

GARLANDS

The garland will arrive dry and rolled in a box. Upon arrival, inspect the garland and mist with fresh cool water. Keep the garland in a cool place until needed. Mist the garland twice daily and once again before using them for decorations. It is not recommended to make multiple cuts in the garlands as this will cause the structure to weaken. Garlands also may tend to shed. This is a normal process. Leave shapes, sizes and color may vary depending on the time of the year.

Length	10, 25 or 75 feet
Width	Average Garland Width: 10 - 15 cm / 4 - 6 in
Vase Life	Garlands last an average of 5 days, depending on care and handling.
Seasonal	Some of the items used in garlands are seasonal products. Therefore, availibitliy may vary.
Special Notes	We do not recommend cutting the garlands, this could result in unraveling or weakening of the structure.
