I just received your letter today. I was rather surprised that you even took the time to write. I am not in a regular housing place here at the aci. I am in the newly remodel Phillip Penick building. It is like a boys camp compared to the rest of the living condition around the prison. I am alone in a room with one other guy - where as in all the other rooms have 4-6 men in them. Over in the other building, guys have to bunk in the modular eating area. My roommate is in for (what the police say) selling L.S.O. to a minor. Well tomorrow Thursday the 20th, I am to reappear in court. If you don't show up to testify, they will drop the charges.

But I will have to wait until the first of November to have the superior court hold drop. If you show up and testify against me I will probably be looking at about 1-2 years, which means I'll be getting out in about 18 months.

if you don't show up someone from the public defender's office will come by to see you to ask of your intention. Meaning are you going to court against me or just sign a piece of paper for a withdrawal of complaint. It is your choice see me in about a month or in two years. The has to be done, either I am in jail or out, it is up to you now. You wouldn't believe who they brought into the mode. Billy the kid, the one who lives upstairs from you. Do you remember the guy they called Big John from the Ymca the one who said Henry Card was his best man at his wedding he is here too. (Billy just got here today) John's been here four days. If you chose to write me my address is Harry J. Mariano Intake Service Annex P.O. Box. 8249 Conston R.I. 02920

Well I am going off to Wonderland, a home, and just a make believe place - sleep.

Love your husband Scarry man.
