

Navien high efficiency

**tankless**

water heaters...

the ultimate

**hot water**

solution

- Industry leading energy efficiency
- Endless hot water supply
- Lower energy bills

**KD Navien®**

Always a step ahead

# Navien makes it easy to go tankless

## Endless hot water when you want it

Navien tankless water heaters deliver a continuous flow of hot water for as long as you need it. There's no waiting for a storage tank to warm up.

## No "shower shock" effect

Navien NPE-A models have the built-in ComfortFlow® system which eliminates a sudden blast of cold water during your hot shower, also known as "shower shock" cold water sandwich. This issue is common on many competitor's tankless water heaters.

## Compact design saves space

The Navien NPE Series sleek, wall-mounted tankless water heaters occupy 80% less space than traditional 50 gallon tank water heaters. These compact tankless units can also be installed in cabinets or small closets unlike bulky tank water heaters.

# Bulky tank water heaters are history... Navien tankless is the future

## Traditional tank

- Tanks run out of hot water during heavy demand
- A standard 50 gallon tank water heater may take up to 16 square feet of floor space
- Even when hot water is not required, the tank is being heated
- Tanks are approximately 30% less efficient than tankless
- 6-9 year warranty and an expected lifespan of 10-15 years

VS

## Navien tankless

- Endless hot water when you want it
- No cold water sandwich effect
- Compact space saving design
- Lower energy bills
- Longer life than tanks
- 15 year warranty dual stainless steel heat exchangers

## ComfortFlow®

Built-in recirculation system, standard on all Navien NPE-A models.

# Enjoy limitless comfort

## ComfortFlow® recirculates hot water through supply lines, eliminating wait time for hot water

# Navien makes it easy to go **tankless**

## Lower energy bills, easier on the planet

Navien tankless	175 therms	\$165*
Other tankless	209 therms	\$200*
Standard tank	269 therms	\$272*

Unlike systems that waste energy to heat large tanks of water, Navien tankless units utilize .98¢ of every \$1 to heat your water. Unlike a conventional tank system, it only fires up when hot water is needed allowing great utility savings and a lower impact on the environment. What's more, Navien tankless heaters reduce CO<sub>2</sub> output by ~1,216.8 lbs.\*\* per year compared to traditional tank type heaters.

Navien NPE-Series tankless water heaters are the most efficient according to the EPA Energy Star Directory.

\*Based on Energy Guide cost estimates using \$1.09 per therm of natural gas. Cost is in US dollars.

# Proven **practical** luxury

## Longer life, best warranty

Navien was first to offer dual stainless steel heat exchangers, which resist corrosion better than copper. Navien's advanced technology and superior craftsmanship assure that your tankless water heater will provide years of trouble-free service with a longer life expectancy (up to 2 times) than a standard tank water heater. For added peace of mind, we offer the industry's strongest warranty.

Application		Labor	Parts	Heat exchanger
Residential	Standard or controlled recirculation	1 year	5 years	15 years
	Uncontrolled recirculation	1 year	3 years	5 years
Commercial or Combi*	Standard or controlled recirculation	1 year	5 years	8 years
	Uncontrolled recirculation	1 year	3 years	3 years

\*Combi refers to a combination potable water and space heating application. Water heaters cannot be used in space heating only applications.
