

Nitrile Powder-Free Gloves

Available Sizes: XS - S - M - L - XL

These nitrile medical gloves are non-sterile and come in blue. Designed for ambidextrous use, they are supplied in a box of 100 units.

Powder-Free

The powder-free design minimizes the risk of allergic reactions, dermatitis, and contamination during medical procedures.

Tear-Resistant

Engineered to provide superior durability and resistance to tearing, ensuring reliability in clinical environments.

Enhanced Grip

The textured outer surface and micro-rough fingertips offer exceptional tactile sensitivity and grip, enhancing precision and control during use.

Optimal Fit and Comfort

The polymer-coated inner surface allows for easy donning, ensuring a secure yet comfortable fit even during extended use.

Intended for Medical and Dental Use

Certified for both medical and dental applications.

Quality Standards:

- AQL: ≤ 1.5
- CE Classification: Class I medical device
- PPE Category: III, 3.5g weight
