

## **CAN THE CRAP**

**Some politicians just don't care  
They don't even want to share  
They shouldn't wonder why kids turn to drugs  
When they themselves are just like thugs  
I ain't got no car tax  
Don't look at me the system is lax  
It's only a hundred pound fine  
And I won't be doing no time  
Thank you  
They say stealing's a crime  
But even the kids are all doing fine  
Shoplifting helping out mum  
What they need's a smack on the bum  
We know smoking's a leading cause of death  
But no one listens waste of breath  
Cannabis rotting away many a brain  
Politicians wanting to legalize  
They the ones gotta be insane  
Drugged drivers keep knocking down poles  
Now our pockets all got holes  
Too many children being abused  
Too many parents hung up on booze  
Men and women are being raped  
Too many culprits being excused  
Time for the punishment to fit the crime  
Or don't politicians give a dime  
It's time for us all to Can the Crap**

**Pat ourselves on the back go clap clap clap**

**If not what's to become of me**

**Guess they'll just have to tell future generations**

**That the world was too blind to see**
