SPANISH INTERNATIONAL SCHOOL OF LANGUAGE

ISL provides a well-rounded online language program for those children in grades K-5 that are either starting to learn a foreign language or would like to continue adding to their knowledge. Apart from the language, children will learn some culture, and traditions where the language is spoken. During this online program, students will be introduced to different topics according to the age and level of the students. Topics rotate each session; therefore, students who register for later sessions will learn something different each time. Class sizes are small and taught by native speakers who are experienced teachers of the language and culture, engaging, fun and motivating. Instructors use every moment as an opportunity to motivate students to use and practice their speaking skills. During each program we introduce a series of games and activities that develop the skills needed to learn a second language in a consistent and sequential manner.
