

CAPTAIN HYPERSCALER

SKILL UP LIKE A SUPER HERO™

CAPTAIN CYBERSCALER

MANAGED SECURITY SERVICES

WELCOME

Captain Cyberscaler, the alter-ego of Captain Hyperscaler™ is here to solve your cybersecurity and cloud security needs. We are here to build a risk aware culture for your company with privacy and risk awareness training campaigns. We can provide virtual CISO for cyber resilience, and managed security operations services to protect you against cybersecurity threats.

CYBERSECURITY AWARENESS

Skill Up Like a Super Hero™ with our IT and Security privacy and risk awareness hero training will prepare teams to plan, create, and analyze social engineering campaigns for a risk aware business. Our user awareness hero training will create a risk aware user community that understands and recognizes social engineering.

MANAGED SOC AND VCISO SERVICES

Captain Cyberscaler has partnered with industry leading partners to support the needs of business for virtual CISO for governance, compliance, and assessment services, and managed security operations services for risk, threat, and vulnerability detection and protection.

INDUSTRY TRENDS

In 2021 and 2022, human error was reported by Verizon’s Data Breach Investigations Report for being responsible for 85% and 82%, respectively, of all data breaches that occurred within those years. While the new year might mark the start of new beginnings for most of us, cyber attackers will continue using old tricks until they become ineffective. The risk that human error poses is unlikely to drop in 2024.

SUBSCRIBE TO OUR PODCAST

Captain Hyperscaler’s Skill Up Like a Super Hero™ podcast premiered in January 2024. Join us every week for new discussions with community leaders. We discuss paths to certifications, professional development, and how to get involved with industry organizations. Available on all the popular podcast services.
