Active identification

CAS Number: 67-97-0

ChemicalName: (3 β , 5Z, 7E)-9,10-secocholesta-5,7,10(19)-triene-3,25-diol monohydrate

Empirical formula: C₂₇H₄₄O₂.H₂O

Formulation Specifications

Appearance: Block or pellet

Colour: Green

Cholecalciferol Content: 0.75g/Kg min.

Application

For control of rats and mice, including anticoagulant species, in and around domestic, commercial, and agricultural building.

Stability and Storage

Store in the closed, original containers in a well-ventilated area, as cool as possible. DO NOT store for long periods in direct sunlight. Store in a locked room or place away from children, animals, food or feedstuffs, seed, and fertilisers.
