

PAR-Q Health Questionnaire

Name Text

Date Text DD/MM/YY

Regular physical activity is fun and healthy, and increasingly more people are starting to become more active every day. Being more active is very safe for most people. However, some people should check with their doctor before they start becoming much more physically active.

If you are planning to become much more physically active than you are now, start by answering the seven questions in the box below. If you are between the ages of 18 and 59, the PAR-Q will tell you if you should check with your doctor before you start. If you are over 59 years of age, and you are not used to being very active, check with your doctor. Common sense is your best guide when you answer these questions. Please read the questions carefully and answer each one honestly: **CLICK YES or NO.**

1. **Has your doctor ever said that you have a heart condition and that you should only do physical activity recommended by a doctor?** YES NO
2. **Do you feel pain in your chest when you do physical activity?** YES NO
3. **In the past month, have you had chest pain when you were not doing physical activity?** YES NO
4. **Do you lose your balance because of dizziness or do you ever lose consciousness?** YES NO
5. **Do you have a bone or joint problem (for example, back, knee or hip) that could be made worse by a change in your physical activity?** YES NO
6. **Is your doctor currently prescribing drugs (for example, water pills) for your blood pressure or heart condition?** YES NO
7. **Do you know of any other reason why you should not do physical activity?** YES NO

If you answered YES to one or more questions Talk with your doctor by phone or in person **BEFORE** you start becoming much more physically active or **BEFORE** you have a fitness appraisal. Tell your doctor about the PAR-Q and which questions you answered **YES**.

• You may be able to do any activity you want — as long as you start slowly and build up gradually. Or, you may need to restrict your activities to those which are safe for you. Talk with your doctor about the kinds of activities you wish to participate in and follow his/her advice.

If you answered NO to all questions If you answered **NO** honestly to all PAR-Q questions, you can be reasonably sure that you can: start becoming much more physically active – begin slowly and build up gradually. This is the safest and easiest way to go. take part in a fitness appraisal – this is an excellent way to determine your basic fitness so that you can plan the best way for you to live actively. It is also highly recommended that you have your blood pressure evaluated. If your reading is over 144/94, talk with your doctor before you start becoming much more physically active.

PLEASE NOTE: If your health changes so that you then answer YES to any of the above questions, tell your fitness or health professional. Ask whether you should change your physical activity plan.

I have read, understood and completed this questionnaire. Any questions I had were answered to my full satisfaction. Note: This physical activity clearance is valid for a maximum of 12 months from the date it is completed and becomes invalid if your condition changes so that you would answer YES to any of the seven questions.
