

Are you ready for an art expedition? Let the wonder and beauty of the animal kingdom inspire your empathy, curiosity, and creativity. Learn about lions, elephants, sharks and more, and find out how wildlife conservationists are working to protect species around the globe. Experiment with a variety of art techniques, and use Crayola® products to create animal-inspired art projects, from frog paintings to polar bear sculptures! Let your creativity run wild, and bring your handiwork home to build a menagerie of animal-themed masterpieces.

Class Themes

Elephants

Let's get inspired by elephants, the largest land mammals on Earth! We will learn techniques to paint a sunset background, and layer on dark silhouettes of elephants and trees.

Frogs

Frogs come in many colors and patterns. Some are bold and some are camouflaged. Let's find out more about these amphibians, and use a special technique to paint speckled, watercolor frogs.

Jellyfish

Jellyfish dance and drift through the water, and are found in every ocean on Earth! But what exactly are they? Let's dive in and learn about these mysterious creatures of the deep. We'll create colorful, mixed media hanging jellyfishes using a special ink diffusion technique.

Lions

Lions are majestic animals, and fearsome predators. It's no wonder a group of them is called a "pride"! Let's learn how to create our own lion sculptures, and design savannah habitat dioramas for them to live in.

Polar Bears

Polar bears are amazing animals that face many threats to their survival. Let's imagine what life is like for them in the Arctic. We'll sculpt our polar bears on an ice floe using clay. Then we'll mix paints and mixing mediums to create the effects of fur and ice.

Sharks and Fishes

The streamlined shapes of sharks and fishes are perfect for living in the water. We can use simple shapes to draw sharks and fishes in a coral reef. Then we will add watercolor paint to create a colorful scene under the sea.

Snakes

Snakes are fascinating and often misunderstood reptiles. Their skin has a unique texture, and they come in a wide range of patterns and colors. Let's design our own three-dimensional, patterned snakes to take home.

Turtles and Tortoises

From sleek sea turtles to sturdy, land-based tortoises, turtles come in many shapes and sizes, and can be found in many different habitats. We'll start by sculpting a coil to make the shell, and we'll add extra pieces and colors to make our own turtle sculptures.

Registration: (516) 465 - 4076

108 Rockaway Avenue,
Garden City, NY 11530

Please bring payment to the
Dept. of Parks and Rec. Office.
