Dear xxxxxxxx,

I am looking to secure a challenging and exciting new position within a fast-moving and innovative environment, where I might have the opportunity to progress and develop my skills. I enclose my Curriculum Vitae for your consideration.

I am a graduate in Economics and have recently completed a master's degree in New Technologies and International Markets Economics. I possess a breadth of experience within applied statistics and econometrics, with excellent skills in the management of large datasets and a specialist interest in social network analysis.

My communication and interpersonal skills are of a very high quality; I am diplomatic and good humoured, maintaining a positive and supportive attitude with the ability to achieve desired results. I work well under pressure and excel in the gathering and analysing raw market or industry data in order to develop strategic direction.

I am confident my experience and abilities would provide a positive influence within a forward-thinking organisation such as yours.

I would welcome the opportunity to discuss my interest further; should you require any further information please do not hesitate to contact me.

Yours sincerely

**Enzo Sazio**
