

Environmental Policy

Friends of Rhyddings Park is a Not for Profit Community organisation which is working to protect the environment, improve local facilities and communities. Friends of Rhyddings Park is committed to reducing its environmental impact and to improve its performance through the following measures:

Encourage responsibility for the environment through raising the awareness of volunteers, partner organisations and the public.

- Monitor and evaluate the environmental impact of all practices and processes and constantly seek improvement.
- Minimise the production of waste and monitor its disposal.
- Reduce paper usage where possible – all our members are usually contacted by email only.
- Monitor and manage energy and water use.
- Prioritise the use of sustainable and local materials and supplies.
- Promote projects that have minimum impact on the environment.
- Use public transport, bicycles and car-share where feasible.
- Advise and educate the public and other organisations on waste minimisation, recycling, reuse and composting.

On behalf of Friends of Rhyddings Park
