

## Faux Wood Moulding - GRAINart

Our insulated (R8) Faux Wood moulding products are comprised of a cementitious coating with a grain and a polystyrene insulating core. All faux wood moulding is fully finished and sealed. Our faux wood cladding is available in various custom sizes. Our standard sizes vary from 3" to 12" W.

WD-GRAINart Pre-finished Woodgrain Panels

# Installation Procedure

## EIFS SYSTEM

**Detail New:** Should be installed as shown to ensure a continuous surface incorporating moulding shape (top and bottom)

**Note:** Profile must be installed directly to the cured basecoat of the EIFS Assembly prior to installing

## MASONRY BLOCK

# Instructions

1. Approved substrate must be dry and free of dust or any other “bond breaking” materials.
2. Apply approved adhesive to back of profile using 3/8" vertical notched trowel.
3. While adhesive is wet, install Lacuno Art moulding pressing it firmly into place. Remove excess adhesive.
4. Some pieces may require mechanical attachment until adhesive sets up.
