

DAISIES & POMS

Also known as Chrysanthemum flowers. They flowers have large blooms that are ideal as a focal or an accent flower.

Daisies and Poms are a spray flower, meaning that they have more than one bloom on a single stem.

Cut the stems 1-2 inches and immediately place in a deep vase with water.

Remove any foliage that would fall below the waterline. Leaves below the waterline may cause bacteria to form, shortening the life of your flowers.

Display your fresh cut arrangement in a cool dry place away from direct sunlight and drafts. Mums are thirsty flowers requiring

the vase to be filled with plenty of water at all times.

Stems Lengths	50 - 60 cm / 20 - 24 in apx
Bloom Sizes	1.5 - 5 cm / 0.5 - 2 in apx
Vase Life	Average vase life with proper care and handling, approximately 8 days.
Seasonal	Year Round
Special Notes	The exact color tones of this flower may vary to some degree.

3-4 inch
