

## **CALCIFIED**

**Epoxide dioxide trioxide**

**Not getting enough iodide**

**Humans are almost calcified**

**Forever locked with formaldehyde**

**All being polluted by carbon monoxide**

**Too many locked in homicide**

**Pained by all the tears they've cried**

**None gone only dried**

**Cause love was crucified**

**About time some were disqualified**

**Too many kids taking a joyride**

**Governments wait until it's all declassified**

**But people power no mountains can divide**

**Crowds will become electrified**

**Movies won't be denied**

**Like water and oil colours will become emulsified**

**They'll start to condemn infanticide**

**Evil they will treat with fungicide**

**Till then it's glory days by the fireside**

**And God will be forever glorified**
