Packaging

The PITT® cooking system is manufactured using sustainable materials.
The packaging is recyclable and consists of the following types of materials:

- paperboard
- paper

These materials are in accordance with the provisions of Government to be disposed of in a responsible manner. The packaging of this product is equipped with a sticker with the image of a crossed-out dustbin (see Figure 9).

afb. 9

The directive on waste electrical and electronic equipment (WEEE) of the European Union. The WEEE directive of the European Union requires that products that are sold in the countries of the EU (or in some cases the packaging thereof) must be labelled with a crossed-out dustbin. As determined by the WEEE directive, this means label with the crossed-out dustbin that customers and end users in the countries of the EU electrical and electronic equipment or accessories not with the garbage may dispose. Customers and end users within the EU should contact their local supplier or maintenance centre for information about the waste collection system in their municipality.
