- ❖ **Inspect and Copy.** You have the right to review and/or receive a copy of the information in your record. Under certain limited circumstances, we may have to deny your request. If we deny your request, you may ask for a review by contacting the MASTERPEACE Counseling Privacy Officer of the Office of Recipient Rights.

How we will use and disclose your protected health information:

Uses and Disclosures that may be made for Treatment, Payment, and Healthcare Operations

- ❖ **For Treatment.** We may use and disclose your protected health information to provide, coordinate, and manage your care and services. Information about you may be shared with MASTERPEACE Counseling Staff, who may be involved in your care or services. This information will be shared on a “need to know” basis. For example, a staff person may need to speak with his or her supervisor or with your psychiatrist or physician about the services that you are receiving. When contacting a physician your permission to release the information is required.

We also may use your health information in order to remind you about an appointment at MASTERPEACE Counseling or to provide information about treatment alternatives or other health-related benefits and services that may be of interest to you.

Business Associates: There are some services such as billing and insurance services provided through contacts with “business associates”. We may need to share information about you with our “business associate” in order to coordinate and manage your services. To protect the privacy of your health information, “business associates” are required to abide by all aspects of this Notice of Privacy Practices.

- ❖ **For Payment.** Your protected health information will be used and disclosed, as needed, to obtain payment for your services. For example, a bill for services sent to you or to a third-party payer such as Medicaid, might include identifying information about you such as your name, your diagnosis, and services received.
- ❖ **For Healthcare Operation.** We will use or disclose, as needed, your protected health information to support and improve the activities of MASTERPEACE Counseling. For example, MASTERPEACE Counseling staff may use information in your clinical record to evaluate the care that you received. This information would then be used in efforts to improve the quality and effectiveness of services provided by MASTERPEACE Counseling. This information would be used for statistical purposes only, without identifying names.
- ❖ **Reasons for Office Contacts.** We may use or disclose your health information to provide you with billing information, appointment changes, closing evaluation letter, or return of resource materials.

Uses and Disclosures that may be made only with your specific authorization

- ❖ Other uses and disclosures of your protected health information will be made only with your specific written authorization, unless otherwise permitted, or required by law as described below. For example, your written authorization would be required for us to share your confidential information with a member of your family or with your family doctor except in circumstances specified in this notice. You may revoke this authorization at any time, in writing, except to the extent that we have already taken an action to use or disclose your information, relying upon our authorization.

Uses and Disclosures that may be made without your authorization

- ❖ **As Required by Law.** We may be required by federal, state, or local law to disclose your protected health information. For example, if you have threatened to harm another person, we may be required to notify the local police department and the threatened person.
- ❖ **For Public Health Activities.** We may need to disclose your protected health information to a public health authority that is required by law to receive the information. Such disclosures would be made for the purpose of controlling disease, injury, or disability. For example, a disclosure regarding HIV/AIDS status would be made to the local Department of Public Health if necessary to protect the health of an individual, diagnose and care for the mental health consumer, or to prevent further transmission of the virus.
