

LINDSAY EWING

GLOBAL IT LEADER

PROFESSIONAL PROFILE

Uniquely experienced, results oriented, technology strategist, and creative IT executive with proven ability to deliver business capabilities through holistic, servant leadership. Digital transformation catalyst for developing forward-looking plans, embracing new technologies, and designing architectural models to increase business agility and manage complexity within existing/legacy environments. Adept at building and managing effective, high performance, cross-functional, fusion teams to achieve business goals. Elevated operational focus on providing stable and reliable environments, pro-actively planning for business continuity, centering on compliance and security.

PERSONAL VALUES

My primary personal values are integrity, community, and openness. I adhere to these strong ethical values in both my career and family life to achieve personal and professional happiness and success

My experiences have contributed to my ability to remain level-headed and adaptable to situations, while creating solutions for short-term crises and long-term strategies

A seasoned global traveller with dual UK & US citizenship, I have lived and worked in many different countries and experienced many cultures. I embrace and celebrate diversity, and support the differences

My hobbies include strategy board gaming, volunteering for a local community non-profit, and home improvement projects

CORE SKILLS
