

Welcome to your new, healthier self with nutraMetrix® GoTrim™ Slim!

◆ Powered by Slendacor®†

What is Slendacor? Clinically studied and patented ingredient blend of Curcuma longa, Murraya koenigii and Moringa oleifera.

◆ With three clinical studies on Slendacor, the results are in!

Not only does Slendacor assist your metabolism – both in and outside the gym, but it also kickstarts your cardiometabolic health by supporting healthy lipids and lean body mass.

Slendacor is a validated companion for your weight loss journey, providing support when combined with a healthy diet and regular exercise.

Clinically shown to support weight loss and help reshape the body. The key findings of clinical studies on Slendacor demonstrate that it helped to:

- ◆ Maintain normal blood lipid profiles and healthy blood glucose levels in both men and women.
- ◆ Influence the accumulation of fat in fat cells (lipogenesis) and promote the breakdown of fat cells (lipolysis).
- ◆ Promote a reduction in BMI, including improvements in waist and hip ratio.
- ◆ Slendacor shows non-stimulant thermogenesis, meaning it may increase your resting metabolic rate (RMR), leading to burning more calories at rest.
