

ERYNGIUM

Upon arrival, have clean buckets filled with water ready for your stems.

Take them out of the box and cut the stems approximately 1-2 inches. Remove any foliage that will fall below the water line and place in buckets for rehydration.

Re-cut and freshen up the water every 2-3 days to prolong the life of your blooms.

Stems Lengths	50 cm / 20 in
Vase Life	Average vase life with proper care and handling, approximately 10 to 12 days.
Seasonal	Year Round
Special Notes	Usually in Blue or Green Shades. Eryngium will not loose its intense colors after days in vase
