

Full Service Fabrication and Welding

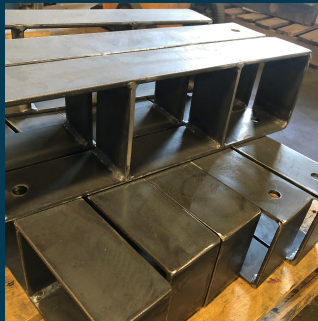

General Welding Services
Corona Mfg. Co.

Welding and Assembly Services

General Welding Services

is a full service fabrication/welding shop with ASME certification and a uL certified panel shop to 508A standards. We have more than 25 years experience to support each customer's unique delivery and costing objectives with either custom or volume produced throughput.

GWS provides custom manufactured components or purchased parts: available in carbon, 304 or 316 stainless steel, grooved, threaded, welded, fabricated, long or short run assembled parts, ASME pressure vessels or UL metallic enclosures.
