9am – 10pm Event Marketplace to buy/sell games and accessories

MARKETPLACE

Buying or Selling games or accessories?

Selling

Two options to sell using the sales tickets included in this package for each item:

-Complete a small sales ticket with the purchase price, your primary badge #, and name of the game. Affix with painters tape or equivalent which will not damage the box. To save time you can print and complete and attach the tickets in advance. We will have blank forms and tape at the event you can use. Please print clearly to avoid any confusion.

-Silent auction: Attach the completed silent auction form to your item and set the minimum price and minimum bid increments to start the bidding. You may use either or both the auction sheet and a purchase price ticket on the same game to give buyers the option. Forms will be available at the event if you need them. If you need more than 5, please let us know in advance to make sure we have enough printed for you.

Buying

Anyone can make purchases from the marketplace for items not being auctioned or by paying the full price for an item being auctioned (if the seller has attached a sales ticket in addition to the auction form). No badge # is required to make these purchases.

If you decide you want a primary badge number to place bids on auction items in the marketplace or to sell an item, you will need to provide your registration information to the marketplace desk if you have not registered for one prior to the event. This will include billing details with a valid payment method. Any bid without a valid badge number will be disqualified and the next valid bidder will win the item.

At 10pm the auction closes with all final bids accepted and the buyer's credit cards will be charged immediately after the auction unless paid for in person while picking up. Sale tickets for all items sold in the marketplace will be reconciled and 100% of the proceeds will be sent to the seller following the event. We are absorbing all transaction fees for the sale, to encourage more people to fill the marketplace. The marketplace will only accept Debit, Visa, and Mastercard. Cash will not be accepted.
