

PROJECT
Forevermore

MAKING DISCIPLES... **FOREVERMORE**

Eternity Chapel's mission has always been about driving Salvation acceptances, creating worldwide community, and most importantly, *making disciples of Jesus Christ*.

This Summer, Horizon Worlds, Eternity Chapel's home platform, will be closing its doors to VR devices, and switching to a mobile-only model. This news has already shuttered several online meeting spaces and businesses, as they look to other resources to continue their operations.

But for the congregation of Eternity Chapel, this presents a unique opportunity...

PROJECT *Forevermore*

Project Forevermore is not only Eternity Chapel's answer to the impending shutdown of VR's top platform, but it is also an expansion into the homes, cellphones, and even SmartTVs of future churchgoers **worldwide**.

Help us impact homes in a daring new way—bringing church directly to the lost, availing meaningful and lifelong fellowship at the click of a button, with no need to own expensive or exclusive equipment.

Already, Eternity Chapel has seen 8,000 guests, 300 services, and countless salvation responses.

Help us continue to drive those numbers forward, making disciples...*forevermore*.

GLOBAL. **CHURCH.** FAMILY.

WHAT WE **NEED.**

Owning our very own app will mean running our own servers, which means monthly overhead. Project Forevermore will also have an ongoing need for developer staff and bug fixes. If the following 3 benchmarks can be supported, we have a sustainable online ministry:

SERVER OVERHEAD

AVATAR SUPPORT

DEVELOPER

STAFFING COSTS

Below are estimations of what each support bracket will cost our Foundation on a monthly basis:

AWS Server Rental: \$4,000/mo

FaceSync™ Avatar System: \$800/mo

Developer Staff: \$2,400/mo

Already, tests of Project Forevermore are blowing away congregants and onlookers alike, with a scenic canyon environment and brand new avatars, availing a user the ability to scan-in their *own face* into the simulation, allowing for more personal and authentic connection and fellowship.

You or your ministry's generous donation brings Eternity Chapel's "Church Anywhere" mission one step closer to reality.

GLOBAL. CHURCH. FAMILY.

WHERE WE'RE
GOING.

The mission is simple...*hit 'em all.*

For starters, we will be developing for the following platforms:

**XBOX • PLAYSTATION
NINTENDO SWITCH
CELLPHONES • TABLETS
SMART TV • DESKTOP**

...AND VR DEVICES.

It's church, limited only by the reach of a wifi signal. Already, Eternity Chapel has impacted homes in Australia, Korea, Canada, the United Kingdom, and all over America.

With services spanning between morning and evening gatherings, Bible Studies and Worship Events, Eternity Chapel has become an all-inclusive church fellowship for people of several nationalities and locations around the globe.

Join our mission, and make it even easier for anyone to become a part of a thriving Global Church Family.

GLOBAL. **CHURCH.** FAMILY.
