eLearning has become the future of education

Covid-19 coronavirus has created an unprecedented opportunity, to move from conventional education (the way as we all know it), to a new norm where eLearning has moved education to home for learners to learn on their own how to be.

It is no longer about making learning happen (the conventional), it is about letting it happen (the eLearning)

With most institutions being challenged to transform NOW to eLearning, we find ourselves at Identity Branding Forum willing, ready and able to help jump-start institutions to eLearning.

In 2004 we were the first that introduced to the region the ecosystem of eLearning University, developed and delivered by experts out of the United States of America – based on innovative learning methodologies supported by accreditation standards.
