Introduction

What a blessing it has been to start the new year with generous rains across the northern part of the country. We are hopeful and prayerful that this will set the tone for a year filled with opportunity, growth, and prosperity for every farmer.

We're excited to kick off our year by offering five exceptional lots at the SA Kalahari Red Auction on February 22, 2025. In addition, we'll be participating in several auctions hosted by the Bosveld Boerbok Klub throughout the year as we build toward the inaugural Northern Elite Production Auction on August 30th. We'll also be closing the year on a high note at the prestigious Sale of the Roses Auction in November.

We are truly humbled by the support we've received over the past few years, and we look forward to strengthening existing relationships and building new ones as we continue our journey of improving and promoting the Kalahari Red breed.

Kind Regards,

THE REDSTAG TEAM

PROUD SUPPORTERS OF RAM LAMB & OOI
Korrels Snyman – 083 570 1966

What makes us different

AT REDSTAG RANCH, WE ARE DRIVEN BY THREE CORE PASSIONS THAT DEFINE EVERYTHING WE DO:

1. Improving and promoting the Kalahari Red breed -

Our dedication lies in improving the breed's quality and preserving its legacy.

2. Helping fellow farmers succeed –

Our mission is to help fellow farmers grow their businesses by providing practical guidance, resources, and support.

3. Being faithful stewards of God's creation –

Guided by our faith, we endeavor to care for the land and livestock God has entrusted to us.

These principles are at the heart of everything we do as we work towards building a sustainable future for goat farming, one farmer at a time."

Selecting Goats at an Auction

Visual assessment is a key factor in successful goat breeding. It involves identifying favourable and unfavourable traits in individual animals that impact the overall productivity of your herd.

Selecting Goats at an Auction

Visual Assessment

Head

- Head: Strong, with large, soft brown eyes, and a calm expression.
- Nose: Slightly curved, wide nostrils
- Mouth: strong, well-formed with well fitted jaw.
- Forehead: Prominently curved, blending with the nose and horns.
- Horns: Strong, moderately long, well-spaced, gradually curving backward, round, solid, dark in color.
- Ears: Broad, smooth, medium length, hanging downward; short ears are undesirable.

Neck & Forequarters

- Neck: Moderate length, well-fleshed, well-joined to forequarter.
- Breastbone: Broad with a deep, broad brisket.
- Shoulder: Fleishy, proportionate to body, well-fitted to withers.
- Withers: Broad and well-fitted (not sharp).
- Front Legs: Medium length, proportionate to body depth, strong, well-placed.
- Pasterns: Strong joints, well-formed, dark hoofs.

Hindquarters

- Rump: Broad, long, and not too sloped.
- Buttocks: Well-fleshed, not flat.
- Thighs: Fully fleshed.
- Tail: Straight at the dock, may swing to either side.

Legs

- Strong, well-placed, not too fleshy.
- Strong legs indicate hardiness and a strong constitution, essential traits of the Kalahari Red.

Skin & Covering

- Skin: Loose, supple with chest and neck folds (especially in rams).
- Eyelids and hairless areas: Must be pigmented.
- Tail area: 75% pigmentation required for studs, 100% ideal.
- Hair: Short & glossy

Reproductive Organs

Rams

- Testicles: Large, even, with a distinct epididymis.
- Acceptable: Split of up to 5cm.
- Unacceptable: Too long, too small, too flat (no epididymis), long split, uneven or single testicles.

Does

- Udder: Well-attached, even-shaped, and properly sized teats for lambs to suckle
- This Udder: Should not hang too low or be uneven, with no tendency toward mastitis.
- Teats: Should not be calabash-shaped.

Size

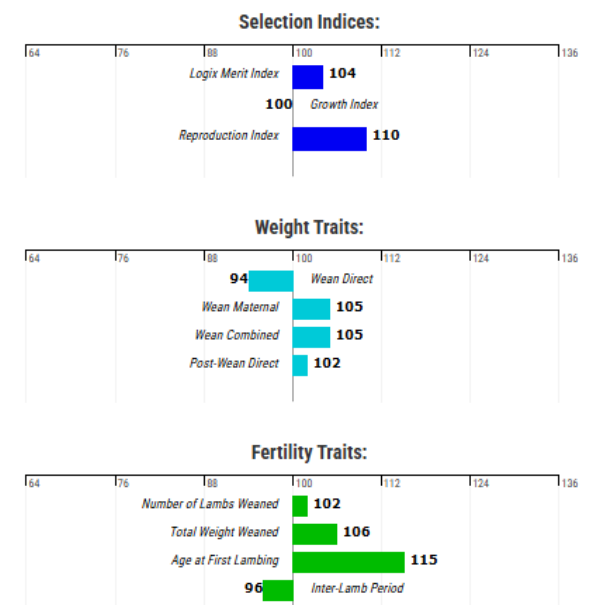

- Ideal: Average-sized, heavy goat for maximum meat production.
- Leg to body ratio: Should be balanced at all ages.

A promotional image for a goat sale. It features two goats: a brown one on the left and a grey one on the right. The brown goat is shown in profile, facing right, with a small blue tag on its ear. The grey goat is facing forward, looking slightly to the left. They are standing on a light-colored dirt or sand surface. The background is dark with faint, stylized grey text that reads 'LOT 114'.

REVIEWS

What Our Clients Have To Say

Roy Rogers Ddungu

When I visited I learn a lot about goat ranching and very helpful.

Kerlicmars Sandile Ndlovu

“ Quality genetics and healthy goats.. impressed “

Segoapa Puladishohla

For the past few months of doing research about goat farming and mentorship, I fortunately entered the redstag gate and straight into the warm hands of the entire team. The support and knowledge I get from the redstag team gave me so much hope and confidence. I don't feel lost at all.

Confidently introduced their bloodlines into my herd and they are doing exceptionally well. The team is never too busy to help and give guidance whenever one needs help. Thanks to Le Roy and Cindy for the leadership and ensuring success in this journey. Together we can feed the nation.

Mogau Makhurupetse

I cannot recommend Redstag Ranch highly enough! The commitment to excellence in goat genetics and customer service has truly transformed my breeding program. From the moment I reached out, Le Roy has been consistent with the communication.

The goats I purchased from them are exceptional, robust, healthy and their coat shines under the sun.

They exhibit outstanding conformation, hardiness, and productivity, which have already made a noticeable impact on my herds quality. The clarity of their genetic records and transparency in every transaction gave me full confidence in my investment.

What truly sets Redstag Ranch apart is their unwavering support. They are always a text away.

Thank you, Le Roy-I'll be back for future additions to my herd!
