

No LNG Plant on Merritt Island

Please Mark Your Calendar for the Following Date:

Feb 25, 9 am: Port Canaveral Board of Commissioners meeting (**Need many residents to attend and speak to show our opposition**)
Location: 445 Challenger Rd., Cape Canaveral

Port Canaveral is considering selling 50 acres of **undeveloped, forested land** (marked with a star on map), located on Sea Ray Drive near N. Banana River Dr. to Berkshire Hathaway Energy, in partnership with Chesapeake Utilities Corp. for the construction & operation of a Liquefied Natural Gas (LNG) plant.

Site proximity:

- Less than **1/4 mile** from residential neighborhoods/several hundred homes
- Less than **1/2 mile** from Kelly Park East & West
- **1/2 mile** from Stevenson Elementary School (500 students)

This site is near sensitive natural waterways & wildlife habitat areas/restoration efforts in the Indian River Lagoon System.

Industrial LNG facilities carry fire, explosion, and pollution risks. Siting this type of facility near homes, parks, and schools raises serious public health and safety concerns. Please help protect our children & families by opposing this.
