

# Available fonts for name-plates.

Please select one of the following fonts for the name-plates. If you'd like to see what this will look like on your name-plate, please write the text you'd like in Microsoft Paint® in the upper or lower-case but without special effects (e.g., bold, underline or italics). At this time, we are limited to characters found on an English (American version) keyboard.

We will adjust the font size so that your text fits on each line (maximum of 30 characters per line which includes spaces). If the second line is short and just the date, we will make this in a slightly smaller font size than the first line unless you specify that you'd like it to be the same size.

Font's name	Sample
Arial	Chris & Pat Smith
Brush Script MT	<i>Chris &amp; Pat Smith</i>
