Recommendation to the Los Alamitos Unified School District

I was art teacher for 38 years and my last 26 years were in Los Alamitos at Pine Jr. High School, McAuliffe Middle School and the Orange County School of Arts. I also taught in Long Beach, Savanna High School Activities Director in Anaheim and Appleton West High School in Wisconsin. My first ten years I was a football and baseball coach. I mention this to show my experience in education.

I met Jason Perez two years ago when he did a project for me that involved a video interview with me at my Sunset Beach Art Gallery. The interview was very well done on his part with many thoughtful questions about my life as an art teacher, an artist and art gallery owner. This included questions about what got me to move in that direction as a young person.

Mr. Perez is a hard working person that donates a great deal of his time for the benefit of others while using his unique skills in the field of communication. Jason is a very thoughtful, reliable individual who is outstanding with his communication capabilities from his excellent experience in the field.

I highly recommend Mr. Jason Perez as the Communications and Public Information Officer for the Los Alamitos Unified School District.

William M. Anderson (Bill Anderson)
