

INTERCOM SYSTEM

Furnish and install all labor, materials and programming to provide complete and operational building Intercom system that is tied back to the existing system.

The Scope of Work shall include:

- a. Intercom Contractor shall provide power supplies, amps, and speaker equipment matching equipment currently being utilized at the school. Verify with owner prior to bid.
- b. Intercom Contractor shall provide, install, program and test any required equipment necessary to expand the existing system to accommodate the new intercom devices in the building addition. See plans.
- c. Provide wire guard protection on any devices located in areas subject to damage. Including but not limited to Gyms, Multi-Purpose Rooms, Weight Rooms, Vocational Education Shops, etc.

Intercom system shall be installed by a factory-authorized service organization with minimum five years of successful installation experience and licensed in N.C.

Intercom System and associated components shall be Valcom to match existing school system equipment or as listed above.
