TAKE AWAYS

1

Only order prebuilt houses. Assembling a gingerbread house is tricky business. Only buy ones that are already assembled (use our links as a resource). This will put more emphasis on the fun part of the event – creative

2

Have the candy sorted out in preassembled portions so they are ready for the kids when the activity begins. This will help the event flow and keep things organized!

3

As always, the music made the event so fun. Find a creative holiday station or make a playlist in advance. The holiday music really added special magic.

IMPROVEMENTS

1

Make sure to order the prebuilt houses far in advance- these are hard to get during the holiday season and it can be challenging to get in bulk

2

Have plenty of liners over the table! This is a very fun, but messy activity!

3

Make sure you allow enough time for set up. Setting up this event will take more time than other events because organizing the trays with the different candies takes time.
