

ONE LOGIC SOURCE

INTELLIGENCE SERVICES

Position: Intelligence Analyst (1099 Independent Contractor)

Company: One Logic Source

Location: Remote (Preferably in Kentucky or Ohio)

Hours: Full Time

Compensation: \$45,000 - \$48,000 Annually (No Benefits)

About One Logic Source

One Logic Source is a private investigation firm providing top tier investigation and intelligence solutions across multiple sectors. We operate with a high standard of excellence and are proud to be the gold standard in our field.

The Role

We're seeking an Intelligence Analyst to turn complex data into clear, action-ready insights. You'll support clients with open-source intelligence (OSINT), social-media/threat monitoring, and strategic research to provide situational awareness concerning threats to people, property, organizations and reputation.

What You'll Do

- **OSINT & Social Media:** Collect, verify, and preserve open-source data across platforms; monitor threat indicators; archive

with defensible methods (screenshots, metadata, hashes, URLs, capture timestamps).

- **Data & Link Analysis:** Map relationships, events, and communications
- **Threat & Risk Briefs:** Draft concise situation reports/daily briefings and intelligence summaries with key judgments, confidence levels, and source evaluation.
- **Work Product:** Deliver polished memos, visual aids, reports and alerts.
- **Presentation:** Provide monthly intelligence briefings to stakeholders in person or via video conference.

Required Qualifications

- Demonstrated experience in **intelligence analysis, investigations and OSINT**.
- Strong writing: ability to clearly articulate threats and write concise analysis products.
- Proficiency with common OSINT workflows (advanced search operators, archive services, metadata capture, social-graphing basics).
- Comfortable handling sensitive material; impeccable discretion and chain-of-custody discipline.
- **Availability** to hit deadlines and handle urgent turnarounds

Preferred (Nice to Have)

- Familiarity with geolocation context, and mapping tools (Google Earth, QGIS basics).
- Exposure to tools such as Everbridge, Digitalstakeout, IRB Search and more.
- Background in Intelligence Analysis

Compliance & Security

- Willing to sign NDA and confidentiality agreement.

- Pass background check as requested by OLS or clients.
- Use secure storage and encrypted communications per OLS policy.
- Contractor maintains own equipment, software, and cyber hygiene.

Logistics

- **Location:** Remote within the U.S.; preference for Kentucky/Ohio time zones. Limited travel may be requested but is not typical for this role.
- **Engagement:** 1099 contractor; contractor provides own tools, insurance, and taxes. No promise of hours; workload varies by caseload.

How to Apply

Send the following to justin.vincent@onelogicsource.com with subject line “**Intelligence Analyst – Contractor**”:

1. Resume/CV
2. Cover Letter
3. Two brief writing samples (redacted if necessary)
