## Course Aims

- Safeguarding means protecting people's health, wellbeing and human rights, and enabling them to live free from harm, abuse and neglect. It also means making sure people are supported to get proper access to health. Safeguarding adults at risk is fundamental to high-quality health and social care services.
- All professionals working with adults at risk across all sectors should complete relevant safeguarding adults training courses.

## Learning Outcomes

- Understand the legislation regarding safeguarding adults,
- Support vulnerable adults to make their own choices,
- Plan an adult protection investigation,
- Prevent harm and reduce the risk of neglect or abuse to adults with living with care and support needs,
- Provide strong leadership to make safeguarding integral to care, and
- Understand ways of identifying, responding and preventing abuse and neglect.

Based on current legislation and guidance, we recommend that this course must be refreshed depending on the advise and guidance from the learner's organisation.

Learners are strongly advised to seek guidance from their organisation
