SNEAK Agility Class Descriptions

Intermediate: Dogs entering this level are expected to be confident negotiating all obstacles at competition level, including the weave poles. Dogs and handlers should also have the ability to handle a fourteen obstacle sequence. Emphasis will be on learning some of the more complex handling maneuvers, some involving backsides, or drills to improve team work. Full course work involving 18 obstacles may also be included, but will not be the focus every week. Dogs must have a reliable recall.

Handling for Performance & Competition: This class is designed to familiarize handlers and the dogs to some of the newer, different and latest sequences that are starting to show up at trials. These include such things as back side of a jump, tricky weave entries, tough contact approaches and exits, and 270's among others. Class is open to dogs who are proficient on all obstacles at the Novice level and above.
