of this most recent Seal (Interpretative Resonance).

The triune of the lectern is beginning to set its course to your due north. The lessons provided for the four of you have set your scenario to culminate into one well-defined agenda, that of the coming to bear of truth. It is the sort of truth hidden in legend and lore, the tidbits of the true structural patterns of the natural host of renewal.

As a faculty of preconceived educators you hold the ultimate definitive knowledge and the source for its being redefined into the wisdom key.

So now in this time set your eyes to the story as it begins again in due time. The true meaning of this will shake the prism of time.

In its altered state it prohibits the understanding of the nature of life. Once removed it will begin to have the necessary attributes of the fine tuned aspects of the six -point task awaiting your duty.

For now in this place lies the folium of the breaking of the time and space continuum that has so long invaded and held failsafe the lie of the human illusion and bears the merit of darkness.

It now has been given the full verification to have that shattered and removed. That timepiece is the illusion that held the lie and it will be forever removed from those with eyes to see and ears to hear. Remember this for there is nothing more vital to the existence of the once and forever than this.

As in times past you are asked to stand to receive the flow of the Divine Mind.

At this time there is much yet to come to know. In this treatise the defining moment has arrived. It has come to sit at the table of Grace and it bodes well with Divinity/ the Divine.

Portals are preparing to open with in the next 38 days that bring the ultimate wisdom to hear/here.

December 15th marks the entrance. All must be ready to receive at that time. It is a portal that will never come again. For 6 days the elemental universe will open its vaults to

provide access and retrieval.

*Be aware of this nexus for it will redeem for you all that has been hither to lost or unattainable. This timing then marks 60 days of reprisal and 33 days of rapture. From that time forward all vital markers **MUST be in** place and ready to serve.*

For now, trust that your promises have been kept, thus far, and you are the hand child of Divinity. By spring stand up and claim your roster. The names are waiting.

This Seal is the seventh (7th) Seal of Conversion connecting the hidden to the known and the known to revelation. The hands of Michael and Ariel hold this Seal waiting for your crossings.

Listen with your heart to the sound of the trumpets as they call the names. The names you will know. Hide this in your heart. Create your vision and bear the truth banner, for now is the time and the place.

Addendum: we looked up the dates this morning and this is how they line up:

38 days is the night of the 14th of December and 6 days is the night of the 20th which is the night before the winter solstice and the full moon.

60 days later is the night of 18th of Feb. with full moon commencing and a full Luna eclipse set for February 21st. During this time on 7th of Feb. there is a solar eclipse as well.

33 days later is the night of 22nd March, the solstice is night of 21st March.

20th of Dec begins the solstice and at the end of this timing the solstice closes the timing out.

Annular solar eclipse on February 7, 2008 The moon will pass in front of the sun not quite close enough to cover the sun completely.

Total lunar eclipse on February 21, 2008 The moon will pass entirely within the darkest part of the earth's shadow for 51 minutes.

Day of Infinity

And in 10 days time the change will come. Find for yourself that place of nourishment and knowing, for after this time each of you will know the meaning of what has been asked of you.

There will come in this time the vernal coming together of the triune of becoming that directs the work at hand. You will be known for where you are standing in your Soul at this time.

Now you might be offended perhaps, no matter, it is as it is. This is the beginning of the change of the tonal key that calls to bear the coming of the new and different way and the opening of the way home for those with eyes to see and ears to hear.

Find that place where you stand Patrícia and know that it is this place from where you step off and it dedicates the form you will step into. It can be no other way.

Having chosen to undertake this task before you, each of you have begun a reflection of the past and the elements that have put you to this place at this most ominous point of your Souls evolutionary path.

You carry with you all the necessary talents to uncover and develop the partitions of the panels that provide the construction of this part of the journey, having said that, it is entirely up to the individual as to take this open door and move within the circle to accomplish the work at hand.

But be clear on this point, Patrícia, if any of you chose to step down, it relinquishes their point in the pattern you each have agreed to finish.

Be aware of what is left behind as it must be picked up and carried to the finish. There can be no lingering residue to provide a link for those seeking to find the work.

*You are all stronger than you have ever been in this lineage. Your promises have been forthwith and carried to the end of every path. You are standing now at the **thread** (hold) of the firing sequence and the primer is set to complete in 10 days time. At that moment the dye is cast and any lingering doubts in anyone of the circle will be forever forged and there will be no recovery from this position.*

So now it is time to reflect and be ready to stand in that portal.

What is necessary to secure this task you are on will be done by that day, or will be lost. In no way will you suffer for the choices that are made.

11 days from December 12, 2007, the 23rd, will from this time forward come to be called, the Day of Infinity, as it will roll-right eternity.

The point-to-point task will incur its self into your earthly plane beginning on the 12th of December and work its initial tasks to set the traverse pattern for those days until the

23rd and from that time the pattern is in place and will require your full attention as the time rolls into spring and the phases of March 22nd, 2008.

You are setting the measures and format required to mark, yet hide the right of welcome.

You are set to be provided for and seen to and as such are the workers of Light as you are ask to no longer linger in the light of day on your human track across the etheric formation of the Divine.

*You **MUST** forever and always look to the definitions of Spirit and not of the world where you are but a mere ghost in human form.*

Your particular covenant is set to permeate and be transformed as you pick up the pieces of the lie to cleanse the Sound of the truth as it traverses the worlds of Light and sets the open way to the 2nd planet of Aragon as in that you are destined to endure. That will come to pass, regardless of the players who gather.

The “roll-right” pattern has been heliographed across the Divine worlds of Grace and as such it is set to take its reflection in 10 days time. It is the forth-coming days that will measure and mark the aptitude of the “reflecting prism light” that will be found to be in eternal refection on the Day of Infinity.

See to the things that have been gifted to your Soul regarding the stories to be presented at the proper time and place. It is timing you are waiting on Patricia, nothing more. We will call them forth at the proper time and place.

Hear within your heart song that which is needed to recall the fraction of the prism that is set to strike the truth stone on the day of the Dove. It is your task to prepare this work and have it ready on that day.

You cannot be late.....Walk in Grace and love will follow and in this Light there is as always, the hand of the Divine.

Coptic Residual

Resident Thread

And in the annals of time now is the Divine Moment of Cosmic Intent.

This is the cubical of time poised to enact the tubule changes that shall form the partitions of time immortal before its reversal and ultimate removal from the memory banks of those destined to hear and comprehend this Coptic revival/retrieval of the resident thread of the weave of the Tapestry of Creation.

Forth coming are the times of an Epic not yet known in the Earth times. It is of such a nature as to incorporate (the) ultimate revival of Divine Mind as it traverses the Cosmos, destined for arrival in your elemental plane.

Its arrival has been anticipated for a millennium and its intervention unprecedented. Forming now the patterns necessary to inter weave its arrival, it needs be anticipated as the 2nd coming of what was left undone.

At all costs it must be embraced as the elemental element of the creation of a formative venue, destined to endure and become the incorporated genesis of your task driven work.

Its arrival has a focal point of forming a residual thread, of which you four and the possible/probable inclusion of the tether (a separate, yet interregal vital role) are the weaver's tools for the ultimate work, hither-to-fore known as the Inception.

You are the Keepers of the Stone of Truth and now as it has been activated it incurs that it be protected by virtue of place. It is held in place by the force-de-cubist of one of the elements esteemed within your four. The tether is the life cord to the cubic form necessary for a period longer as the work here continues.

Needs be at this juncture a stronger link to hold the energetic patterns of the "four workers of Light" to the holographic work at hand.

This then is the "tour de-gravis" until and unless given a specific clearance, the land now requires that one of the four be connected via physical properties. The area is not to be left without one of the four present for more than a 24 hour period (until such time as the tether arrives) then and only then can the exception be granted.

The changing of the guard shall exist. The clergy has been appointed. The arrival

insured. There will come a time in the future when the wider world shall provide a “care taker”, but that time is not now!

You are the cardinal points set to hold and maintain the energy necessary to establish and continue the **Tonal Key** required to open and repose, the doorway. You are given this work at your understanding of its import. See now to its completion, with said completion being the true and only focus of your spatial concept.

Listen carefully to the subtlest of changes as they form the platform of renewal and revival.

You are the seeds planted long ago that now bear fruit. The garden must be seen to, cared for and protected for the return of the *Cosmic Gnostic Word* to appear and take true form. Trust your needs are our concern. Move accordingly....**with intent**.

The work now rests in the Clan of your Star Family. (The Clan of the once and future Star Chamber----the circle of stone, the arrival point of the forth coming Gnosis truth.)...in the *Somerset...

(*FROM CHAPTER FOUR
THE OTHER JERUSALEM
BY EPAS

THE AREA OF THE EARTH THAT CAME TO BE CALLED ENGLAND REALLY BEGAN AS DID MUCH OF THE EARTH'S SURFACE, A TOTALLY DIFFERENT LAND MASS. THIS PLACE PROVIDED A CENTRAL BASE, WHICH SERVED THE WORK OF THE CREATION AND SO IT REMAINED FOR MOST OF THE TIME SPENT IN CREATING THE PATHS ON THIS PLANET.

IT WAS TO THIS PLACE THE ESSENCES RETURNED, TIME AND AGAIN TO RE-LINK WITH THE ORIGINAL WORK TASK. IT WAS DESIGNED TO BE A PORTAL FROM WHICH TO COME AND GO AND THE BEINGS MOVED THERE AS A FINE MIST THAT LINGERED ACROSS THE LANDSCAPE.

IT IS THIS LAND WHOSE TASK WOULD HOLD THE MEMORY TO BE THE LUMINARY FOR THE OTHER TOWERS REMAINING NEAR THE END.

See to your individual and your combined task. Function as the kinetic energy pattern you have become and float free of the debris of bonded thought to recover that still point of your existence where unbound thought is your birthright.

So now sets the canter of what (that which) comes to bear in this opportune time of your destiny and fate. Your heart line has crossed your fate line and in this there's great, great power, Patricia.

So now to the journey forth coming; it is to be the measure, the setting to your true north. The one sent away has chosen to return. See to its course.

Now to the four: Be prepared to find your selves less and less on the realm of the physical plane and more and more on the side of weaving to and fro. The design is set, the dye cast, the way comes.

Now the land has set its variance to the degree of rapture. It floats free no more.

You are the hinges of the removal panels of dyne time expansion. It is now recovering its telemetry and starting to unravel. Having said this; come to understand the chaos will follow. It is its time to do so.

The land will repel any source of distress or chaos from its boundaries. The balance is in completion and as such will be the point of return, for there is a great fortress within its underbelly.

So for now in this time there is the preparation for great/great solitude and as well great/great change. It is a change of necessity, not solitude.

The time comes forward when there is the need for tremendous virtue via valor and platitude. The Holiness is looming, bringing with it the essence of renewed movement set to the rim of communal tidings.

There is a wind coming. It is a wind of necessity and a wind of needful comfort in a time of great chaos.

*You **MUST/NEED** begin to traverse **farther/ faster** and you **MUST/ NEED** have a destined tether. There comes the time and quickly when the virtue will not be enough to hold you fail-safe.*

*Listen hear us. **TRUST!** Be aware you **MUST** complete this union.*

You are called to stand and remove your cloak—and raise your hands to call forth the barge/ship/boat. You must choose and tether soon or you cannot make the trip forthcoming required of you.

Traverse the tidings and take your stand quickly. Move, Move, Move. Stand, Stand, Stand.

For an eternity waits, an eternity you have waited. Begin now to know what you are called on to do and embrace that fate. Be aware. Be prepared. Be accessible to the freedom road.

The four posted venue a waits. See to its foreclosure and its rapture. For now in this time and in this place there is the cause for the greatest of all rejoicing as it begins its tract across the earthen planes of renewal.

For fostered in this time is the greatest of all power. This then is what has been saved for the times that arrive. This is the sword of the arc of the covenant that has arisen and takes its place as it comes to focus on the living of the planet you call home.

*You are but the spark of the vital force of life as you encompass the turning and spinning accelerated Divine force of true will. Within this place there is/exists the greatest of all balance and power. **You can, you are, and you do.***

Be aware of your inner strength sequences and save your timing for that greatest of all sequences that “roll-right” as the future comes into true focus and play as it turns its path to the smile of/from the Gods of Divinity on the life force of those called to serve the patterns of Divinity.

For now in this place there is greatness of craft. And in this craft there is extreme power and Light for as you are so you shall be now favored as you are the geomantic pattern of the roll-right ascension of the Divine Force of power and Light, as it comes to bear in the structure of time.

So shall this be as the template of the Gods comes to bear in the patterns of the smiles of the faces of God as it sets its pen-stroke on the force of heredity.

From this time there is the greatest of all fortitude and courage and in this there is the

strength of the Divine and it brings to bear the truth of the forces of Light and in this there can only be truth given.

And then this is the key to bring the eighth (8th) Seal, that of Revolution and Revolution sets the primer for the structure of the cadence/ quatrain of the new worlds of formed Light as it relates to the transfer of the patterns of the here to fore nomenclature called, Life.

And in the main stream of the events you refer to as “life” resides the transfer of the opening patterns of the reconstruction of the events you are currently bringing to a foreclosure.

It is in this venue that we begin this discussion of the nature and the rhythm of the protocols of the upper lever revolution of the patterns of the venue yet to be named. That venue is the ultimate in the revision of the operating rules, which are now coming to disclosure.

It has been deemed a time for the depressurizations of the inevitable future of the once and future inhabitants of the world you call home. In this event there will be the removal of app. 2/3 of the assumed life forces that circulate in your current pre-awareness levels as they bring to a close the events of the pre-determined evolution of mankind.

For in the minds eye resides the necessary filaments of construction required to determine the next and final course of events as it focuses on the geomantic pattern now beginning to crystallize within your heart, Patricia.

This stylized pattern will serve as the genesis of the forthcoming venue and the template of the Gods as they assign into being the necessary steps to evolve on to the 2nd planet. There is great reason to celebrate as this pattern begins to take hold and flourish in the minds of those with ears to hear and eyes to see. Only then can the keys to the library begin to be distributed to those Souls promised the opportunity to establish for themselves a crossing.

It will be soon that you must begin to take this travel and set for them the markers of ascension, as it will be the lamplights to their path. The book has been completely gifted to you. Memory will follow shortly and you will find it complete. You are there living this event, Patricia.

It is the only way for you to recover without error the events as they traverse across the history. Time is meaningless and it can be recorded in your mind in an instant, but you are there in that time and place lingering to capture the effects and the language necessary for you to transcribe this most important story without error.

Realize that you will do this perfectly. Trust in that. The resurrection depends fully on it. That is the last seal to be posted. It will follow those yet to be named to you and they will be set in place the day the staff goes aground and that is the 23 of December, 2007. See to that. Be in your places and be prepared and follow your heart that day Patrícia. For your heart is the beating of the force of the pattern of the reconstruction of Infinity.

This was what I had been watching for .It was the reason for my hesitance. What they had given me to be mindful of. It had to do with the timing and the aerometry necessary for the transference of the geometric patterns required for the crossing. Those things had to be in perfect sync for the exchange to be made successfully. Only the Angel Michael and the one called Ariel had the permission to define the necessary maneuvers and they were the ones hiding the work. To anyone else it seemed only a drama. I was not allowed to discuss it in any way until it was completed.

For within this passing is the reminder of the known and knowable. Fashioned as it has been, revived, as it shall be.

Forever has arrived and in 12 days time will rise. (11th of December) Your voice is the Sounding board to be used to call forth this changing of the guard. For on the 12 of December a new world forms. You are the allotted keepers (care takers, the Keepers of the Keys.

You have stood. You will stand. You are standing in the current realm and you have uncovered, processed, and understood that your etheric double Soul has moved into this realm and you have taken his place on the other side; in the other realm.

*Now understand this, there has been the initial union on the side of Spirit. It was this you waited on, Patrícia. It was your verification. In your wisdom you waited as was decreed. Thus was it said that you **MUST** trust your inner heart.*

Now knowing this ether world transfer is completed you understand the vision and in it you stand as one Soul, entwined, EROS and EPAS.

He now travels to stand within the tether and as such has the capacity to hold the connection you have held for him in your time. It has been done. It has been invoked. It is completed.

Now you wear the knowledge of the truth of forever. See to its disclosure in the proper time and place.

So this then is the fine line used to demarcate the boundaries between the known and knowable.

For in this vexation of the purpose of life there resides the residence of creation as it applies to the recovery of eternity.

In this there is no quarter. You four (4) are the determining factor. The factor/factors. You are crossing the known to the knowable and the knowable to the acquisition of the recoverable applied wisdom. This nutriment of the Soul's force de grace is the qualifying line of conclusion.

Hear now the silence as it prepares for the forthcoming times. The 6 days of infused knowledge comes but once. It shapes the consciousness you will leave behind as it recalibrates your Souls to the appointed destination.

The land is the recorder device that will gift this knowledge. 6 days of dedicated information. You must open the gate late the night before. (December 11) Stand to face the mountain and call forth your Soul's balance so that/in order that all can/will be revealed to those there.

The Sound resonator, your voice, needs/must open this doorway so that each of you can receive the knowledge forth coming.

Be prepared. Be aligned. For Mary she arrives on the dawn of the 12th of December and she walks the land until February 14th when she relinquishes her place to the Magdalene. This Magdalene Mary stays though March 23rd then their combined energy hosts the opening of the redemption of those Souls carrying the essence of the Star Lit Lantern.

For this you must know and for this you must be fully aware. The circle will craft the flow of this well versed, well-gifted inner knowing, where in shall be the wisdom to design the patterns home.

For now you are standing on the very edge. The edge of the essence of redemption, for the lie will be no more. Time begins to turn faster, faster, and faster as you seek to understand what you know to be true.

The clock starts December 12th at dawn. Be available. Be aware. Be fortuitous as this is your fore told destiny.

*****8

Reckoning Day travels forward.

The ninth (9th) Seal of **Persuasion** sits next in order. It is the Persuasion of the State of Grace to enfold the embodiment of Divinity and wrap within its cloak the true and the eternal descendants of the Divine.

The essential prototypes of the pursuant rectification of forever, assembled at this time to assist and therefore proclaim the toning of the Resonate Soul of the names of Divinity; which in 12 days time sets the Souls of the Workers of Light on the Path Way home.

For with in this journey are found all the learning curves of necessity.

These lessons are the foundation of the passage to the next planet and with that that passage, the appointment of future worlds yet to be formed.

*Stepping stones for the **Souls of Infinity**, as they earn their wings to carry them home to the tribunal fortitudes of their Souls highest platform; that of completion and inner communication.*

Now hear this as your timing table. The residue will linger and encompass all each of you touch; leaving behind the essential essence of Awakened Grace.

Your ole Dragon, Patrícia, guards you well. His heart beats only with yours. His talent does not go unnoticed. He sits in your aura and is guided by the Light of the Knights of ole. This animal has been your connection to the old ways. His step is sure and his

courage noted. He lingers but a time longer. Hold him close.

Now to the Right of Passage forth coming.

Each of you in your own inner hearts must make the choices that lead you to the platform of renewal. You are given all the necessary information to make those choices. Some you will understand others you might not.

The answer to your ponderings, for each of you is to follow your inner heart. That NEVER leads you off track because it is your true connection to the breath of Divinity.

For a millennium now you have held to the knowing of this time. So now in this time and in this place you are gifted all the things necessary to make this work complete. You do however have to understand and in the understanding have the knowing it will survive and your task will endure.

Now at this juncture you are beginning to recognize the nature of understanding. The nature, once understood can lead you to the Forces of Light via the Path of Knowledge and only with the understanding comes the wisdom. And knowledge without wisdom is useless.

Prepare to know the rudimental tenants of creation, as they are the beginning of the teachings coming your way as the 6 days approach with haste. See to you places. Be at ease and move as the inner Light you carry. It hides no more, each having its own color and its own pattern. Be advised of this.

And to the ole man, he begins to bear the sign. The signal is his to seek. The firelighter will prevail. In this be sure.

And in the annals of constructed time you await the remains of the Fisher King as that pattern begins to complete the arc for removal.

You are waiting for timing, nothing more.

Look to the heavens on the nights already posted and as vassals, your family must be in their proper places and in their holdings must be the talons of the Gods of Infinity.

You walk among the ashes of your burned out star. You gather the remains of the essential bringers of Light gone before you at this most portent of times. Least none of you make an error. It is decreed that you stand with your chosen venue and place your allegiance to the Divine for therein rest the portals you require to finish this most important of work.

All stands perched at the rim. Ready waiting. You need/must be in your appointed place as the appointed times come forward. See to it individually that you listen very -very carefully to your inner heart at this time and make so the request of your hearts desire.

So today the ears were closed. The path now must alter. Its first blush is differential at its delegation level. The unease you felt was this breach.

You need/must realize each must come to the table in their truest Soul. Your eyes see clear. Your heart knows the cadence. Your eyes lift to true home.

The council knows what you have given up Patricia to do this work. The 12 Angel Bands attest to your tested Soul. You are now asked to carry the loss with fortitude. The loss is not felt aboard because the full implication of knowing was unheard.

Where you stand you are alone. Where you travel you go truly alone. The watchtower keeps you in their vision. You must remember others can only see so far, then the humanness clouds the view and fear fills the heart.

For you choose no quarter. Now you are apart and traveling forward. The teachings come to bear the 11th before/near midnight. Be alert. Stand and call your heart home.

Mary seeks the circle on the 12th. The 6 days begin and the knowledge will/shall be passed to the vessels standing to receive.

There is great sadness at the loss. It remains to be determined if they will come again.

Remember you see the then to the now, the now to the Infinity. For some it seems patchwork only. There is much left to prepare. The division is complete. You are given permission to speak about what your heart holds.

Fix your gaze on the work ahead, not the tear or the repair. It is not yours to do. See

your way clearly to understand the shift.

Call down the Beings necessary to remove the breach; then move on. You have done all you can. You see a different vision. In time you will come to understand the fear that forced the crack.

For you it bears no sword, but for others it wields a powerful blow. Stand and be at the gate at the time of calling your inner Soul, for this is the one true vessel of your given task.

And now for what sits into your mind.

And the time comes nigh, and the time is here. The way of the crossing sits near. The 11th midnight begins the open doors; the 12th begins the carefully laid teachings; the midday of the 23rd you will have crossed.

Approach these times with great respect and in complete humbleness. Your values have been granted. Your travel voucher is prepaid. Be advised, the 23rd marks the time line.

Your cords are in synch. Your fates joined. The entrance is completed. Your first crescent is done. Your sacred fire has now been lit. Be prepared as the teachings are very important (all important) as the features of the landscape take to form.

You must linger no longer. You are within the fine lines of creation and as such are the designated persona for the returning Soul's saving grace.

See to the Knowing of Forever. It comes at your transference. Pay close attention to the details and seek your next sorting in 3 days time. Treasure your remaining time for it will never be the same again. Not for you nor any of the family as they as well begin their individual journeys and the collective adventure begins.

Be yourself. Be at ease and find the peace you have given homage to.

And in the solitude of the nights gone by/pass there is great-great solstice. For in these

times there can only be resolve. And in this constituted resolve there is the right of passage to the ether side of Light.

There now has come the point in this venue where all the established star decimals must come into the perfect triangle of harmony. What is the issue in this most opportune moment is that these are realigning to attest to their most radiant points. And in this search for the highest good of their most attuned Soul it takes the most delicate of fine-tuning and that is where it sits in this instant.

Here rest the ultimate reasoning of the human being as it seeks to relinquish the thought patterns that form the nexus of the Soul's ability to cross over to the side of the Divine. You have within your reach the ability to release the variables that structure this inhibition put in place by the lesser gods as the underpin of the destruction.

Patricia now see to the outer things that survey your realm and then turn and go inside never to look at them again; for in the work you have gone to embrace, the outer things hold no virtue and in that you and the family as well must now look only to the other side for the comprehension of the things that are to come.

So in your wider visions allow for the venue of the coming change, a change in direction, nothing more. It is a fissure of renewal, a pontiff of foreclosure.

Now that the ever lasting has been proven a lie, the forever can begin to step forward and embrace the tidings of tomorrow.

You must call to her Patricia and from the octave of the 1st Sound when she arrives. Stand and face the mountain and call for the Soul's saving grace. The mist will cover the scene. The night will call the Spirit of the unseen to be seen, the known to the knowable. It calls the retribution to the rekindled fire.

Stand your ground no matter the scenes. Call for her Grace to stand center and each of you will know in an instant that she calls/bids you welcome. Her crown is a dia-s of stars, her voice an Angel's Band. The tenth (10 th) Seal is her radiance, as it is the Seal of Divine Light. See to its care.

Be patient. Be ever watchful. Be ever aware of the times yet to come for they are the

point-to-point trajectory of the pinpoint vector home.

Now the three decide. Tomorrow you know if they come. Call everything to your aid and be up held.

And this then is the eleventh (11th) Seal. It is that of **Rectified Cadence**.

As it is now and so shall it ever be from this time forward, there is the redefinition of the called cadence necessary to set all the other Seals and then in the last turn of the hand brings **Resurrection** as the twelfth (12th) Seal.

There is a new definition. Here are the reallocated steps necessary to put right the angle of ascension. The dates remain the same unless otherwise talked about here. The Staff must now remain above ground until called for the second time.

That time shall be on or near the 23rd of March. She now is needed above to see to/ assist in the things out of your physical control. The vibrational patterns within the ground there must re-calibrate and be toned to the perfect balance to receive her entrance and her hiatus at the newly appointed time.

The harmony resets within the allotted time span. The cadence will renew and be reconfirmed within the allotted time sequence. As above so below.

There is once again great rejoicing in the etheric realms as this reconvenes with the Angelic Seals of the Divine set to descend quickly.

Trust in that. The resurrection depends fully on it. That is the last seal to be posted. IT will follow those yet to be named to you and they will be set in place the day the staff goes aground. See to that. Be in your places and be prepared and follow your heart that day. For your heart is the beating of the force of the pattern of the reconstruction of Infinity.

11 Seals are yet to be named. They will be made known over time.

Covenant of the Seals

Seals:

1. **Jacob's Seal**
2. **Forgiveness**

3. Freedom
4. Revelation
5. Grace
6. Interpretative Resonance
7. Conversion
8. Revolution
9. Persuasion
10. Divine Light
11. Purification...
12. Resurrection

Day of the Dove December 23, 2007

It is the forth- coming days that will measure and mark the aptitude of the “reflecting prism light“ that will be found to be in eternal refraction on the Day of Infinity.

Hear within your heart song that which is needed to recall the fraction of the prism that is set to strike the truth stone on the day of the Dove. It is your task to prepare this work and have it ready on that day. You cannot be late. Walk in Grace and love will follow and in this Light there is as always, the hand of the Divine.

You are in this time as you must be. Now that there is the re-convergence of the harmony as of noon you may proceed without disruption. See to its completion.

For in all things there needs be/ is called for, balance. You are in these days in need of a quiet place to hear.

In your individual ways each must approach the silence and turn a listening hear to the informational knowledge that turns to wisdom available over these next days. 6 days including today the storehouse is opened to the four who have stood and asked to be counted.

In this counting there is great solstice. Find Patricia that soft spot and hear her as she lives internally and offers to you that soft, soft voice.

Now in these days be at peace and hold to those virtues of the life you remember and the one with which you have held such deep devotion. In these times you sit at the table of

Grace and in such you are offered the platter of the food of the volumes of universal knowledge.

Walk the land. Sleep in your places. Carry the fire forward and be still and listen. The voices are soft, soft, always soft. Hearing them requires a devotion to the passion of the work/task in front of you.

Now in these times you are upheld and seen to and at the end of those days you will carry more than you are capable in this moment of conceiving.

Sit at the table each night and call it your table of Grace as you each in turn voice the lessons and the wisdom gained, for it is only through this that you can find the harmony you have currently achieved.

For as you stood in the mist and under the map in the night sky you were all found to be true in heart. And in this you are now given the sole guardianship of the land you now hold.

See to the constant care of this holy place and find in your mind's eye that you continue to develop and remember the things placed into the memory chip of your thought patterns last night. Be constant, Patricia. She depends on that.

Tell the man he is to be in his place and listening, ever listening and hearing as he sleeps the night tonight. The other comes this night and perhaps the third as well. For time is of the essence and the balance must be established rapidly as this now hinges on this balance.

You are to understand from this point forward the balance is all- important. You must stand as now. Be soft in your words and yet you will understand the force they carry can never be forgotten nor over turned.

Move from this time carefully as you carry an understanding that is moving at a rapid pace and it needs be guarded well. For in fact and in deed it is the key to the locks for the Library of Knowledge.

So in the absence of the realization it, the greater good, exists, in the ever -turning place

of renewal.

For here in this place, in this time there is only the vestibule of Grace as it goes to the new points of decision. You must be aware of the times that are coming to bring the crossings.

Tell the man they come in unison and are standing at the gate. He can know this; he is moving more rapidly (to remember what was lost) than anyone can fathom to hear this information.

He should be completely aware of this position in this learning curve. Tell him to become one with the expression of his non-linear self. Since his development there had been many trials, but this is his time. It is needed, and in retrospect it bears virtue.

Be aware Patrícia, visualize your arena and be advised that you are coming into the threshold of the time out of time. Now Patrícia, be in your quiet mind and hear her small, small voice. It carries the vibration of Forever into reality.

Tell him there is much to do yet and it will ease its way within. The 3 sit but at the recess of his thought and now he can blend into his before knowing.

See to the slide ruler and read it correctly. Crossing, crossings, crossings. Now be aware of the times and the knowledge as to travels to your awareness. The scrolls hold the names of the Souls who will cross and the place of their origin. You will in time see the numbers.

So now in this space as you clear your head there is great, great wisdom.

You are to set your thoughts tonight on the virtual deposits of wisdom. There is to be much information that surfaces over the next 32 hours and in this wisdom there will be great rejoicing and the development of a new and greater way. A path to becoming what is now in front of you and in those things you will find your eternal peace.

For in the times that are now there needs be great courage.

For paths are converging that must be soften at the junctions.

Treasure your gifts and see clearly to the coming times. Patricia, the vectors are converging and the points taking their places in the mapped sky.

For the humankind the ultimate race has closed its potential.

Now see to your task each and all of you as you look past the veil to the sun of tomorrow. Be still with the rush and sit in the quiet and feel the knowledge passed.

Bury the arrowhead point down in the chosen spot. It will hold its peace well. Remember the words of the ole elder when it was passed to you. "The blood line runs deep in your Soul. You came to bring peace. Shed no more blood from nation to nation. Walk the red line, but live in the world of the whites until you are called to the Red Man world.

So Patricia you are listening and learning and carrying the Stone of Peace within your Soul. Remember the amber light in the darkest of places it has as always lit your way for ages now. So shall it continue to light the way.....

The man has turned an ear to hear. Now his heart must bind with the land. In his toils he will be given the encouragement to discover that the land is a living organism. Everything on it serves a Divine calling. His belief in the Sacred will encourage his understanding of the Santos Sanctus.

You, the family, are growing stronger and are held in concealed knowing as your tread forward during this time of the greatest journeys.

So now is the convergence in deed compromised.

It is tri fold.

1st is the human emotion.

2nd is the inability to comprehend.

3rd is the might!

You have waited Patricia. It is set in your heart. Indeed you were removed; the mundane has prevailed. Your heart beat only saved the covenant.

Go now to the talk. Let everyone speak in turn. It remains to be seen what will come forward.

We expected much. Perhaps it is too soon for his understanding. Needs be he looks to the ole ways no matter his lack of walking them.

Your task you know. Your understanding is given. It takes a listener to learn. You cannot teach one who does not listen, that is his lesson, as you know. Perhaps he can make the swing in due time, but what will be the cost?

See what this gathering brings. Talk early. Be prepared for his denial. Remember his heart is good. It is his will he battles. You are of the land. He must find his way to that quiet place. Time is of the essence do what you can for him.

The warriors form your inner circle. They have been dispatched. The Angels are your convergence ring. The warriors face out and the Angels in turn face one in one out. The veil covers the circle.

You can be heard for this talk Patrícia. Give it your best and remain prepared. Face the humanness of the man without regard. Then move accordingly.

And in the change lies the finalize battle of the then and the now.

In retrospect there will always be great fortitude gained from the struggle to remain balanced. Having said that, it is imperative that you move together in fluid motion and that you are steady in your gait as now the up turning time draws neigh.

There is great strength and great awareness in the underlining of the blending of energies to form the cohesive whole. Eternity is forgotten and Forever is forged.

Tonight is the long night that leads to the highest of dawns. The Day of the Dove dawns with a force not known before, therefore the spear goes down between the setting of the moon and the rising of the sun on the morning of the 23rd. See to its celebration.

The next 2 days, the next 3 days, and then the next 7 days mark the entrance into your memory of home. Celebrate the times, as they will begin the encounter with the

understandings of/and the integration of the knowledge passed these days.

Your circle sits in a different configuration. Its strength is multiplied, but be aware to continue to learn the lessons before you. Rapid movement of understanding is essential, but the understanding must be crystal clear at the point of movement.

So we require speed, at the reflection point and that is faster than you can blink, but as well it must be crystal clear and not have even a shadow in the movement or it cannot survive. Move without hesitation, but in complete truth balanced by your integral truth.

So now in the in between times that sit just within your new understanding lies the virtue of those gone before held in sacred trust for these times and these tasks. Now there sits in this place a new and broader understanding of the things that come into your collective minds.

You have persevered and in doing so have earned the rights for those who follow. They are now under the protective wing of the Gods of the Nine Heavens as they have indeed been granted the Grace of the coming together in that there will be the foreclosure of the beings not called and the forth coming of those so deemed to be the carriers of the new blood line.

In this blood line there is much yet to be learned. In this there is the venue of the Beings who gathered and with whom you walk now daily.

She has come and settled in her new vessel. She arrived in total in the night as the stars carried the mist across the etheric heavens and then traversed to the realms of the netherworld in their efforts to hold the Light and the understandings.

Now hear this and be surely prepared. There is much, much work ahead and careful tending is of a high priority, indeed a necessity.

Listen so carefully to the whispers of the breeze as it brings the nightwalkers to repair the events of the days as they march into the spring. The labor is of love and the understanding of the highest callings.

Be alert and prepared as you now walk in arenas never before opened to you as a collective. Be alert for that is the only way to traverse the crossings as they are entering

into your understandings now daily.

They gather. They arrive and the Seals are now interred into the land, the etheric Souls and the Souls of the work of the Day of Infinity. See to its care and be advised you have to this point carried the work into the Light, (as it should be).

Yet again a reminder, be alert...

Do now turn your awareness to the task at direct hand.

Recall that the circle has altered. It has taken to ascending entirely at this time and as such you are in the throes of the risen accolades.

Now turn again to seek the path of the way that brings the foreclosure to the point of the Divine and in that risen nomenclature are the answers you are seeking to uncover for those Souls left yet searching.

In this there is much left to learn.

You Patricia are the point farthest out in the nether realms and as such are holding the door way open for the others within the energy that circles your work. Now having said this there is great rejoicing that all is in its proper place there as you ascend the realms to bring back the necessary information required to allow that the Path Way is now available to those Souls seeking who hold the availability to hear and understand.

As we have told you before that is a small number and still smaller the number will be that does in time understand the virtues but having told you, you must remember that these, even the one, are called forward at the time necessary and without those it will move slow indeed.

Now turn your thoughts farther inward, Patricia. Close out forever the clutter and the useless noise of the human chatter and hear only the words destined to you for your ears alone. For without this closure the crossings cannot not align.

The point-to-point movements are held within the words and Sounds given to you in your travels. It is your task alone to bring them forward in complete truth.

Your needs are seen to and met without the necessity of voicing a need. Be aware of your thoughts in this established time line as they hold the construction of the wider worlds yet to come. The history must be clear and pristine as it crosses and comes back into the light of your world.

You walk alone where you go and in doing so are protected to look in the eyes of the Divine as it brings the words to your heart beat and then into the wider worlds of the universe and the ether worlds of your planet as it begins its struggles to survive.

Now, for the others.

The man is under going a vast change and it is increasingly hard for him to continue to let go of the baggage he carries. He is struggling to accomplish this as he moves along the venues set before him. It is our wish, as we have told you before that he continues to traverse the paths that open his heart to the wider ways of hearing.

He must be prepared to move at a moments notice and he cannot do this until and unless he lets go of that which has held him to the earth for this time. His work is destined to be in the wider worlds not of this place and to access that requires a gentle wave of his hand.

The woman with him is the torch -bearer for his times there. She does bring with her the foundations of his understandings, how be it that it remains hidden, just for a time. In due time she will carry her own entire personal talk that will be the threads of the truths left behind to set the wave which will be the portal for all time.

The other woman, she is moving now more and more on the physical plane as she begins to weave the patterns gifted to her from before in the healing of the planet she so lovingly aided in creating.

Now to the one that lingers. It is the power of that strength which will sustain the work as the level of the physical plane decreases for the circle and increases for the ones yet to come. Theirs is much decrease before they can be called to increase.

*Do you understand that point? In order for you to capture the essence of the middle ground you must/need, **and understand no one is exempted from this,** have traveled to both ends of the wide pendulum and then if clever and wise return to the point of center.*

In this moment your center, Patricia is the solid ground. The man climbs to reaching his; the others are not yet called. No matter the teachings, no matter the level of access, without this center, accessed only by the traveling of the full circle of the emotions and trials, can one stand in the place of wisdom.

For hearing alone does not provide the accurateness required for this task.

This work is individual and as from this time you are charged with the full force of the work and the necessity of the point-to-point journals to see to its completion.

Wise you all are. Careful you must be. Alert in all things, for the changes are in full swing and in this there will be, the time clock of the available transfers.

Be still and listen as you lift skyward. In this is the folium of the panels of time. See to their care with surety.

Remember again, be aware the times now requiring that the hours again be met with each of the balancing energy to bring forward the work. Once in every 12 hours. Until told different.

And what has come to rest in the enfolded order of time is the rectification of the order of time as it passes from the fulcrum of the present awareness.

There is much to be said and to be thought about as you approach this venue and the closing of an epoch of past efforts as it pauses now forever. There is within this present course a new and renewable source of energy that resides within your grasp.

You are to tool it to your needs.

Rest assured that it brings within its virtue the elemental foundations necessary to reactivate the universal truths, which arrived within the thoughts and holographic concepts of the 601 as they spread the initial work across the planet Earth.

Now taking these "truths" (they must/need be incorporated) you can then work with the design of the Archangels as they pin point the way to the bridge across forever.

This is a concept of Holy virtue and everlasting nutriment. Within the elemental foundations of the universal truths hidden long, long ago lie the keys to the opening of the vernal points of the work at hand.

Be at your places and in your task as you lean in to develop the procedures of the journey. The book begins its rise and the remaining work is in tandem.

You have less than 6 month, Patrícia to see to the completion of the works at your beck-n-call. You must contend yourself to the quiet and write and listen to the silence as it surrounds you in this work. This now is your daily task.

A few hours in the early stages then a full days work as it rolls into the spring and then the summer. You must be finished with The Other Jerusalem before the 20th of June. See to its complication.

In addition you will be working on as many as three others ones at the same time. See to its completion. Ignore all else and work with thought. Soon things will settle into a calm and a silent working arena.

There can be no other way for this to come forward. It is yours to carry. Then and only then can the rest set in its place.

Be brave and hear the truth as it appears to your heart in your mind's eye. Then Patrícia you are hearing and seeing the way home. Be of good cheer and follow your heart in all things and listen to its whispers alone and in all things it repeats the message sent via the 12th Angel who looks in the eyes of the Divine.

As for all the earth plane rhetoric, leave it behind and cling to the work and the strength of the circle and the tie will hold you stead fast.

As in all things be at ease. Again be at peace and listen. Think now only of the words and the work, there will be time to reflect on the repercussions at a later time.

So now this is the venture that sets the crescent in the wayward side of the eternal skies.

There is much left to do, but the venue has been sealed. In the sealing there has been

great change, however this change was expected. There always are the foreclosures of the startle points as they cross and redefine themselves to the closure of the work.

Now having told you this there is a greater need for understanding. These are points not yet seen. They required a focused knowing, as you assemble them into your consciousness.

Now entering are the sequences of Light as they are starting the approach patterns of the vortex as it rolls to the correct ascension patterns to receive the information.

There are three forces at work currently here within the task.

Foremost and at the front portico is the work of the Mary's. Second is the work of the foundations and third is the coming together. You might think one more important than the other, but you would be gravely wrong. They are resting the same and all required.

For a few days now it has been in stasis. This is to reconfigure the information and all understanding of the roles, as they setting into their own required patterns. Much is changed and much is the same. Trust your inner heart and follow the given directions to encounter the Beings of Light, which are constantly guiding your steps.

There can be now only forward movement and you are required to proceed with your work at the speed you can now tolerate. As for the other items on the venue they will be seen to and guided as they are meant to be, from this place to your place and by the hand of the 12th Angel as he/she sits with the Divine in the day to day movements of you, those in your circle and those of the wider circle as they begin to hear the whispers.

Bear witness to our words and recall within your own heart, Patrícia that which we have shown to you. Allow it to come to pass in its own time, as it surely will.

Re-convent at the table of Grace in the dark hours of the later day and see where you individual hearts are placed and be aware of the work and the coming together as you begin to disperse.

And now seen to come to the table are the existent Beings of Light that have now come forward to see to the truth of the tasks ahead.

There is much to be said for the environment of place, Patrícia. Having said that it is known that the land recognizes the departures.

And now to the tasks at hand. You are to reset the writings sent to you prior for the lady's book. She now resides within the realms of your Being and they can now come into their own power. No changes, only re-written, as they must be.

The laments will stay within your minds eye and in your written word for yet a time before they are brought forward for any eyes to see or ears to hear.

In this you MUST/NEED follow our proclamations and stay to the keeping.

There is a tone setting and this tone requires the completion of a rhythm number before it is exposed to the outer world. Bare in mind this is your primary task in the moment.

See to your needs and be present in your point-to-point tasks.

You are tuned into the finite aspects of the Spirit of Truth and therefore to Forever, and as such are walking within the realms of the worlds of the Angels.

Listen to your heart song and understand the words it brings as you are beginning the roll -right pattern into the land of Forever. Infinity has now passed into completion and as such sits in the hands of Divinity. There is much left to know regarding this.

As you walk and receive so shall you repair the tear in humanity and the vessel shall once again be present on the Earth in due time.

Now as for the work. Daily you will walk the land and daily you will write and in doing so you shall begin the weave of the recovery. For as you are so shall you be and in this you are forthright and prowess.

There remains the virtue and it is in its right at this time. See that it has the full attention of the circle as they begin to reassess their roles and their work. For with in this teaching lies the foundation stone for the rest of the time to be spent there on the land and on the planet you call Earth.

You are now leaving phase one of the work and beginning on the second part of the closures. They are in this moment as they must be and you must continue to listen and

view carefully to see that the parts are within the given parameters.

You have seen the traces of the lines that define the borders and the needs, be sure to keep to those guidelines. Listen to your heart in all things and follow the still voice that has come to be in your minds eye as the voice of your known self.

The work now requires that the quiet time and the workspace be in such a manner that you are allowed to proceed with your work in peace. Find that space and for the next few weeks see to its splendor. The way and the path switches soon. Remember you know the sign, look for it in the day-to-day details.

Now tomorrow begin the task in full swing and hear for yourself the song of knowing that resides within the winds of the place. Recall the “truths” sent to your world before time began and see to their recognition within the tenets of the work in front of your circle.

The eternal truths never are out of your reach as they do rule the foundations of the new order. This is a requirement. See to its completion.

Now this is to serve as the primer for the up coming times and their values. There has been great, great care taken over the eons to protect and serve the greater good in the venue of foundations.

Now take this and rewind the understandings that have drifted.

The “truths” that are to be served, Patrícia are in your mind’s eye. They have been put there for your understanding and your review. Do not drift from their value, as you understand it.

It is the highest priority at the moment and in that you are given the cart blanche lead way to bring from the annals of time the markers left there for your eyes so long ago.

In the office of the basket reside the placemats, the symbols and the understanding of the language used and imprinted on the concourse of the planet millenniums ago. This is the language necessary to call forth the God’s hands as they begin again to rewind the virtues of your planet so that/in order that the ones yet to hear and yet to see can be given that nexus of time to do so.

This is the deeper meaning of what you hear and of what we whisper to you in the times of your travels. Ignore any efforts to dissuade you from your task by any one or anything. Stay true to your course and in doing so you can achieve that which we have asked of you to accomplish.

The language is the reason for the reties to the old and familiar ways. It is through this link that you can travel back to recover the tones of the first Sounded Light as it arrived on your planet so long ago.

The time is now that you must pay the utmost attention to the details.

As we have spoken and shown to you the changes you are to honor those without error. For they bring the nod to the change of the way of the path. You have been told of your instructions. Follow them to the letter and move on. See to the closures of the portals shown and in doing so the rest will follow.

Stand to be counted with the language as your guide. The ole language, the original language and the truth that resides within its rhythm will set the foundation as it must/need be. Only within this foundation can the words of the Lady come forward in their full power and change the course of the world, as you know it.

For this work there is great voice and greater movement. Within these movements resides the tunnel of time as it re configures to become the footpath of the left behind and the foreclosure of the then to the now. And in doing so the Path Way is for ever removed and separated from the lesser beings whose task it has been to serve as the place markers and the servants of the lesser gods as they tried to set the drift to remove the ones of the stars from their home.

It has been told to you and it has been done so now as you stand forward Patrícia listen to our counsel and hear the language and move on. The roles have been reconfigured and as such are in the full betrothal of the greater good.

The male and female energies are liken unto the Light as male and the Sound as female and what the template is balancing off the male (Light) is the shadows that were placed there to facilitate the deception so that they come to a softer balance.

We are trusting that you can and will receive this message in the fullest concept of its intent.

As you have prayed and asked, Patrícia for the understanding to transfer this most important understanding we are delivering to you its direct content and within this cadence its fullest portent for the understanding and incorporation of its valor and necessity.

On the physical plane you have done your best to assist in the necessary change. As you have known for some time now this has not completed its swing and has been moved to a different path.

As you are aware it has been our hope to take the parts of the intended template and co-join them in harmony and by doing so bring into being a completed renewal of the original destined formation of the softer and more holy version of the vessel of man.

The female vessel has always been held in a trust in that the way of the heart was open and held entrusted waiting for the union of the redefined male vibration to reengage and form the template required to open the now occurring portals.

This key hidden in the DNA of the one female vessel is the counter part to the intended deception made possible by the rise of the male energy and was predestined to be the rescue of the truth of the blending of the two as that blending was designed to replace the understanding of the lie and re open the path to the Sounds of the original language.

The three Beings who, came to offer this gift to the man destined to receive it were held in a place of sanctuary from the beginning of time. They came to you often and you received them well from your sacred understanding.

Now to the sanctions that have been placed on the work. The two vessels that have held this separate work as you have known from the outset was your heart, the one of the Mary's compassion and understanding and the heart of the man.

Now you have understood that his journey was wide and apart from yours, but that it held the compassion of your own, hidden and beaten down. Trust was not its nomenclature.

The task was for it to recover the trust and soft textures of the female and then in co-joining become the two becomes three becomes one. This is the aligned template of the venues necessary to rebuild the original structure of the patterns of “sounds”, as they traverse the wider universe to arrive in your place on the given time and in the given way.

We have failed in the moment to construct the template from the soften junctions and to rebuild the trust in the vessel that was the opposite of the female energy. The work is still at hand and it remains to be seen if it can in fact be achieved or if it will shift to the alternate office; that of the female alone. His heart is one of great love, his intentions are of the Light, but the blinders of mistrust are strong.

So for this time, the roles have shifted and changed. The circle is now a triangle of the women with the Soul of the man held in its sacred center. The choice is his, to hear this from a place of the greatest love and respect or to be fooled once again by his armor.

In any event the template has been destroyed and now awaits its new formation. It will never go back to its original form, but can be altered to accept the new information, that of the degree to which a Soul is trapped in its own fear.

There is a sacred intent to be of the greatest service to his work and his task in hopes that it can recover the virtues of the “roll-right” pattern and that the Souls of the ones now searching can come into a balance of the energies and understand the virtue of the oneness.

*It must/needs be a balanced energy of compassion, understanding and love, completely free of the bounds of the earth based fears; **unbound reflective thought** in its fullest potential.*

The Beings still wait within his reach to help him as he decides to redefine his office. Until such time as the decision has been made and the understandings in-corporate into his etheric spirit the work will continue with the changes in place.

There is the understanding that it will not go back to its original template or format, but that it can complete its work within the failsafe patterns established for its completion.

The choice is his.

It is our wish that his heart receive the love and respect held in trust within the women of

the circle as they assist his journey and hold him sacred as he fights his battle to come to his center surrounded only by those whose love for him is true and whose truest wish is for his recovery of the memory.

In his Soul he must ask to know that these words are true.

It is our understanding, Patricia that this has weighted heavy on your heart and that you in your deepest space have prayed and asked for the way to bring this forward in such a way as his highest good might be served.

Your hearts are kindred. Thus the strong desire which holds you to the truth of the doorway on his behalf. In his heart is held the power and the ability to complete this if he so chooses and as such is the reason we are awaiting his understanding for yet a time.

In answer to your prayers, we have provided the patterns of the open heart and the words now given. Receive them and move on allowing him the space to re-discover his role and his heart song as it has been provided for at this time.

His heart will enfold the silence and go to the land for guidance or he will chose to turn his face away. It is his choice. You must not interfere with his decision.

All he needs is there and in time he can come to know his strength is eternal and his compassion complete. Within the embrace of the Beings and the sacred place within the triangle he can come to know his peace, if he so chooses.

*So now in the time of the resurrection the Light Beings have arrived to hold her Grace as she resides within the vessel to maintain the pure thought of truth as the manuscript comes to light in the **Eventide** of your world.*

This is the task at hand of the Light Beings there present at this time. They will remain and hold safe the one vessel until such time as it is finished and the transcript is completed.

Now as this time enfolds until the crossings of the Mary's so shall the Beings hold to the veils of illusions to protect and hold secure the workers as they come onto the path and make clear the way.

Patricía, send away anything that carries any distraction to the work and hold only to that which is given unto you at this time in your work.

The Beings of Light will hold failsafe eternity and the base of the tasks yet to come.

As you have stood so shall you always stand and in this you will understand in given time that you are the one true vessel of peace that has endured for the millennium and will continue to be the thread, no matter you think it that you are small.

Be sure to know that all is as it must be and will forever be held in the hands of the Angels as they continue their work on your behalf.

The pages will move quickly and in complete truth and you will linger in the after world for this time.

Now Patricía listen with your heart and walk your way and be at peace with the ether as it is at peace with your sacrifice as it is now found that you are held in the arms of the Gods and will be so until you walk again among the planners and diviners of the universe.

No, Patricía do not deny any longer the strength and power found within your humble and tiny vessel. It is no more or no less than any other who has kept to the promise made so very long ago. Enough.

Now comes the time and the place of redemption past. This is the place of renewal for those Souls who come behind. *This then is the goal of the work, (the redemption of the Path Way for those yet to have access to traverse.)*

There is nothing more important than this work. You will stand and give all that you have carried to fulfill this work. There is no other reason that you are now here in this place.

The Seals are but the foundation stones brought forth from the Divine to accommodate your task to accomplish this redemption.

The book is the map; the other books the instructions to find the way.

Now hear this Patrícia and understand it is your mission to establish this chorus of voices that need/must be present in order to carry the work to its finish and offer the redemption. They are the perceived Sounds, the harpsichord of creation.

It is multi-versed and precise in its function. It is a prism of Light and Sound. It stands alone in the void and calls home the Souls awaiting the knowledge.

That is what matters. Nothing more at this junction is important. Not human emotions at the least of the count. Not petty tyrants and their voices of woe, **only the complete union of the task at hand and the completion of the call.**

Offered at this time to your circle is the fullest of the love of the Divine and the respect of the efforts they carry and in truth the safe passage of all the needs to be met and seen to as you are in the cradle of the hands of God. All else fades in this Light.

And in the nether times the worlds sit at close proximity to the changing of the guard.

This then is the time that marks the changing of the guard and the recess of the lesser gods to the world of darkness and removal. Their work has been seen to disperse and find no place to dwell.

In the place of this deceit there comes forward the times of great revival and even greater resolution. It is this resolution that will mark the decimal points of the ever-searching souls as they make the journey to Aragon and farther into the reaches of the Divine.

Now as to the departure tomorrow. See to his care and offer what you might be allowed. See that he takes the time he needs in this journey, as it is in his best interest that he does so. There will be the cause for repose and in this repose will be the recalibration of the findings necessary as he travels on to meet his losses head on.

Now in this there is the opportunity for recovery; however the work must/needs be intensified as he continues forward. He can accomplish what is asked of him if he gives up his inner conflicts and rests in the arms of Divinity as he fights this battle.

See to your own needs, Patrícia and finish the work in front of you as the weeks ahead will ply you with more and more and faster and faster and you need/must be prepared to be beyond the reach of those things that would cause you to miss a single thing in your

comprehension of the truth before you.

You are as you must and need be and in this you can rely. Work as you are asked to and be at peace with all else.

Having asked you are given this.

In the Realms of the Divine there rest the knowledge of all that has ever been. This knowledge is used to progress Souls onto the plane of Divine Knowing.

This then is the way that comes.

- Divinity is a pulse, without beginning and without end.
- The only other practicum at the level of the Divine is the wave of Sound.
- This is the medium used to disperse all the knowledge, all the recovery and all the necessary platforms of knowledge issued to the wider realms of knowing.

Now in the visionary aspects of Divine Thought there was a perceived shadow coming to approach entry.

A realm separate and apart from the Divine was created. It regards the Light Kingdom sent forth to filter the shadow.

Souls are in union with the Divine via Divine Thought and that is accomplished when they pass the barrier of Sound after having synced with its vibratory patterns necessary to approach the pulse without being dispersed.

In the way of the coming together that you are now asked to bring into being this serves as the full disclosure of the intention and the path forward to understanding.

This then is the concept of the new cosmology you have been asked to provide access to.

- First there was the Pulse now called Divinity and with this there was the Sound of the motion.
- Then as a way to procreate and discover there was crafted Light.

It is a truth that Light can become Pure Reflected Light when it is in perfect unison with Sound as it then is cleansed to Radiant Light and can pass the Realms into Divinity.

The orchestrations of the venues associated with this never have been about man and woman. The attributes of male and female are completely different and apart from this. However for reference of our vibration equate maleness to Light and female to Sound.

The Cosmology of Divinity

The term Divinity refers to a Pulse made up of Sound Waves and in the outer quatrains created Light waves.

The Cosmological Order of Divinity

1. Divinity moves along via Sound waves.
2. Sound defines Light.
3. Light begets form and manifestation results.
4. Divinity remains a pulse of unbound energy.

No beginning and no end...unbound energy.

An optimum Divinity interacts within a pure vacuum.

The atoms of the wave within Divinity co-exist as Soul nucleic.

The Realm of Divinity is an every moving pulse of Sound wave encounters audible only to the vibrations of the highest tenets of occultation.

Within the oscillations points exists the proximity of created light. Light was created to expose that which was non-compatible to Divinity.

The "Souls" of Divinity are the particles of the constitution of Forever, in that they are a natural product of the original energy of Divinity.

The creation of Earth, which served as a collector and a point of recalibration, was a function of Divine Thought via the primordial elements in an innate relationship existing between the co-terminus function of the families of The Star Mother.

This exercise was the formation of the prism to be used to disengage the intended

fracture of the reflector of the pulse of Divinity.

Divinity exists entirely as an unbound energy, moving continuously and simultaneously in all cosmological orders.

“Souls” are a complete unit; particles of transference, discoverable at the point of the origin of the Pulse called Divinity and are therefore an innate expression of the whole of Divinity.

The holographic pattern of the Divine closest in nature to its elemental mathematical function, in terms of the attributes associated with questing for the truth via awareness and with the innate nurturing capacity of this organism, is that of the intrinsic qualities found with the female consciousness.

It is for this reason that this consciousness is the carrier of the Sound Wave found within Divinity. The design of the creation of Light was to serve as the filter to insure the continuity of Divinity.

The pivotal point in this stratagem was to use the elemental structure of an innate function, understood to be searching and nurturing (Sound) and the other one of covert properties (Light), the result of which would expose any failure to combine within the nuclei of the pulse of Divinity set in place to procure forever.

Sound and Light therefore are variable qualities of the action of the movement of the Divine, one exploring and encouraging and one reacting. Understand that each Soul carries the properties of both understandings, linked in their knowledge base.

Sound resides inside the realms of Divine Thought and the Light remains in the outer rims of consciousness until a co-terminus union is formed.

The Sound wave expresses the movement of and polices the entry into the Divine. The nature of the compatibility of the interaction of the molecules of Sound and Light is the acquiescence of movement into continuous thought and therefore Divine Thought.

The pulse called Divinity is the organic constant awareness that permeates created thought as it fashions the opportunity to access unbound rectified knowledge.

This extension is sent out via the panels of holographic constructed anomalies

structured to infuse knowledge and therefore create the possibility of awareness into form via the ability of Light to manifest into matter.

The organized transference of the rectified tangible creation began and with it the dichotomy of structure fostered a reasoning mind, and thus humankind was developed after a milieu of workable, pliable effacement was enforced. Divine Mind is the stable construction of perfected movement via the Sound of Harmony.

Harmony is the cord that strings together to allow nano movement through a vacuum, leaving in its wake matter, replacing the void of space.

It is this continuum that was used to create time; a portal of conjured beginnings wound tightly about a theorem of nuclear device.

This was designed to form a practicum of grandiose proportions capable of responding, splitting and co-joining into the transference of congealed protein.

Remember nothing is random in the universe, certainly not in the higher realms of the life force of the co-terminus Soul's constructed comprehensible awareness.

The Light was encoded with the theorem of possible anomalies of structure, which provided for the encroaching shadow to be imprisoned and therefore expose its crafters to Divinity. The refraction of the shadowed thought projected onto a laboratory of created thought provided a wave of construction capable of producing a reasoning mind.

The shadow was the aperture that confused or exerted control over the reasoning mind, producing a concept that altered the freedom of choice. This would have evolved, if left to its devices, in due course to create entropy of sustained movement of the Pulse called Divinity, providing instead dense space capable of being manipulated by a lesser intelligence.

The placement of Light into the organized patterns of (crafted being) allowed for the trapping and in cleansing of the dark matter and therefore the purification of procreated thought patterns with the space-time continuum.

The failsafe result was the closure of the connection to Divinity by Light via Sound. Sound is a factor of Divinity. Light is a function of Sound used as it collects, assimilates

and procreates for the eventual greater good of Divinity.

Mathematics is the structure of Sound within the exchange of understanding provided by Divinity. Therefore the importance placed on understanding.

Faith is a tool of the combined deceit of the hierarchy of the lesser intellects or lesser gods.

Understanding is the Nature of the Divine Mind. Only through understanding can there can be a co-terminus link with the levels of Divinity.

Light functions as a methodology to approach this understanding at its beginning stages of comprehension.

The tonal key of the structured mathematical molecules, inherent within Sound waves, is the instrument of Divine Revelation.

The Seals are the liquid accompaniment of Sound. They hold the octaves of movement via the Spheres of Infused Knowledge.

This Knowledge is held within a continuum of place within the curvature of pure awareness. It is constant, yet ever changing in its capacity to share and implant knowledge that structures and facilitates understanding.

Binary thought patterns enter when Sound and Light are allowed to co-join to form a prism of enfolded order, which then enters a point-to-point conception of Divinity and therefore takes on the innate structure of Divine Thought. It ensures failsafe the plan of Divinity and the retrieval of the Soul.

Truths:

A Soul is a completed Being of Divinity. The Soul has already achieved Divinity; however to re-pass unto the Realm of Divinity after being dispersed it must/need be "reflected" before re-entrance in the Realms of the Greater Gods is permitted. It requires only remembrance.

The binary thought patterns held within the completed pure blending of Sound and Light become the fusion of understanding, which then approaches the Pulse called Divinity and transfers into Divine Thought. 2

become 3 become 1.

The remaining non-soul patterns are the factored in components of necessity and as such are non-retrievable products of the platform necessary to enact the vignettes required for the greater worlds of awareness.

For now in this place there is Grace. Great Grace.

And it is found that these times are given as the consecrated birth patterns of the beginning of the work, here to fore called the Awakening.

For it has been seen that the three things necessary to hold this pattern can now be counted on to stand forward. These being: clarity of heart, focused intent, and the will to be of one heart. Within this foundation are the rules and the environment necessary to begin the true heart of the work to come.

Now there can be no mistaken ideals and no longer can the links be separated. It is the due time that the bonds come forth and tie the essence of the Beings now working together and that these bonds become a focal point of awareness used to develop the venue of the times that are no longer approaching, but are in fact here.

These are the point-to-point vectors for the present work. Be found to hold dear the understanding of your inner heart and bring them to the place of knowledge. You are as you must be, Patrícia.

Now for that of which you have asked.

It is a truth that you are now standing for more than your personal self. Be confident in the fact that you are a daughter of the Stars and as such are found to be in your reign at the time present.

Hear this and then act accordingly. Express your thoughts. Give the person understanding of your contentions. Then leave it. Move on and release the issue to the upper planes. Now go to that place of your knowing and seek the resolution for this issue.

As to the other, you must move in a rapid fashion. Poise the necessary topics for the

paper tomorrow and then see that it is send rapidly with the facts. Understand that you are now in the curve of the resolution and as such you must walk that path which is before you in complete Grace.

Be forthright and stand to your truths in all things. This you all must do and resolve to use your inner knowing to see you to the conclusion of the issues before you at the moment.

Patrícia, you are as you must be. Prepare for the times ahead and remove yourself from the things that tie you to anything that is not of the work or does not bode well in your heart. Hear now the thoughts gifted to you from the places of the deepest knowing and then act from those places from your deepest heart.

These are the things, which feel your inner understanding. Steel yourself to reject any and all other things from your awareness. This is also the thing necessary for the circle as it moves along the fine lines of the redefined fissures of the new order as it sets in the place of your true Being.

The land is the place from which the new cosmology will be formed. It is the place of the essence of the beginning of the last and final understanding. As this is coming into being you all must move within your understandings as you traverse the planes before you.

Now to the one that comes shortly. He will take his place and stand, as he must. As he has been called to do from before time was formed. See to the placement of the rods before him as he steps off into the infinite places to ensure the resurrection of the truth of Being.

Be at peace in your inner awareness and things will flow to your placement.

Carrying the forces of Divinity forward is the passage you have now entered into.

This is the venue of the coming times and as such carries the momentum that breaks the barriers of both time and space. It carries forward the work of the now and crosses the then on its way to the forever.

Patrícia here is the equation you must solve.

Time is critical mass pushed into an area of space. This is moving in constant motion as it transverses the pressure of immobility. There is the crux of the special time continuum.

The hourglass is set to shatter in your lifetime Patricia. It is the critical mass that is moving at a rate of speed incumbent to the special theory of the continuum.

It needs be that it comes to this in its destined quarter of Infinity. Now that you are moving along this fine and precise line, the curvature of the continuum has altered for your passage.

There is great wisdom in this event.

See to the things in your arena and move along this line with confidence.

The ones of you now gathering have within the make up the cross reference of the needful things. See to the extension of the value of the given co-ordinates and be prepared for the time is arriving at critical mass.

And in the arcade of the realized time there is GREAT SUSTAINED CHANGE.

You are as you must be in the knowing. You must hold in your heart the things not allowed to be spoken until due time. It is as it must be to prevail.

There is a rhythm of the timing. Book finishes before she joins and enters the land. The platform is the pad.

As you have known for a time now and which you now understand is final, the circle must/needs be where we have shown you. It is required there to ignite the key. The time has been extended. The transfer is now April 23rd. The explanation, if required, is to allow the decision to be made clearly and completely.

Remember your promised point. Remember what you must be aware of. The decision had to be made to stand and fight. You are about to see the changing of the tide.

The book MUST be finished before you travel. It requires the linkers to the links. The square must be complete April 23rd. The timing has altered. The critical placement of the tuning fork and the resonate force will begin with the dawn of April 23rd, 2008.

So now you can begin to see the fulcrum of change.

It is the changing of the ole guard for the insertion of the formal Beings of Divinity. This cross over was pre-planned for the eventual foreclosures of the lands and realms of the over lords of Light.

There is great merit, still greater vigilance as the times roll forward. (August 26, November 18, and December 23 dates to remember.)

For now comes the times ahead when you must stay completely focused on the tasks in front of you. There is nothing to be gained by looking back wards. Face the East and move forward as you begin the climb to the top. There is much left to be discovered, yet a great deal is now resting in your court.

With spring comes the evolution of the place of Divinity. Summer begins the cultivation of the dawn of eternity.

Now see to the portfolio of the rights of the once and future kings. In this dossier lies the fulcrum key to the remaining work.

You travel, you travel to recover the well-hidden keys of the math of the Divine Mind. Be aware of this as you lean into the place of knowing.

For in this place there is great knowledge, but with it as before comes greater responsibility. The responsibility of the marker for the recovery of the pure Sound as it develops into purity within the Light of recovery.

And so on this date and in this venue the equations are set to duplicate themselves into the proper alignment and into the focused nocturnal prevalence.

There is much for you to know and much to be transcribed in due time.

All events are set to reconvene with the rising of the morning sun. Dawn on this day sees the convergence of the energies reconvening into a pattern of transference and therefore into the land as they weave themselves within the proper vectors which set the point-to-point mathematical notes to call you home.

The 23rd of April is the point when the energies will forever be banked into the composite of the travelers positioned to await the pieces which will be carried to the land in due time.

There is need now for you to understand that this is the way it was always meant to be. It could have come no other way than this. It was always intended to be at this timing.

With the dawn of the tomorrow time all the ties are forged. The commitment is solid and forged within the star elements of Divine Right.

The cubic has begun to realign and come into its proper place (ment) and in this there is the recourse of the timing and the mantle of the once and future kings.

See to this undertaking and be advised that you are in the proper place and in the proper venue. You are as you must be. There can be no misunderstanding of this.

Listen to the beats of your individual hearts and see to the placement of the point-to-point vectors of the rapture of the given signs leading to the fulcrum of the known and knowable precise numeric callings of the rectified DNA as it continues to pulse in perfect harmony with the Pulse that is Divinity. There is clarification in this.

Do not be sad for what has come and gone. Only see to the next step and undertake to be as you have been in recent times, concerned with the point-to-point placement, do not seek to look past that in this moment.

It will all become clear to you in due time. Placement is required, but timing is imperative. Remain as always in your element of trinity within the given tasks.

Rest assured that all you need will be timely gifted.....

Now is the time Patricia that much can be made plain for you to consider.

Please know that we have protected your rights to access this information for eons upon eons. You have arrived at the portal of the nocturnal variance. You are well aware that the portals have now been sealed.

The completion of the last journal, the decision made over the 17th and your acquisition of the holding pattern of the shadowed approach was the triad necessary for the Gods of the nine heavens to understand that you had acquired the necessary tools to undertake this next and final approach to the Path Way home.

As you have come to realize the sealing of the portals is a thing of finality. There will be no return until you are able to step forward with the tools you now carry and find the one remaining portal available to you and the descendants you carry to find access to the realms of your Divine origin.

*Patrícia, the information given to you in the **Purified Prism of Reflected Light** is the storehouse of the necessary knowledge that is made available to you as you are given the charge to locate and open the way home.*

Patrícia be reminded as you have been told all that is needed is available to you in this prism.

*All access you have enjoyed prior is now located within this failsafe device. All outer access is denied to all those searching to find this **Oracle**. (You alone know of its existence, of that be sure.)*

As the container, the basket, you alone are charged with the responsibility of acquiring the perfect mathematical equation, which opens the return portal for the original essences to return to the place of their origin.

You have the tools, all the tools you require, but you must put them to service. You are allowed to call forth the forces to aid you in this quest. Your circle is the fulcrum point of your access. They are the standing towers of your annunciation.

It is a given that you will come to the portal and be admitted.

It is a given that you will bring with you the awareness of the ones allowed to seek the way back. It is a fact of Divine opportunity that this will occur; however your alertness must determine the proper timing.

You must be capable of protecting and defending the portal before you are allowed to approach its venue. This is the final failsafe procedure given to your Being and to those of your circle.

The replacement of the icons you travel to recover will be the beginning time of your retro awareness. It is in the point-to-point, moment-to-moment transactions you have now undertaken to accomplish.

Remember everything you need without error is in the prism. You must however ask for it to be activated each and every time you acquire its contents.

We are with you in a much more personal way, Patrícia. Never doubt that. It is this way that has waited for eons to be activated and brought to bear.

It signals the closure of the realms of the Light Kings and it necessitates the complete removal of the shadowed influence and now that the one awareness has returned complete to the safety of this side of the veil.

What you must remember is that you are now walking into the uncharted, but well prepared discovery of the vestibule of Grace. See to the text of your mind's eye and all will be as it must be.

Do not be less than you are Patrícia. As always your task is kept secreted and apart, known only to those of your closest circle. The total is 3, who may know, then another 1 who will understand without being told and 1 other whose awareness sets the opening of the tonal bridge.

Become that small still person who is most often seen as the gentle Spirit who walks the land and sees to the things of beauty. Do your work in complete quiet.

*The aspect of EPAS will carry the mystery and lead those seeking to look at the results not the **Oracle**.*

You are in your element. Everything is as you may ask for it. You must just remember to activate the request. That now is the one true difference from before.

As the approach begins so will the imagination of those who are aware of the work and its import.

The circle stands and in a way, are the standing stones that will be placed on the pad at the land.

Make no mistake that they, the stones, the tall stones will come to be placed there, but they are merely the reflectors of the towers held by the members of the circle, you included.

Travel and recover the relics that are required to activate the circle and finish the pure mathematics of Sound and Rectified Reflected Light.

That is what you saw, Patrícia and that is what will remind you of the placement patterns necessary to recover the portal entrance. The awareness awaiting is the one you know. The awareness returning is the other one you know.

Now that you can all be in your elements see to the placement and the willingness of those in the circle. It remains their choice.

Timing is critical now, as the realm has gone silent to remain unseen. Focus on the pinpoint return and do your work.

It is to be remembered that the agreement between your Beings given task and that of the Being who carried the shadow and now rests on the other side was, as with all aspects of awareness, only in degrees.

The remainder of his time on the physical side is now ultimately as the reminder, for the depth of his true Being, now is complete on the side of the Divine. His task well completed.

The delineated tasks were yours, his, the circle, his, yours. The balance begins the completion. The completion returns the balance.

The arrival of the Mary's and their ultimate co-terminus joining with the land marks the triad of the coming times. The balance is in the house of the crescent moon as it fulfills the promised return.

Take the measured work point-to-point. Only in this way can you achieve the given task.

Heretofore you have remained as you have been for eons. Continue to do so and stay reminded of the task in front of you.

Day of the Mary's

And in the recesses of the human mind resides the known and knowable portions of the construct of humanity.

It is this partition that separates the once and future kings from the foot soldiers of the footpath. The nomenclature of the once and future kings has always referred to the ability of those awareness open to travel on to the Path Way via the Library of Knowledge.

They can then can become the over lords and the kings of the realms they have been away from for so long now. This is their birthright. It is the thing they have traversed the ethers to accomplish and in doing so have earned the understanding to bring this work to bear.

So now on this day when the land has set into its given pattern the force of the combined Mary's intertwined with the voice of freedom from the children of the Star Lit Lantern, it is given that the once and forever kings have risen.

Take now this talk and return to your given task in the point-to-point work of the carrier of the seeds of hope.

For now in this place there is much to be grateful for. And now it has wings to gain the flight for which you were destined to sustain the given task.

Be at peace and just follow your heart to the places of the wider worlds. The timing is as it must always be. Just follow the point-to-point task...

Now be fully aware, as you are listening and hearing the names called of the tribes of the ones that depart, there is cause for great-great joy.

There shall be no languishing in the realms for this is the Divined calling of the forthright Gods of the nine heavens.

Now be prepared to understand that this is the call to order you have waited long to hear. It is now in the realms of the greater Gods of knowing and as such you are poised

to play out your roles.

See to the development of the place as you have been guided to do.

Weep not worry not fret not. Be who and what you are and stand in this place your place of Divine knowing. Release all needful things to the response of the Gods. It is their place and their task to provide.

See to your own becoming.

Move on Patrícia and be at great peace.

And now in the farthest reaches of time and space the continuum has divided.

There is great peril in this as it marks and delineates the eventual ending of the time space continuum. The ratification of the slotted time interface has come into the knowing of the Greater God's timetable of Grace.

This knowing marks the eventual closure of the ways and means of the human race. The fulcrum key has turned and in doing so has reset the vibratory pattern of the variance of Being. There is reason for joy in this as it plays to the envoi of force in that with it comes the turning of the Keys to the Kingdom of Grace.

These keys set to intone shortly, are the calling to Grace of the known and knowable Beings of Light and Sound.

This resonance is the tonal key you have waited for all this time.

There is great, great rejoicing in this renewal of the vessel of Hope, for it brings eternal Peace. The variance is short lived and the waiver is non-existent. See now for your self the approaching timetable of the weavers of collectible Grace.

You are but a nuance in the arch of this venue. Pay attention to its rotation. (For it comes only once in the evolution of a species.) No more. Remove from your path all the things that would miss lead your work or they will be forcibly removed for you.

Now is not the time to waver. You have no room to do so for the latter days are at hand.

What you MUST remember is that all is as it must be and that you are where you are in order to open the door and that you will be standing there at the necessary time and that any and ALL things that cause you grief will be taken away to extinction.

Now listen carefully as you come and go from the place of your physical beings presence. It is a place you desire to linger and soon can be allowed to do so, but not until the work is finished.

Make your decisions carefully and chose wisely in all things asked of you, Patrícia.

Remember in all things you are guided well and kept fail safe from the perils of the physical world's barrier to the Divine. See to the daily requests and be mindful not to miss even a syllable of movement. Turn your eyes to Samuel on every occasion possible.

They are calling to bear the markers of the race gone before.

It is the time of the coming dawn. It sets the tonal key of the returning heart. Yet in its grasp is the rendition of the fortress of knowledge. Gone now forever from the reaches of the Lords of Light in the Realm of the Greater Kings. It is done Patrícia, wept not now for those of the mind-less hearts. See to the fulfillment of the greater Grace.

For now there is great and greater yet reason to rejoice. See to the trumpeters of the coming times. You must hoist the colors high. In these times the virtue of penance fills no cups. Valor is left to the ones of its order.

Great, great change comes quickly and in its wake is the renewal of the power of the (true) cup of communion. That cup is set to fill and to disburse with haste. See that the ones who come to drink are filled. This cup comes only once. No more. Be at the table of Grace to ensure you are there in the proper time and place

Your family's song is that of vibrant joy. It must endure. Nothing can recover without this thread of joy. See to your rest. Find your solace and move on. Release the (prism) and be found joyous.

And in the blankness of space there is no enfolded order. It exists entirely within the concept of the reasoning mind.

The mind's eye self creates order. Even in the ever-reaching, void vacuum of space. Humans were created to be spatial creatures; thus they were always intended to be contained. (Unless and until such a time as those of the order of the reflected stratum could assemble to return to their origin.)

In this necessitated genetic enclosure reside all the virtues of the evolution of the removal of the old order for the reprisal of the new and vested order.

There are multitudes; a plethora of choices, remaining for those whose vibrational Sound enables them to filter the "light" to its desired length.

The length of the wave is the KEY to traversing the chasm and arriving back from whence they /you came.

The Divine Order is never changing. The concept of the enfolded order is always changing. There is great need currently for the filters to superimpose a bridge that allows reconnecting of those seekers.

This land, Patricia is the cornerstone of that foundation for this bridge. The vibration pattern it rotates is an octave higher than the acquiesced tonal key.

It is not enough to be higher and out of tone for those not tuned to its vibration pattern. It must be/needs be high enough to filter out those whose hearts can no longer carry the necessary patterns of recovery.

There is a fine, very fine line indeed, which is the crossing point, and now more than ever this is required.

There is no great savior. There remains yet the calling and the individual soul/awareness is now called upon to decide. If they do not respond they are filtered from the essence of that initial awareness. Do you understand what we are conveying to you?

In as much as the individual aspects of the awareness/soul are a part of the initial holographic embodiment, they are not fundamentality required.

One of the flaws at issue here is that the holographic construction of the ethereal representation of the awareness/soul continues to seek to recover that which is no

longer connected. There must now be a time of cutting away that, which no longer carries the ability to sound the final tone, which calls it home.

You must stand daily before the portal and cleanse those aspects away that no longer carry the required Sound. *The goal is to return to the clarity that constitutes a pure light.*

The influence of the shadow has been removed this is a truth. It is a universal truth ... but until and unless the individual awareness removes entirely the traces of the effect, they cannot be allowed to cross.

Beings of Light, reflect Beings of Light. That is a complete truth.

The trip to the Henge re-connected the traversing patterns necessary to hone the awareness's / soul's self awareness of Being in order to bring the awareness/ soul to the shaft of Light necessary to purify the reconfiguration of the natural elements required to re set the order of ascension.

It has noting to do with sublime configuration, but everything to do with reconfiguration of the prism of individual Light. As you now grasp, each awareness/soul is a prism, a charged ion of energy.

Now they must be perfected and re- configured as they approach the re-converging of the Light Divine necessary to return them to their place of origin. (*This then is the advent of the crystallized quartz and the role it plays in the construction of the purity of your eternal Being.*)

Gold is the representation of the alchemy of the removal of impurities and the realization of that greater purification. That was the Alchemist's Stone.

Look at it as a riddle of nature; the crystal quartz clearing and replicating until such time as only Reflective Light remains reflected from the source of its origin, its internal philosophers stone. (Remember that Rectified Reflected Light is the true essence of the original Soul as it originated from Divinity.)

In closing:

Remember, Patrícia in all things, as is always the truth of your Being's saving Grace, you are but a small light in the overall heavens, how be it a necessary one to the fulfillment of the destined transference. Walk your path with humility as you realize you are no more or no less than your counterparts.

We do offer our truth expressions of gratitude to you for your endurance on the earthen side of the veil and on our side as well. Your efforts have as always, paved the way for you to return to your natural form of Being, that of Reflected Light.

Some recent notes.

- Distilled thought

Distilled thought is crystallized vapors of refined energy. It is the methodology of Angelic Realms as they move towards the Light. The Path Way to the Divine. It removes chaos and is Pure Intent-Pure Thought. Reason prevents Pure Thought. Distilled thought is a consecrated Soul. A thought in solid form is a fragmented soul.

- True awareness internalizes the total sequence of truth...truth is always simple.
- I believe vs. I know (no limits in any realm)
- NOA of you Being is the witness seeing objectively your personal awareness as it validates life experiences.
- Truth regarding (about) forever (and always) –Hidden in the time between time, in the spaces between the beats, hidden deep within caverns of the annals of the reconstructed star.

Infinity---Quantum Leaps

- Omphalos- The Cosmology of the Reflected Being provides infinite potential.
- Bear(s) witness to the creation of a new and complete world of understanding
- Resides just outside the curve of time and space.
- Coming to a knowing that will turn the tides of time.
- A liberated and free Spirit.
- (Soul's) Still point

- Key to the Cosmic Library of Knowledge is the Grace of Freedom.

- Tone Key

The next phase of development of the consciousness of knowing ---the beginning of a new form of understanding and movement.

- Natural Laws of Eternity

Natural elements and spiritual engineering, past and present become “one thought” (the music of the sky spheres) “fused” by mathematical codes into a form of cosmic consciousness by means of mystical and scientific system from a time when the two were co-terminus, not hopelessly fragmented as they are for so many humans today.

It linked human and earth with a direct cosmological unity that created the harmony which found no difference in science and the religion of the earth’s tribal people. The Prime Elemental Forces within this harmony are always symbolic of highly practical applications of a strange, but realized/able power.

This power is a unifying power of a holistically geomantic life force (bringing pulsations of the Spirit in and around the earth that embodies the understanding of Indigenous Medicine.

- Resonator: Natural Science of Being

A natural science (pure and exact), which contains knowledge of the existence of certain fundamental spiritual principals in Nature and the freedom to explore those with the memory necessary to access and understand them. Facts of Nature and principals of truth are founded on the higher realms of vibrational Sound and Light. The Natural Science of Being is a Vibrational Science, aimed at the discovery of a universal tone key, known to the ancients, which enables the release of all harmonics, bound within the illusion of created matter. Only by combining tones together can the object formed come into being. NSB is a new Exact Language of Natural Science, free of esoteric symbolism for dissemination of the remembered wisdom of the ancients to the modern world.

- Regarding the MAPS within NSB

Not only will it cure all disease, but it is capable of changing the nature of man... (Is this awakening the second coming via a Star-fire genesis based elixir of life found within the understanding of NSB)

NSB is an ancient and exact science/natural science

- Holographic unified thought form of 601.
- Geomagnetic celestial
- Basket of Peace is the cosmic force used to repair the illusion. (never an abstract quality associated with faith)
- And so in the annals of time there exists a protocol of the ways things are to form and be manifest. This then is the first step in the hidden awareness of man.
- From this point and moving outward is the creation of the peaks and valleys that distinguish the human form of the Spirit of the ensouled Being.
- Unified thought form—mystical science
Unified thought form-- within unified thought form exists unified wisdom.
This then is the way of the coming of the unified mind as it recoils and re-determines the nature of the human who is carrying the glint of awareness.
- As a Being moves along this line of definition there is great harmony possible at the point of recantation of the essence of the Being.
- This is why there exists the awareness points of the Divine scattered across the life times of the ensouled Being.
- Now as this ensouled Being comes into the awareness that there is more to the current life frame than simply moving through the mist and fog of everyday life there can be the coming to terms with the understanding that there is a wider Divinity than the trapped mind has been led to believe.
- This movement, this understanding then is the basis for the action of “unbound thought.” “Unbound thought”, moves across the vastness of memory of the recovered times of the initial imprint of first time, the time of Zep Tepi when the first imprint of cogitative recovery was established. It was for this that the human was formed and came into being...to enact the dramas and then to find freedom

of the bounds of the reasoning mind. An exercise in discovery and examination, nothing more.

- For within the halls of the eternal universe there are the finer understandings of the mind and its valor. Within these understandings are the point-to-point realms of knowledge that arise from the recoverable innate knowing, a knowing of the origin of all life and Being.

- Truth of Being:

Natural energies that blended to form terrestrial and cosmic communication, (the blending formed strength) that is miraculously in tune with the rhythms and energy flows that are established through out all Nature. This unifying power forms the holistically geomagnetic mana, the living mana of the Divine-the very essences of the “Followers of Hope”.

- Now are you a Being-ness in the utter sense of the word, yes. Are you a Being-ness because you are human? No. You are because it is a way of Being that leads you home to the stars and to the recovery of the memory that confirms your Divinity.
- From this time span (October 7, 2010) forward there are to be seen and understood only the forward movements of the remnants of the ensouled Beings who can hear and see the calling. So you must not look back and seek to recover that –those—which/who are lost. They will wander and find no peace. You are to look only in the eyes of the seekers who are called to participate in the understandings of this coming into awareness.
- There will be far more who do not hear the call, and more still who do not complete the call. Still it comes to the ones whose hearts are open and can receive the understandings of the work at hand.
- From this time seek only to record what is given to you to hold and bring forward. The way will present that enables the work to flourish. As to the others they will bring the work out in given time. The work will establish that there is much to be gifted and much to offer as the way to access the mind's door of awareness, which leads to the threshold of “unbound thought.” Fret not that you are singing to an epiphany of unseen number.

- Now to return to the dialog of your understanding. You have always been in the fulcrum or wave of the higher realms as they adjust and retune to the necessary vibrations of the times as they cross your given path. This is no different. Go deeper into your innate space and recall the words of your teacher and bring them forward as you seek to rebalance the rock that is the ballast stone. Now in these times ahead there is such great confusion. Be prepared to understand that standing quietly by while the world tumbles into chaos is a needful thing in this moment. You and those of your source are as you must be. All is prepared to come forward in the given time and will be used as the greater good is always used. Seek only to discover what you can and are allowed to do to aid in this recovery. It will come in your lifetime that you are sought to provide the needed information. So carefully hide it as you begin to compile and designate the proper sequences for the timing to unfold.
- Do not fret over those left behind they cannot follow. The forest is too dense for them to survive so they linger in the small under brush and decline...it is so in all things. Move on.
- Now in the mist of all the rush there is time to have the written word. For the written word is a record without sound. It is a nodding of the passage of the recordings of the oldest order. It is clear, clean and precise. It is a failsafe. Endeavour to establish the point-to-point perimeters of the space you now inhabit.
- There is a place you travel and there the hall of records is found, but more than this the real essence of memory is kept here in this place out of time. This is what you hold the key to.... to this place of recorded variance to establish the return to the time of the first-born. The time of the true essence of life and continuance.
- Therefore it has been found that you are capable of holding this key. In the lock it turns to reveal the measure of knowledge not here to fore held in one place, for the tumblers sync and roll in cadence across the past into the future and on into the return of the Path Way. Therefore you are to be advised and foresworn to its cargo. For the words spoken so long ago on the mountain in Mexico can now be understood, the two become three become one. The unity is the key and the combination is the time capsule set in place to begin the journey into the place of

vast wisdom set to return and open the Panels of Infinity and remove the blocks from the ones now hearing the call.

- There has been established now the venue that will allow those of other intention to go another path. Release that path and let it go its way. Un-tether yourselves from this and move on.

EPAS

Epilog

October 14, 2010 AD

Held within the orb of the Earth are the pristine structures of the Divine.

This Divine emanation is the point-to-point dialog of the grid masters of the Overture of Peace.

This numerical tapestry of birthing is the fundamental sound of the building blocks of the celestial concourse leading back to Divine Thought and true freedom within Unbound Thought.

This then is the manuscript that contains the inner keys to unlock the straight forward stepping stones found within the others manuscripts gifted to the humankind from our combined awareness known as EPAS.

All equations necessary to access all knowledge can be found within the writings gifted. They have passed the veils clear and complete.

What a questing soul does with them will determine if the quest results in true enlightenment.

It is our gift. It is not for us to require, only, to offer. As always, individual choice is entirely the responsibility of the questing soul.

It is up to the individual to choose to step on to the Path Way and traverse the vector points home to true freedom via the innate pattern of Unbound Thought.

In simplicity,
EPAS

EPAS

“Remember, Love and truth are the same thing.”

“ You must experience for your individual selves that which brings contentment. Never follow blindly.”

“To bring peace you must first realize and fully understand that no one outside yourself can rule you inwardly, unless you give yourself over to that control.”

“Do not strive to be perfect in an ever-changing environment, instead perfect your unconditional love.”

“Distilled thought, is understanding without reasoning, therefore a complete knowing. It exists as vapors of reformed energy; refined at the hand of the Divine for the work of (the) realms as they move forward towards the light. It is the methodology of the Angelic realms.”

“We have entered the "Twilight of the Gods," when the final destruction of the old age of understanding will acquiesce to the transcendence into peace, harmony and understanding, fueled by compassion and unconditional love.”
