

COVID-19 Guidance for the Package Delivery Workforce

OSHA is committed to protecting the health and safety of America's workers and workplaces during these unprecedented times. The agency will be issuing a series of industry-specific alerts designed to keep workers safe.

If you are in the package delivery industry, the following tips can help reduce the risk of exposure to the coronavirus:

- Encourage workers to stay home if they are sick.
- Establish flexible work hours (e.g., staggered shifts) where feasible.
- Practice sensible social distancing and maintain six feet between co-workers where possible.
- Minimize interaction between drivers and customers by leaving deliveries at loading docks, doorsteps, or other locations that do not require person-to-person exposures.
- Encourage respiratory etiquette, including covering coughs and sneezes.
- Promote personal hygiene. If workers do not have access to soap and water for handwashing, provide alcohol-based hand rubs containing at least 60 percent alcohol. Provide tissues, as well as disinfectants and disposable towels workers can use to clean work surfaces, including vehicle interiors.
- Allow workers to wear masks over their nose and mouth to prevent them from spreading the virus.
- Discourage workers from using other workers' tools and equipment.
- Use Environmental Protection Agency-approved cleaning chemicals from List N or that have label claims against the coronavirus.
- Encourage workers to report any safety and health concerns.
