Our committee members take on the groundwork of our advocacy work as they unite, brainstorm, plan, and execute all the projects/initiatives organized by SDYA.

Each one of our committees is dedicated to a specific social justice issue. Join a current standing team or bring a new issue to the table and start a new committee!

Committee members are required to show up to their committee's monthly meetings (virtual) and they are responsible for communicating with their leader if they are expecting to be absent from a meeting.

Individuals can be a member of multiple committees. They will be expected to attend the monthly meetings of each committee they are a member of.
