

GYPSOPHILA

Also known as Baby's Breath will keep fresh for a couple of weeks with proper care and handling.

Although the stems need to be placed in clean, fresh water, the little blooms should not get wet. Please keep Baby's Breath in a cool environment for best results.

Stems Lengths	55 - 70 cm / 22 to 27 in
Vase Life	Average vase life with proper care and handling, approximately 7 to 10 days.
Seasonal	Year Round
Special Notes	250 grams per bunch / Approximately 7-10 stems per bunch.

3-4 inch
