Banyo

BANYO  
bathroom

2023 Broşür/Brochure

Çağımızın banyoları, sadece temizlik ihtiyacımızı karşıladığımız alanlar olmaktan ötesine geçiyor. Gündelik hayatın yorucu temposu içinde dinlendiğimiz, rahatladığımız ve kendimizi yeniden bulduğumuz özel bir alana dönüşüyor. Banyolar bir yandan işlevsellikleri ve dayanıklılıklarıyla konfor sunarken, öte yandan da tasarımlarıyla estetik beğeniye sesleniyorlar. Bu anlayıştan yola çıkan Formina, değişen beklentileri banyolara artı değer katarak karşılıyor.

1998 yılında dekoratif seramik ve bordür üretimiyle işe başlayan Formina, bu girişimini 2004 yılında SPA havuzları, saunalar, COMPACT sistemler, hidro masaj sistemli küvetler, duş kabinleri, dekoratif bordürler, küvet ve duş tekneleri üretimi ile devam ettirdi. Üretim, taşıma, kurulum ve satış sonrası destek hizmetine kadar tüm süreçleri uluslararası standartlara uygun yürüten Formina, dünyada pek çok seçkin projede yer aldı.

Bugün yıllık 250.000 akrilik grubu ürünü, 45.000 duş kabini ve 12 milyon bordür üretim kapasitesi bulunan 48.000 m<sup>2</sup>'lik tesise sahip olan Formina, çoğu Avrupa'da bulunan 30'dan fazla ülkeye ihracat yapıyor.

Formina kullanıcılara sunduğu estetik ve işlevselliği birleştiren geniş ürün yelpazesıyla modern zamanların ihtiyaç ve beklentilerini aşan "artı" yaklaşımını geleceğe taşıyor.

*Today's bathrooms go beyond being the places just for our cleaning needs. They are becoming safe places, in which we rest and relax, through the exhausting tempo of everyday life. Bathrooms are expected to comfort with their functionality and durability on the one hand, and to appeal to aesthetic appreciation with their designs on the other. Formina, following this understanding, meets these changing expectations by adding a plus value to the bathrooms.*

*Having started to work in 1998 by the production of decorative ceramics and borders, Formina continued its initiation with SPA pools, saunas, compact Systems, hydro massage showers, tubs, decorative borders and shower trays in 2004. Formina, executing all process from production, transport and set up to after-sale support in terms of international standards, has taken part of many exclusive projects throughout the world.*

*Today it has a facility of 48.000 m<sup>2</sup>, which has a capacity to produce 250.000 acrylic products, 45.000 shower cabins, and 12 million borders annually; and exports its products to more than 30 countries, mostly in Europe.*

*Formina, with a wide range of products combining aesthetics and functionality, is carrying its "plus" approach that exceeds modern times' needs and expectations into future.*

## SAUNALAR / Saunas

## Genel Özellikler / General Specifications

- Ahşap yan duvarlar, tavan ve zemin / Wooden side walls, ceiling, floor

## HİDRO MASAJ/Hydro Massage

"Su masajı" anlamına gelen hidro masaj, su ve havanın terapik etkilerinin bedeni rahatlatmak için kullanıldığı bir masaj türüdür.

Hidro masaj, kan dolaşımını düzenler, kasları gevşetir ve sinir sistemi üzerinde olumlu etki gösterir. Bedensel ve ruhsal rahatlama sağladığı gibi, bedenin forma girmesine ve cildin güzelleşmesine yardımcı olur.

*Hydro massage, literally "massage with water", is a kind of massage in which the therapeutic effects of water and air are used to sooth the body.*

*Hydro massage regulates the blood circulation, relaxes the muscles and shows positive effects on nervous system. It also provides physical and mental relief; helps the body to get into shape and the skin to refine.*

- Uzaktan kumanda / Remote control
- Hidro masaj motor kontrol / Hydro massage pump control
- Blower motor kontrol / Blower pump control
- Termostat / Thermostate
- Ayarlanabilir derece / Controllable thermometer
- Hoparlör / Loudspeaker
- Hidro masaj sistemleri için bluetooth özellikli küvet kontrol sistemi / Bluetooth control system for hydro massage system
- Hidro masaj motor kontrol / Hydro massage pump control
- Blower motor kontrol / Blower pump control
- 7 renkli lamba kontrol / 7 colors spot therapy lamp control

## OPSİYONEL HİDRO MASAJ SİSTEMLERİ/ Optional Hydro Massage Systems

- 1 adet 1.1 hp motor / 1 piece 1.1 hp pump
- 6 adet yandan su jeti / 6 piece sidewater jets

- 1 adet 1.1 hp motor / 1 piece 1.1 hp pump
- 6 adet yandan su jeti / 6 pcs side water jets
- 3 adet sırt su jeti / 3 pcs water back jets

- 1 adet 1.1 hp motor / 1 piece 1.1 hp pump
- 1 adet 0,700 blower motor / 1 piece 0,700 blower pump
- 6 adet yandan su jeti / 6 pcs side water jets
- 3 adet sırt su jeti / 3 pcs water back jets
- 8 adet tabandan hava jeti / 8 pcs air jets from the base

Not: Bazı özel model ve ölçülerde hidro masaj sistemlerindeki jet sayılarında farklılıklar olabilir.  
Note: Hydro massage system jet quantities can be change for some special bathtubs.

## Formina Hidro Masaj Sistemlerini tercih etmeniz için 3 NEDEN? 3 Reasons in order to choose the Formina Hydro Massage Systems

Suyun rahatlatıcı gücünü hava ile birleştirerek vücutta dinlendirici ve canlandırıcı bir etki yaratan hidro masaj sistemleri, üstün kaliteleri ile yer aldıkları tüm Formina ürünlerinde güveni ve konforu bir arada sunmaktadır. Hydro massage systems which are combining power of water with air, and create a relaxing,refreshing effect on the body present confidence and comfort together in all Formina products with their superior quality.

**1 Koller markasının üstün kromaj kalitesi ve marka güvenilirliği, Formina ürünlerinde kullanılan hidro masaj su jetlerinin uzun ömürlü olmasına olanak sağlamaktadır.** Formina ürünlerinde kullanılan, hidro masaj sistemli küvetin yan ve sırt bölümlerinde bulunan hidro masaj jetleri Koller marka olup, ISO 9001:2015 sertifikalıdır. Avrupa standartlarında üretim yapan Koller'in hidro masaj jetlerinde kullandığı tüm malzemeler birinci sınıftır ve uzun yıllar güvenle kullanılabilir. Koller marka hidro masaj su jetleri, estetik ve minimal görünüşü ile fark yaratmaktadır. Formina Extra ve Süper hidro masaj sistemlerinde kullanılan sırt su jetleri ise yön ayarlıdır. Koller marka olan sırt su jetleri, masaj yaparken sırt bölgesinde istenilen yöne çevrilebilmektedir.

**Superior chrome plating quality and brand reliability of the Koller brand enable to hydro massage water jets used in Formina products to be long-lasting.** Koller brands hydromassage jets, which are located on the sides & back of the bathtub used in Formina products, have ISO:9011:2015 certificate. All materials used in the Koller hydro massage jet are first class..They are producing in european standards and can be used safely for many years.Koller hydromassage water jets makes differences with aesthetic and minimal appearance. The back water jets used in Formina Extra and Super Hydromassage system have changeable direction setting. The back water jets of Koller can be turned desired direction when the massaging.

**2 Gerçek masaj hissi için daha fazla hidro masaj jeti!** Hidro masaj jetlerinin kalitesi ve sayısı, hidro masaj sistemli küvetin uyum içinde ve aynı seviyede basınç yaratmasına olanak sağlamakta ve bununla doğru orantılı olarak mükemmel bir masaj keyfi yaratmaktadır. Formina hidro masaj sistemleri, piyasadaki mevcut ürünlerden 2 KAT daha fazla hidro masaj jet sayısına sahiptir. Bu durum hidro masaj sistemli küvetin her alanında eşit oranda kusursuz masaj hissi sunmaktadır. Hidro masaj sistemli tüm Formina ürünleri özenle kalite kontrolünde geçmekte, üretim aşamasında her ürün 3 gün boyunca su dolu olarak test edilmekte, su ve elektrik tesisatı kontrol edilmektedir.

**More Hydromassage jets provides more real massage feelings!** The hydromassage jet quality and quantity, enable to create hydromassage bathtub with same level of pressure and working with harmony, accordingly to live perfect massage joy. Formina hydromassage systems have twofold jets than on the present market products. This situation offers a perfect massage feeling equally all areas in the hydromassage bathtub. All of the Formina hydromassage system products are carefully checked for quality, every product is filled with water during 3 days in the production stage, checked the electricity and water connection.

**3 Formina Blower(hava) jetleri küvetin tabanında yer alan uzun ömürlü ve özel tasarım alüminyum metal jetlerdir.** Hidro masaj sistemli küvetlerde zamanla ürünün kullanımına bağlı olarak, plastik blower(hava) jetlerinde oluşması mümkün olan su sızıntısı, Formina Blower(hava) jetlerinin metal olmasından dolayı yaşanmamaktadır. Sıcak ve soğuk üfleme sonucu plastik hammaddelerde genleşme oluşmakta, ürün deformasyona uğrayıp zamanla kullanılamaz duruma gelmekte ve su sızıntısına yol açmaktadır. Özel tasarım Formina blower(hava) jetleri metal alüminyum hammadde ile üretildiğinden dolayı böyle bir deformasyon söz konusu değildir. Aynı zamanda hidro masaj sistemli küvetin blower(hava) jetlerinin metal alüminyumdan üretiliyor olması, taşıma ve elleçleme esnasına bir deformasyon(blower jetlerinin kırılması) ihtimalini de ortadan kaldırmaktadır.

**Formina Blower(air) jets where are on the base of the tub have special designed long-lasting metal jets** Possible to live water leakage in plastic blower (air) jets depending on use; this is not occur in Formina blower (air) jets thanks to the raw material is metal. Result of hot and cold blowing occur expansion in the plastic blower (air) jets, the product undergoes deformation, accordingly to being unserviceable during the time and occur a water leakage. Formina blower(air) jets are produced with metal-aluminum raw material, therefore there is no such deformation. At the same time, there is no possibility of any deformation or damage during transportation thanks to the hydro-massage bath jets, metal-aluminum structure.
