

👊 Attention APWU members! 👊

Why a New Union?

After Kevin Cole retired in April 2025, there was no Union presence for MONTHS!

Where was your Union?

Finally, in September two stewards stepped up, but not properly trained with no back up from the current Union (Garrett Jenkins and Alexi Tran). Later, one steward dropped out.

Where was your Union?

Garrett Jenkins and Alexi Tran messed up the vacation boards, and they made quick settlements on letters of warning with management, instead of filing grievances for the Clerks and other craft members. The Anaheim Plant is in dire strait involving Union representation, facing even **MORE GRAVE** challenges than before. **They only remember you when it's election time. Where were they in the last three years? Don't let them fool you!**

You don't need to suffer another three years!

It's time for a New Union!

What will the New Union do?

Properly train Stewards on each tour.

All grievances will be investigated and filed.

EEO experienced, will represent members in EEO's.

We will NEVER make DEALS or quick settlements with management.

We will make our presence consistently to ensure the contract is enforced, listen to concerned members, and to assure the members' rights are met.

Make sure management adheres to the contract and hold them accountable.

The newly elected President will honor your trust through her action and make Anaheim Plant as her second office.

We will represent all members in all three crafts on:

- Seniority
- Holiday Scheduling
- Overtime
- Address Management Misconduct and Report it to Labor Relations.
