We source, prepare and serve local, organic foods whenever possible. Our coffee and cream are always organic… and the ketchup too. The syrup pours straight from the maple trees that grow here, and the beef from cattle grazed on the green Michigan grass. Our deep fryer is full of pure beef tallow, and the salad dressings, house spun with extra virgin olive oil. The eggs are always cooked in real good butter, and the corned beef hash, yes butter too. We take care in our craft, and great pleasure in sharing these blessings with all of you. → *Chef Ron*
