

Leadership and Advisory Team

Plains Preparatory Institute is supported by dedicated professionals who bring expertise from higher education, technology, community leadership, and innovative educational programming.

Dr. Tim Bowser

University Liaison

Dr. Bowser helps build partnerships between Plains Preparatory Institute and colleges, universities, research organizations, and industry leaders. His guidance supports opportunities for advanced learning, academic collaboration, and career preparation for our students.

Megan Holden

Community Representative

Megan Holden serves as a bridge between Plains Preparatory Institute and the communities we serve. She helps strengthen relationships with families, local organizations, businesses, and community stakeholders while ensuring PPI remains responsive to regional needs and opportunities.

Ben Smith

Technology Expert

Ben Smith provides leadership and guidance regarding educational technology, digital infrastructure, cybersecurity awareness, and emerging innovations. His expertise helps ensure that PPI students have access to the tools and resources necessary to thrive in a modern learning environment while preparing them for technology-focused careers.

Steve Eno

Educational Programs Coordinator

Steve Eno brings extensive experience in STEM education and artificial intelligence integration. He helps develop innovative, hands-on learning experiences that prepare students for careers in science, technology, engineering, agriculture, and other rapidly evolving fields. His work supports PPI's commitment to providing students with real-world skills and exposure to emerging technologies.

Through the leadership and expertise of our advisory team, Plains Preparatory Institute continues to build an educational environment that prepares young men for success in college, careers, and lifelong leadership.
