

ENVIRONMENTAL POLICY

Deadwood Arborists are dedicated to minimizing the environmental impact of our operations. To achieve this, we will endeavour to remain with our obligations and guide the team in continually enhancing our environmental performance.

Our approach will be informed by recognized industry best practices, ensuring that our activities align with sustainable goals and contribute to long-term ecological preservation.

We will ensure that this policy reflects the scale and nature of **Deadwood Arborists'** environmental responsibilities and services. It will be regularly reviewed and updated to support continuous improvement and pollution prevention.

Key Commitments

- Legal Compliance: We will comply with all relevant environmental laws, industry standards and any other obligations related to the environmental aspects of our work.
- Structured Framework: Our management system will provide a structure for setting and reviewing environmental goals and performance metrics.
- Clear Communication: This policy will be communicated to all employees and subcontractors contractors, whilst we will also ensure it is available within the company at all times.

Environmental Objectives

To meet our environmental commitment, Deadwood Arborists will pursue the following objectives:

1. Regulatory Compliance: Ensure full compliance with existing environmental regulations and prepare for future legislative changes.
2. Impact Reduction: Proactively assess and mitigate potential environmental impacts, including those related to equipment lifecycle and waste disposal.
3. Emission Control: Work to reduce emissions from our operations, including the use of more efficient equipment and vehicles.
4. Pollution Prevention: Adopt measures that prevent pollution in our activities, whether through better resource management or eco-friendly practices.
5. Waste Management: Continuously improve our waste handling processes, prioritizing recycling and repurposing of green waste.

6. Resource Efficiency: Minimize the consumption of natural resources such as water, fuel, and materials through careful planning and innovative approaches.
7. Noise & Nuisance Control: Take steps to reduce noise and other operational disturbances to local communities and wildlife.
8. Ecological Responsibility: Promote constructive conservation within our working practices and assist in the protection of ecosystems and wildlife habitats.
9. Biodiversity Support: Identify and safeguard areas that support local wildlife, integrating biodiversity into our project planning.

Deadwood Arborists will remain committed to raising environmental awareness across our workforce, ensuring that every team member understands their role in reducing our ecological footprint. We will also educate our clients about the environmental benefits of our services, such as repurposing woodchip and/or logs which may otherwise be considered a “waste product”.

Environmental performance will be assessed continuously, with a focus on improving the outcomes of our initiatives. Any feedback from employees, clients, industry resources or the general public may be used to inform further advancements in our practices.

In addition, as a business, **Deadwood Arborists** have pledged to help restore the balance from tree removal in the areas in which we operate with our **Plant More Trees** campaign. More information on this is available on our website.

In our position as management of **Deadwood Arborists Tree Care Specialists Ltd**, we **Liam Hughes** and **Thomas Hughes** swear to uphold, enforce and review this policy.
