

Healthium: The Tattoo Artist's Gloves

MedPharmCareer.com
Authorized Supplier

Superior Protection: Healthium Tattoo Artist Gloves are designed to provide excellent barrier protection against inks, blood, and other fluids, ensuring the safety of both the artist and the client.

Enhanced Grip: These gloves often feature textured fingertips, providing a better grip on tattoo machines and equipment, which helps maintain precision during intricate tattoo work.

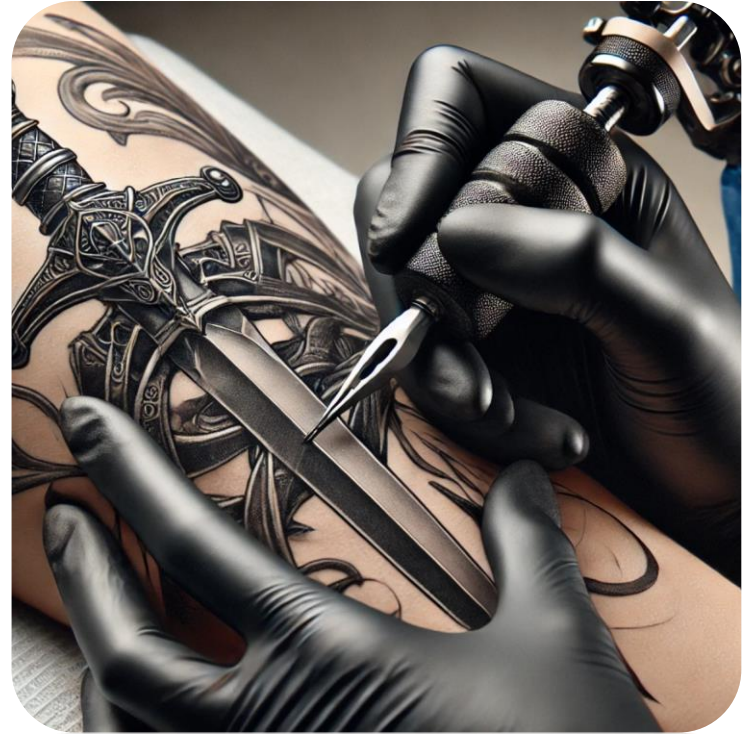

Comfort and Fit: Healthium gloves are designed with the comfort of the tattoo artist in mind, offering a snug fit that reduces hand fatigue during long sessions without compromising flexibility.

High-Quality Material: Made from premium materials like nitrile, Healthium gloves are latex-free, reducing the risk of allergic reactions and providing a more durable alternative to traditional latex gloves.

Puncture Resistant: The gloves are highly resistant to punctures, reducing the risk of tears during tattooing, which is crucial for maintaining hygiene standards.

Excellent Sensitivity: Healthium Tattoo Artist Gloves offer great tactile sensitivity, allowing artists to feel the skin and equipment better, which is essential for precise and detailed work.

Hygiene Assurance: These gloves meet or exceed international standards for medical gloves, ensuring that they provide a sterile and safe environment, which is critical in a tattoo studio setting.

Available in Multiple Sizes: To accommodate different hand sizes, Healthium offers a variety of glove sizes, ensuring that every artist can find a perfect fit, which is important for maintaining comfort and control during tattoo sessions.

Preventing Infections

Gloves are essential in tattoo studios because they provide a critical barrier that prevents infections, cross-contamination, and the spread of bloodborne pathogens like hepatitis and HIV. By meeting international medical standards, gloves ensure a secure environment, protecting both the client and the artist from exposure to bodily fluids, inks, and contaminated equipment.

Healthium® Black Nitrile Gloves Powder-Free

- **Available sizes:** XS - S - M - L - XL
- Non-sterile black nitrile medical gloves. Ambidextrous. Box of 100 pieces.
