

Greeting cards
- Catalogue 2024 -

We create artwork using shades of vibrant colours to attempt to express the impressiveness of forests and oceans on greetings cards.

I am a person who enjoys nature, therefore our aim is to make it possible for people to enjoy its captivating beauty.

Most of our images are digital art, but we also have a selected few cards with images reproduced from original paintings by a professional artist.

The format is double A5 folded with 300g/m². Every card carries the title of the artwork, and the name of the artist or designer.

The image is printed on the front page which is glossy, the inside is matt, and has been left blank for personalized messages.

In an effort to minimize our impact on the environment we print on FSC certified paper, and our cards come in transparent envelopes, made from eco-friendly bioplastic PLA.

The cards are produced in Switzerland
