

FRITZZERLAND
Artisanal Edibles

FRITZZERLAND

Artisanal Edibles

MISSION STATEMENT

Elevate your edible experience one bite at a time with Fritzzerland, an Artisan edible company from award winning Master Chocolatier Fritz Knipschildt. We believe that the consumer experience should be put

first in every part of our process. We create fun and sophisticated handmade artisan edibles using old world methods and the highest quality ingredients. We are committed to providing safe and chemical free ingredients in all of our products—not only through the food ingredients but also with cannabis. We use only clean, solventless extract Rosin when infusing our artisan edibles. Our commercial kitchen is located at Op Pharm's state of the art cultivation and manufacturing facility where we utilize their cannabis inputs within our process. Our standards of excellence in food safety and efficacy allow all to consume with confidence knowing exactly what they are taking.
