

HYDRANGEAS

Hydrangeas are very thirsty flowers. During the shipping process hydrangeas will have a small hydration bag attached.

Cut the stem at a diagonal, right above the hydration bag (about 1 inch from the bottom). Place them in water filled containers for proper hydration. After re-hydration, if the blooms still appear droopy, please submerge the head of the hydrangea in water, lightly shake off the water. You may also use a spray bottle to moisturize the heads without dunking them.

PLEASE DO NOT DUNK PAINTED HYDRANGEA BLOOMS IN WATER. THE PAINT WILL RUN.

Keep hydrated hydrangeas in a cool environment away from direct sunlight.

Stems Lengths	60 cm / 24 in
Bloom Sizes	MINI: 7.8cm / 3.1 in SELECT: 16 cm / 6.1 in PREMIUM: 18 cm / 7.1 in JUMBO: 23 cm / 9.1 in
Vase Life	Average vase life with proper care and handling, approximately 8 days.
Seasonal	Year Round
Special Notes	shipped with water bags attached to each stem to keep the flower hydrated
