Subject: NOTICE TO CCOA PERMIT USERS

As you know, some maintenance on the Cardiff Fork Road was recently performed. While the actual work performed was within the authorization of our reciprocal permit with the Forest Service, some mechanized work (jackhammer attachment to a bobcat) occurred. All mechanized work/heavy equipment use requires pre-approval by the forest service and they did not give such prior authorization. This has caused some concern by the Forest Service, and our permit is currently in review.

Therefore, in an effort to prevent any more adverse considerations at this time, I am imposing an administrative moratorium on all Cardiff Fork Road maintenance activity.

This moratorium is in effect until further notice. Please refrain from any and all road maintenance related activities under the special use permit and associated operation and maintenance plan. Thank you in advance for your cooperation in this important matter.

Wayne Crawford, President
Cardiff Canyon Owners Association
